MIDDLE

A Time When Women Are Susceptible to Many Dread Diseases-Intelligent Women Prepare for it. Two Relate their Experiences.

The "change of life" is the most critical period of a woman's existence, and the anxiety felt by women as it draws near is not without reason. Every woman who neglects the care of her

health at this time invites disease and pain. When her system is in

a deranged condition, or she is predisposed to apoplexy, or congestion of any organ, the ten-dency is at this period likely to become active -and with a host of nervous irritations make life a burden. At this time, also, cancers and tumors are more liable to form and begin their destructive work.

Such warning symp. toms as sense of suffocation, hot flashes, head-aches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipa-tion, variable appetite, weakness, inquietude. Ind dizziness, are promptly heeded by intelligent women who are approaching the period In life when woman's great change

may be expected.

Lydia E. Pinkham's Vegetable Compound was prepared to meet the needs of woman's system at this trying period of her life. It invigorates and strengthens the female organism and builds up the weakened nervous system.

For special advice regarding this important period women are invited to write to Mrs. Pinkham at Lynn, Mass., and it will be furnished absolutely free of charge. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant before her decease and for twenty-five years since her advice has been freely given to sick women.

Read what Lydia E. Pinkham's Com-pound did for Mrs. Hyland a Mrs. Hinkle:

Dear Mrs. Pinkham:-

"I had been suffering with displacement of the organs for years and was passing through the change of life. My abdomen was badly swollen; my stomach was sore; I had dizzy spells, sick headaches, and was very nervous." Mrs. Hinkle it will do for other women at this time of life. It has conquered pain, restored health, and prolonged life in cases that utterly baffled physicians.

Homely Wit. A magazine editor was praising sad-William Sharp, recently deceased in Sicily, who achieved no little fame as a poet, under the pen name of Fiona McLeod.

McLeod. "Sharp," he said, "wrote melancholy, dreamy things, but he was personally a cherry, vigorous soul. No one liked a joke better than he." "He was one day praising the real literary talent that humble, uneducat-ed people often show in conversation. "He said that, in Londonderry one afternoon, he was seated in a barber shop when a farmer entered to get his hair cut.

shop when a farmer entered to get his hair cut. "The farmer's locks had an odd, ragged look, and the barber, after re-garding them soornfully, said: "Who cut your hair last, old man?" "My wife,' the farmer answered, with an awkward smile. "The barber snorted. "What did she do it with?" he asked. 'A knife and fork?"

Necessary Protection. "Good land, Herbert! What are you put-ting your rubbers on for? You said you "So I am. I'm going to sit down and read this new society novel you've been raving about." .. "But what-

"Why, I always put my rubbers on when I expect to wade through a lot of slush.

DISFIGURED WITH ECZEMA.

Brushed Scales from Face Like Powder-Worse Under Physicians-

Cuticura Works Wonders.

"I suffered with eczema six months. had tried three doctors, but did not get any better. It was on my body and on my feet so thick that I could. hardly put a pin on me without touching eczema. My face was covered, my eyebrows came out, and then it got in my eye. I then went to another doctor. He asked me what I was taking for it, and I told him Cuticura. He said that was a very good thing, but that he thought my face would be marked for life. But Cuticura did its work, and my face is now just as clear as it ever was. I told all my friends about my remarkable cure. I feel so thankful I want everybody far and wide to know what Cuticura can do. It is a sure cure for eczema. Mrs. Emma White, 641 Cherrier Place, Camden, N. J., April 25, 1905."

Still Another.

From the Philadelphia Press. "Some people are the worst rubber-ecks," Pepprey was growling. "What's the matter now?" asked Sap-

head. "Oh, some fellows are never satisfied to

know that things are thus or so; they al-ways want to know the why and wherefore of it. "That's true! I wonder why it is."

Women Use Safety Razor. From the Minneapolis Journal. "Well, she's the pioneer in a new line of trade for us, certainly she is," said the drug store proprietor after the door closed behind a stunning

the door closed behind a stunning brunette. "I never though of it before. The safety razor should certainly be a god-send, a perfect treasure, to the fair ones with a tendency to superfluous hair on the face. Without doubt she will tell some one else in confidence and the sale of these razors will go on. I ought to have given her that razor for nothing, because she will prove to be the vanguard of a host of women customers when she finds how smooth-ly the thing works. "You know, the feminines are all afraid of the strop and the shining steel, and they couldn't keep an edge up at all. The safety solves the ques-tion. Gee, what a great thought." And the drug man saw himself the Columbus of a new idea. According to the drug man it is a common thing for women of the mid-dle class to buy lather cups and brushes and razor strops for their hus-bands. They are accustomed to shop-ping for men and therefore the safety brunette.

GET RID OF THE CAS

Williams' Pink Pills Strengthen the Stomach and Enable It to Dr.

Do Its Work. When the stomach is feeble the food ies in it undigested, decays and throws off poisonous gases that distend the walls of the stomach and cause interference with other organs, especially with the action of the heart and lungs. These gases have other ill effects. The nerves and the brain are disturbed and discomforts such as dizziness, hot flashes, sleeplessness, irritableness and

despondency originate from this source. Experience shows that these troubles vanish just as soon as the stomach is made strong enough to digest the food. In other words, it needs a tonic that will rouse it to do the work of changing the

food into nourishment. Miss Minerva C. Ladd, of Ipswich, Mass., says: "I had a weak stomach from the time I was a little child. Whenever I took hearty food it would cause terrible faintness, and I would finally vomit what I had eaten. At times there would be the most intense pains through the upper part of my body. For days in succession, I would to lie down most of the time. have The distress was often so great that I could hardly bear it, and the frequent and violent belching spells were very

disagreeable, too. "My doctor's medicines gave me little relief and it was not until I tried Dr. Williams' Pink Pills that I found a cure. Within three weeks a decided improvement was noticeable. The belching spells were less frequent, the pains through my body were not so intense, my food was retained and after taking the pills for a few weeks longer I found that I was altogether free from the miseries I had so long suffered. Every dyspeptic should read "What to Eat and How to Eat." Write the Dr.

FOOD HELPS

In Management of a R. R. Speaking of food a railroad man says:

"My work puts me out in all kinds of weather, subject to irregular hours for meals and compelled to eat all kinds of food.

"For seven years I was constantly troubled with indigestion, caused by eating heavy, fatty, starchy, greasy, poorly cooked food, such as are most accessible to men in my business. Gen erally each meal or lunch was followed by distressing pains and burning sensations in my stomach, which de stroyed my sleep and almost unfitted me for work. My brain was so muddy and foggy that it was hard for me to discharge my duties properly.

"This lasted till about a year ago, when my attention was called to Grape Nuts food by a newspaper ad. and 1 concluded to try it. Since then I have used Grape-Nuts at nearly every mea! and sometimes between meals. We railroad men have little chance to pre pare our food in our cabooses and 1 find Grape-Nuts mighty handy for it is ready cooked.

"To make a long story short, Grape Nuts has made a new man of me. 1 have no more burning distress in my stomach, nor any other symptom of in digestion. I can digest anything se long as I eat Grape-Nuts, and my brain works as clearly and accurately as as engineer's watch, and my old nervous troubles have disappeared entirely."
