Good Hair

Healthy Mothers.

Mothers should always keep in good bodily health. They owe it to their children. Yet it is no unusual sight to see a mother, with babe in arms, coughing violently and exhibiting all the symptoms of a consumptive tendency. And why should this dangerous condition exist, dangerous alike to mother and child, when Dr. Bochee's German Syrup would put a stop to it once? No mother should be without this old and tried remedy in the house—for its timely use will promptly cure any lung, throat or bronchial trouble in herself or her children. The worst cough or cold can be speedily cured by German Syrup; so can hoarseness and congestion of the bronchial tubes. It makes expectoration easy, and gives instant relief and re-freshing rest to the cough-racked consumptive. New trial bottles, 25c; large size, 75c. At all druggists.

A Continual Strain

Many men and women are constantly subjected to what they commonly term "a continual strain" because of some financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with the attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot, as a rule, get rid of this "continual strain," but they can remedy its healthdestroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidneys, insures healthy body functions, gives vim and spirit to one's whole being, and eventually dispels the physical or mental distress caused by that "continual strain." Trial bottle of August Flower 25c; regular size, 75c. At all druggists.

Orchard, where he took the train for Bloomfield, and from there he drove twenty-five miles across country to his father's home near Vermillion, S. D.

Of all the cool deals that has been called to our notice for some time, was the fact that a man who had purchased some groceries from the parties who have been humbugging our farmers with their sugar bait lately, called on some of our merchants to borrow money to pay for what he had bought of the men who kept no book account nor took produce in exchange.

Last Sunday morning, while rounding up some cattle that had broken out of the pasture, Earl Smith, living a mile northwest of town, had his horse fall with him with the result that his neck came near being broken. He has been confined to his bed ever since but at this writing it is believed nothing serious will result from the accident.—The Advocate.

A. C. Crossman, Atkinson's hustling land man, went to Iowa Wednesday morning to close up several land deals whereby Iowa will lose several of her citizens and Holt county will gain a number of new settlers.

Who runs Holt county? Is it a one man power, supported by a gang enriched by spoil, or is it the people. The decision of Judge Harrington in the case of The Frontier against Treasurer Cronin, to compel him to comply with the order of the county board, upholds the contention of County Attorney Mullen that he is supreme, the people have no voice in county affairs and the supervisors who represent them are figureheads. If such is the law why not do away with the board of supervisors and let Mullen run the county. The office of supervisor was created by our legislators for the purpose of giving the people, through them, charge over county affairs and gives no man power to arrogate the rights of the people. One of the duties of the board, which has not been nullified, is to pass on all claims against the county and they will undoubtedly investigate the legality of the Independent bill for printing that was done contrary to the resolution adopted by them at the April session before allowing the same.—The Graphic.
