These will give him about 300 more which will swell his plurality to over 5300, which is not so "worse" considering the vigorous efforts of the "plunder-pund gang".

State Senator Vote.

Frank Phillips, republican, is elected state senator for the Thirteenth district over M. T. Sanders, fusion, by a majority of 71. Obituary.

The Omaha World-Herald published the following obituary of the mother of E. S. Eves of this city, who died last week:

Sophia Elizabeth Barthelov Eves was born in Vincennes, Ind., February 2, 1834, and died at Council Bluffs, Ia., November 4, 1906, aged 72 years, 9 months and 2 days.

On June 19, 1884, deceased was married to Samuel Howard Eves, beginning their married life in Wisconsin, and from there drifting with the western tide on to Minnesota and thence to Nebraska in 1885, in which state they lived until 1905, when they took up their residence on Pomona avenue, Council Bluffs.

Deceased had been subject to heart trouble for a number of years, yet was always happy and cheerful, having a firm faith in the Savior's care at all times, having been a member of the Baptist church and a Christian from a little girl. On the morning of her death she and her husband decided to attend church and when the time came Mr. Eves went to the barn to hitch up the horses. Not being gone over three minutes, he returned to the house for her, only to find the peaceful smile of contentment on her face.

Deceased leaves a husband and four children—Mary, Marie and William Thomas of Oakwood, Okla.; Mrs. James Watson of Milbank, S. D., and Ed S. Eves of O'Neill, Neb., who sadly mourn the loss of an affectionate wife and loving mother.

The Markets

South Omaha, Nov. 14.—Special market letter from Nye & Buchanan.—The week opened with another liberal run nearly equal to that of a week ago. The bulk of receipts consist of western rangers and dressed beef men readily took the killers at steady prices. The few corn fed cattle on sale are of inferior quality, barely warmed up and slow sale. Good feeders are about steady, others five to ten lower. Cow stock is in liberal supply and market 10 to 15 lower. It looks as if this week might be a good time to buy feeders or stockers.

We quote—
Choice steers.....\$5 60@6 30
Fair to good.....5 00@5 50
Common & warmed up.....4 00@4 00
Cows and heifers.....3 00@4 25
Thin cows.....1 75@2 90
Choice heavy feeders.....4 00@4 75
Fair to good.....3 50@3 90
Light stockers.....2 50@4 25
Veals.....2 00@4 00
Bulls.....3 50@6 00

Hogs have shown a few spasmodic upturns on extremely light receipts but the situation is weak. Range \$5.90 to \$6.15.

The sheep market has shown unusual weakness of late and is 15 to 25 cents lower than last Friday.

The attention of the county court was occupied Tuesday with a case from Verdigris township, the State of Nebraska vs. Samuel Hoshaw, Pierce C. Stevens being complaining witness. The county attorney appeared for the state and R. R. Dickson for the defense. The suit was instituted to place the defense under bonds to keep the peace. It appeared from the testimony that the defendant had been greatly annoyed by two of Mr. Stevens' sons, who it was alleged in an affidavit made in the case, had used insulting and abusive language to both Mr. Hoshaw and his wife. It

appears that the forbearance of the defendant gave way and he displayed a shooting iron a time or two, hence the parent of the Stevens boys came in with the allegation that he feared for his sons' lives. The fact of the gun play being established, the court held the defendant to the district court on bonds of \$150. The testimony showed that there may be need of placing others in that vicinity under bonds to keep the peace. A large delegation was in attendance at the trial from Verdigris.

CONTEST NOTES.

There are many who owe subscription to The Frontier who are waiting for some contestant to call on them. They want to get in on our proposition while they can get two papers for the price of one.

Contestants should also bear in mind that there are hundreds of people in this county who will subscribe for The Frontier if they will make it a point to see them and state our proposition to them. When they know they can get both The Frontier and The Nebraska Farmer for the price of one they cannot turn it down.

Remember that The Farmer is published weekly and is dollar-a-year paper, printed on fine book paper, and is the only paper of its kind that stops promptly when the time is out.

Some girl is soon to be in possession of a fine Bush & Gerts piano, and without money and without price to her. It may be that with a little extra effort on your part you would be the lucky one. It wouldn't take but a few new subscribers to put you at the head of the list, and it wouldn't take you very long to get these if you would make up your mind to get them.

The Frontier should go into the homes of every family in Holt county, as it is the leading paper in the county and a county seat paper. While The Frontier and The Farmer can be secured for the price of one it is a good time for old subscribers to pay up and new ones to subscribe.

SAP COUNTRY OF WEALTH

How Money Centers Are Built Up At Expense of Rural Communities.

MILLIONS RAKED IN EVERY YEAR

Mail Order Houses Concentrating Much of the Wealth of the Country.

Every year millions upon millions of dollars find their way from the towns, villages and rural districts of the country to the coffers of the mail order houses in the cities, and go to the upbuilding of enormous institutions in the centers of population. Naturally, the sources from which the contributions are made suffer accordingly.

Figures ever tell a better story than words. Here are figures which tell a story so stupendous that its full significance cannot be grasped in a moment, but the mere sight of which are awe-inspiring:

In the year 1905 two mail order houses located in Chicago did business amounting in round numbers to \$80,000,000. In the year 1904 these same concerns did a business of about \$62,000,000, a gain of \$18,000,000 or nearly 30 per cent in a single year being thus exhibited.

These figures represent the sale last year of one dollar's worth of merchandise for every man woman and child in the country by two catalogue houses alone, and those operating from the same central point. Dozens more of varying size and importance are operating all over the country from coast to coast and from border to border.

A fact not generally known is that hundreds of concerns throughout the country which now are doing business through the regular trade channels are waiting only a parcel post law to unloose literature, already prepared in many instances, which would project them into the mail order field, and this does not take into account the hundreds and perhaps thousands of entirely new mail order concerns which inevitably would spring into existence under such friendly auspices.

The two Chicago institutions referred to, already occupying immense buildings, found themselves cramped for room. One of them expended not less than \$1,000,000 and probably more, for a new home. The other lately has secured a new location and also will expend at least \$1,000,000 for an immense new building.

Anyone who will reflect even casually on the subject must become impressed that the influence of the mail order business is toward the centralization of wealth, and how enormous a part it is playing in this direction will be understood from a second glance at the figures which have been given above.

It is due to himself that every patron of the mail order house should inquire honestly of himself what the final outcome is to be if the mail order business shall continue to make the great strides which have marked its progress during the last half decade.

It is useless to repeat the well-worn argument of the mail order concerns that they are selling goods enough more cheaply than the merchants in the regular channel of trade to leave their customers more money than ever to devote to home enterprises and institutions. The fallacy of this statement has been proved over and over again by actual and minute comparisons of goods, as to their quality and prices. To refute it finally and indisputably by a simpler and more direct method it is necessary only to ask the reliable business men of any of the smaller communities to show the evidence from their books and accounts of the harm the mail order habit is doing their communities.

It is a truth as old as the hills and as certain as the rising and setting of
