Healthy Mothers.

Mothers should always keep in good bodily health. They owe it to their children. Yet it is no unusual sight to see a mother, with babe in arms, coughing violently and exhibiting all the symptoms of a consumptive tendency. And why should this dangerous condition exist, dangerous alike to mother and child, when Dr. Bochee's German Syrup would put a stop to it once? No mother should be without this old and tried remedy in the house—for its timely use will promptly cure any lung, throat or bronchial trouble in herself or her children. The worst cough or cold can be speedily cured by German Syrup; so can hoarseness and congestion of the bronchial tubes. It makes expectoration easy, and gives instant relief and re-freshing rest to the cough-racked consumptive. New trial bottles, 25c; large size, 75c. At all druggists.

A Continual Strain

Many men and women are constantly subjected to what they commonly term "a continual strain" because of some financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with the attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot, as a rule, get rid of this "continual strain," but they can remedy its healthdestroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidneys, insures healthy body functions, gives vim and spirit to one's whole being, and eventually dispels the physical or mental distress caused by that "continual strain." Trial bottle of August Flower 25c; regular size, 75c. At all druggists.

EWING.

We understand that three of the teachers who taught in our school last year, will teach at Neligh the next term of school. Prof. Sornson, Miss Burlaw and B. B. Butler are the three and are all well qualified for their respective positions.

Two brothers of L. C. Kerns, David and Douglas Kerns, whose homes are in Oklahoma, arrived at the former's place, six miles north of Ewing, one day last week. Douglas Kerns was accompanied by his two children, a boy and a girl aged 8 and 10 years. On Tuesday of this week they had been driving over the country to see the many changes that had taken place since they were here last. In the evening they sat up until 11 o'clock, talking over the many things that had occurred in days gone by and all seeming to be in their usual health. All retired except Douglas, who went outside to look after his team and nothing more was seen of him until the early morning. Lew found his brother lying up against a wheel of his wagon, dead. It appears that the deceased had been affected with heart trouble, and upon examination by a doctor, it was decided that he came to his death from that cause. The funeral will be held today at 2 o'clock and the remains laid to rest in the cemetery north of Emporia. The two children will make their home with their Uncle Lew for an indefinite time, having lost their mother some time ago.—The Advocate.

ing, but did not grant a saloon license to E. L. Purdy, because his petition did not bear a sufficient number of resident signers. A vote was taken on the matter of building cement sidewalks from the schoolhouse to the crossing leading to the depot. It was decided to begin work at once, in order to have the work completed before school opens in September.

A lady representative of a children's society in Missouri visited Holt county towns this week. She said she everywhere met kind and appreciative office men, who gave liberally to the cause of philanthropy and religion. But sometimes brutes in the outward form of men told her that they had nothing to spend for the brats but plenty if she would like to be shown a good time. She encountered some of those vermin in O'Neill, Atkinson and Stuart. The lady was young, attractive and wore no costume to proclaim her institution and work. Had she worn the nun's veil, the deaconess's white tie or the Salvation lassie's red and blue bonnet, she would not have encountered such insults while soliciting for the little ones who, like Christ, have no place to lay their head. Only a spirit capable of the highest christian fortitude could pursue such a calling and remain uncontaminated by the selfishness of the world.—The Ledger.

There is no necessity of incurring the expense of a physician's service in such cases if Chamberlain's Colic, Cholera and Diarrhoea Remedy is at hand. A dose of this remedy will relieve the patient before a doctor could arrive. It has never been known to fail, even in the most severe and dangerous cases and no family should be without it.
