LEAVENED BREAD

Has Been Man's Constant Mainstay From Time Immemorial.

Some writer has said that "The first miller emerging from his savage state, with no thought save hunger, plucked the wheat from the stock, and, using his teeth for millstones, ground the first grist for a customer who would not be denied—his stomach." Thus gaining experience by test in the food line, it would be only natural for this miller to lay up a quantity of grain against an hour of need. Just when he commenced grinding his wheat in the rude stone mortar and moistening the flour preparatory to baking it in the ashes of his camp fire, and just when it was found that an old piece of dough in a fresh batch made it better or "leavened" it, is beyond the reach of historians. Certain it is that though the principle was the same thousands of years ago as it is to-day, it has remained for the makers of Yeast Foam to supply a yeast with all the true leavening powers minus the properties that produce sour, "runny" or soggy bread. This is the yeast that took the first grand prize at the St. Louis Exposition, and revolutionizes the bread making in every home where it is used because much better bread can be made with it from any flour.

Yeast Foam is purely vegetable, being made of the best malt, corn, hops and other healthful ingredients. The factory is also the cleanest and best equipped in the world. This yeast is the only kind that preserves in the bread all the delicious flavor and nutritive value of the wheat. The bread made with it is always sweet and wholesome and stays moist until used. Forty loaves of bread can be made from one 5c package. The makers of Yeast Foam are giving out a new book called "Good Bread; How to Make It." This little book, invaluable in its way, has twenty-six illustrations in colors, and tells how to make all kinds of bread, biscuits, buns and rolls, as well as containing other recipes which will be found invaluable in the home. The way of preparing the different recipes is very clear and comprehensive. The book will be sent free to any one sending their name and address, with a request for same, to the Northwestern Yeast Company, Chicago, Ill. Every woman who bakes should secure a copy.
