Thomas' Lecture "The Crime of Two States," Enters Into the Prospect Now.

"KID" SLY QUESTIONED

Says That He Is Permitted to Stay in Omaha Providing He Don't Commit Any Crimes There.

Omaha, Neb., Oct. 11-Elmer Thomas' famous lecture on "The Crime of Two States" will be introduced in the trial of Tom Dennison for the Pollock diamond robbery. This is one outcome of a tilt between Attorneys Thomas and Connell Saturday during the taking of the deposition of Alfred Sly, known as "Kid" Sly, which was intended to im-peach the testimony of Shercliffe.

The most interesting of the informa-tion furnished by Sly came out in his cross examination by Thomas, when he stated that he had been told that so long as he behaved himself he could remain in Omaha without being mo-

lested by the police. Sly further stated that it was a practice of his to go to church and Sunday school whenever he thought it might be possible to steal a pocketbook or two. He denied, however, that he ever did anything of the kind in Oma-ha, as he was always "good" when in the site this city

MANY KILLED IN RICT. Rioting at Moscow Saturday and Sun-

day of a Bloody and Desperate Kind.

Moscow, Oct. 11 .- Order was restored at 11 last night. It is officially announced that among the wounded are five Cossacks and four gendarmes and a number of policemen.

St. Petersburg, Oct. 11.-General Trepoff has been informed by telephone from Moscow that no serious disorders occurred there last night. The situation is slightly more reassuring this morning. The strike is spreading, however, and

the authorities are evidently very ap-prehensive. They are hopeful that St. Petersburg will not be affected.

Petersburg will not be affected. One of the serious developments at Moscow today was the attempt to in-terrupt railroad communication. Rails were tampered with a short distance from Moscow, causing derailment of a train, but there were no casualties. The ministery of the interior admits that three Cossack policemen were killed yesterday, but has no confirma-tion of the report that eight bakers were killed. Deliberate Plot at Tiffic

Deliberate Plot at Tiflis.

Throwing of bombs at troops in Tiflis yesterday evening, which resulted in soldiers firing on the people, ap-pears to have been the outcome of a deliberately organized plot. Ten bombs were thrown simultaneously in the vi-cinity of three barracks in widely sep-arated quarters of the city. Shots were also fired at soldiers as they rushed out of the barracks, but the loss of life was confined to one Cossack and one bomb thrower, in addition to twenty persons wounded.

Reports Serious Slaughter.

London, Oct. 1.-Special dispatches to the London newspaper describe the des perate state of affairs at Moscow Saturday and Sunday. Many persons were killer or wounded in the rioting on the Tversky boulevard at the site of the monument to the poet Alexander Pushkin and in the great square fronting the monastery, where the troops used sabers and rifles, firing point blank into the rioters. The authorities have issued a proclamation giving the police abso-lute power to prevent assemblages.

Daniel Davis and his wife, who live near New vernon, have been taken to police headquarters and later it was announced that there apparently was no evidence that would justify holding them and that they would be honorably discharged.

The platform, in substance, follows: "The paramount issue at this time before the people of Massachusetts is relief from tariff restrictions. The ef-fect of this policy, forced upon the dominant republican party by the greed of great and selfish interests, has been to cut Massachusetts off from its national markets of sale and purchase and to push the state toward the danger line of industrial decline. It is known in trade reports, financial statements and census returns that while the industries of the country as a whole have mate-rially increased in the past decade, those of this state have remained nearly stationary. We believe that sensible relief from these evils could be obtained without disturbance to business by placing upon the free list a number of raw materials of our industries, such as coal, iron, lumber, hides, wood pulp, as coal, fron, lumber, hides, wood pulp, and by immediate enactment of a dual tariff law which, while having the pres-ent tariff as a maximum, would give liberal reductions in duty rates to those nations that will accord to us favor-

upon closer questioning, that they were not his real parents. The boy, who is 6 years old, was found last evening on a Third avenue trolley car, where he had been abandoned by two men. He had been missing twelve days, and in the meantime his captors had endeavored first to extort \$500 and then \$5,000 in ransom from his parents
