

Weak Lungs Bronchitis

For over sixty years doctors have endorsed Ayer's Cherry Pectoral for coughs, colds, weak lungs, bronchitis, consumption. You can trust a medicine the best doctors approve. Then trust this the next time you have a hard cough.

"I had an awful cough for over a year, and nothing seemed to do me any good. I tried Ayer's Cherry Pectoral and was soon cured. I recommend it to all my friends whenever they have a cough."—Miss M. MEYERS, Washington, D. C.

RURAL WRITINGS

[Items from the country are solicited for this department. Mail or send them in as early in the week as possible; items received later than Wednesday can not be used at all and it is preferred that they be in not later than Tuesday. Always send your name with items, that we may know who they are from. Name of sender not for publication. See that your writing is legible, especially names and places, leaving plenty of space between the lines for correction. Be careful that what you tell about actually occurred.]

D.oney.

Mr. and Mrs. H. Hubbard were visitors at the Berger Bros. place one day last week.

Mr. Elmer Newman and father attended the Eden Valley church last Sunday.

Miss Hilda Weadfield is another of our young people who has recently left for Wayne.

Mr. and Mrs. O. B. Hatch entertained friends at their home on New Years day. Those present were: John and Fred Berger, Wm. Roberts, J. R. Thomas and family and Mr. and Mrs. C. E. Berger.

There is to be a basket sociale given at the Eden Valley school house next Wednesday night, January 16. This is for the purpose of raising funds to pay towards the Rev. Abbott's salary. We all know it is for a good cause and trust there will be a large attendance. The ladies are requested to bring their baskets full of "goodies" and the boys will do the rest.

R. F. D. No. 1.

Jake Ernst lost a valuable young horse with lung fever.

James Early lost six head of cattle with corn stock diseases.

Mrs. Clevinger and Mrs. Johnson were callers at Mrs. L. E. Harding's one day this week.

Bert Fridley of Armour, South Dakota, has been visiting his cousins Mat and Jake Ernst.

We are pleased to note that Frank Phillips is an important member at Lincoln as well as at home.

The brothers of J. J. Schweitzer who have been visiting him the past week have returned to their home in Seward county.

Mrs. W. F. Clevisch will go to Omaha this week for treatment at one of the hospitals, for an injury she received over two years ago in a runaway accident.

The snow has brought out the sleighs of all kinds, also the festive rabbit hunter. Wood rabbits are as numerous as rats under a barn along the Eagle.

Our efficient rural carrier is always on schedule time. Your O'Neill trains are not in it. He is Dicky at the rat hole and we get lonesome when he has a holiday.

James Curran is back from Plainview where he went to husk corn. James is a hustler after husking about 2,000 bushels for himself he sought new fields to conquer.

Girlhood and *Scott's Emulsion* are linked together.

The girl who takes *Scott's Emulsion* has plenty of rich, red blood; she is plump, active and energetic.

The reason is that at a period when a girl's digestion is weak, *Scott's Emulsion* provides her with powerful nourishment in easily digested form.

It is a food that builds and keeps up a girl's strength.

THE W. C. T. U. CORNER

"For God and Home and Native Land"

MRS. EMMA KELLEY, SUPT.

A new year is before us and the W. C. T. U. looks forward to a year of activity. We trust much good may be accomplished in the cause of morality and temperance.

There are 3,000 children, under sixteen years of age, who are compelled to earn their own living in the city of Omaha. Some of the little workers are but eight years old. We have need of a state child labor law.

From every direction come reports of the good work being done by the Women's Christian Temperance Union. The White ribbon soldier is on guard whenever there is work to be done. Surely the year shall not be without its victories.

Many of the companies or corporations that employ a large force of help are requiring their employees to sign a contract to abstain from the use of intoxicating drinks. The lesson should be plain to our young men who are ambitious to secure good positions in the business world. Form strict temperance habits and you will have achieved a long step toward a successful business career.

The people in the eastern states are fully aroused over the wrongs of child labor and it is expected that legislative action will be taken at this session of congress to remedy the evil. Although child labor does not, we believe, exist to any great extent in this part of our state, our sympathies are with those who are moved to abolish the evil. It is but right that the children should be safeguarded in their rightful heritage of a childhood as free from care and responsibility as possible.

The juvenile court in Omaha is doing a grand work which cannot fail in having a beneficial effect upon the young people within its care. Through it parents are brought to realize their responsibilities as such, and a check is placed upon those who are prone to turn their children loose upon the streets to grow up as they may; and from which so many graduate into the criminal ranks long before they have attained their majority.

It is not an uncommon sight on our streets to see little children, not above six years of age, smoking tobacco. We are told that many of the young boys that attend our public schools scarcely wait until they are a block away from the school house before their pipes are lit. Children whose brains are benumbed by nicotine poisoning cannot make good progress in their studies. There is a law prohibiting the sale of tobacco to minors. Surely parents, you are enough interested in the welfare of your boys to see that this law is enforced. You can have it enforced if you will. On your conscience rests the blame if you are too indifferent to do so.

Nurses and the Clergy.

A prominent London clergyman, in referring to the fact that the tendency to encourage the visitation by the clergy of the sick in acute cases is less than it was, remarked that "this is probably one of the results of the more careful system of modern nursing, which lays stress on the importance of keeping the sickroom quiet. The old idea was that the friends of the sick person should be allowed to crowd into the room. Now the nurse shuts them out, with good results in the main. The nurse has, therefore, become an exceedingly powerful force in regulating the arrangements of the modern household when there is illness in the home, and it often practically rests with her, more than with the doctor, to determine whether the patient shall be visited by the parish priest."

Curious Chinese Playing Cards.

A pack of Chinese playing cards is a genuine curiosity. They are generally printed in black on thin cardboard, the average width and breadth being about that of the finger of a human being. In some cases they are only half an inch broad and about three and a half inches in length. The length, no odds what the size, is always at least six times that of the width. Some of the packs have queer representations of our "kings," "queens" and "knaves" stamped upon them in black. Others are decorated with the figures of animals, birds and fishes. Those used by mandarins and high officials bear only figures of mythological creatures.

He Had Been There.

The clergyman was holding a children's service at a continental resort. During the lesson he had occasion to catechise his hearers on the parable of the unjust steward. "What is a steward?" he asked. A little boy, who had arrived from England a few days before, held up his hand. "He is the man, sir," he replied, with a reminiscent look on his face, "who brings you a basin."—London Globe.

Peru's Railway Wonder.

A remarkable railway, one of the wonders of Peru, is that which runs from Callao to the gold fields of Cerro de Paeco. Beginning in Callao, it ascends the narrow valley of the Rimao, rising nearly 5,000 feet in the first forty-six miles. Thence it goes through the intricate gorges of the Sierras till it tunnels the Andes at an altitude of 15,645 feet, the highest point in the world where a piston rod is moved by steam. This astonishing elevation is reached in seventy-eight miles.
