MISSOURI RIVER ABOVE SIOUX CITY GETS COIN

Congressman Hubbard, After Conference, Decides to Vote for the Harbors Bill.

IT IS THE BEST IN YEARS

dowan Will Try to Get a Much Desired Amendment Tacked On, With the Senate's Aid.

PRESIDENT PRAISES ADMIRAL DAVIS. Washington, D. C., Feb. ...-In un-equivocal terms President Roose-velt has approved Admiral Davis' action in connection with his visit to Jamaica, and has requested the secretary of the navy to express to Davis his heartiest commenda-tion.

Washington, D. C., Feb. 5.—Congress-man Hubbard says the rivers and har-bors committee is disposed to show bors committee is disposed to show more liberality toward the Missouri riv-er in the future and he has decided to vote for the bill this year. He reached the decision, however, only after a con-ference with members of the committee and a distinct understanding affect-

"We get a specific appropriation for the river above Sloux City, the first in several years," said Mr. Hubbard, "and It indicates the right disposition. Chair-It indicates the right disposition. Chair-man Burton says the representatives have been desirious of getting an amendmept to the measure which shall provide that this year's appropriation may be used for the maintenance of the present protective works. This is the provision made for the Mississippi and it ought to be applied to the Missouri. However, I will probably not attempt to get the amendment inserted in the house, because if it should be defeated house, because if it should be defeated there the defeat would be regarded by a conference committee as an instruc-tion to oppose it in conference. Instead, the senators are willing to undertake to insert the amendment in the senate, and it will be likely to stay in."

house today resumed consideration of the river and harbor bill. House Hears Hepburn.

Congressman Hepburn addressed the members on the proposed deep water-way from Chicago to the gulf. He made a reply to Clark of Montana, whom he said wanted to build a waterway 4,000 miles in extent between granite walls 200 feet high. He had seen the Missis-kinni when five miles in extent with 200 feet high. He had seen the Missis-sippi when five miles in extent, with a volume of water that would defy the puny efforts of man to hold it. He characterized the scheme as "Utop-lan and chimerical" and declared when the proposed waterway from St. Louis to Cairo should be completed it would have a velocity of from twenty to twenty-five miles an hcur. "That would be admirable for down stream navigation," he said "but how would vessels get up? We have spent on improvements and waterways in the United States \$25,000,000 and of this amount nearly \$140,000,000 has

this amount nearly \$140,000,000 has been spent on the Mississippi." Hep-burn said the steamboat as a mode of transportation was a thing of the past. It was his belief that a double track railroad would have a cheaper carrying capacity per mile than the Hennepin capacity canal.

He was followed closely by the house and gave notice of amendment to limit the expenditure for the Missouri river to the protection of its banks and channel, but not for the improvement of the navigation of the stream.

MURDER OF Y. W. C. A. | DRYDEN PULLS OUT OF **RACE FOR SENATOR**

Gives Up Fight for Re-Election to Millionaires' Club From New

Jersey. Washington, D. C., Feb. 5.-United States Senator John F. Dryden, of New Jersey, last night authorized the Asso-ciated Press to announce that he had withdrawn his name as a candidate for re-election to the United States sen ate.

The action was taken on the advice of the senator's physicians, who warned him of the danger to his health if he persisted in attending the public meeting arranged at his request to be held in Trenton today. It was Senator Dry-den's intention to address the republican members of the legislature and set forth the reasons in his opinion why he should be re-elected to the senate. Following the senator's decision to withdraw his name his physicians, Drs, Edward J. Ill and Charles L. Ill, sent

the following telegram to the republic-an leaders in the New Jersey senate

and house of assembly. "The condition of Senator J. F. Dry-den's health is such, on account of the long and severe strain under which he has been, that we, his physicians, have advised him that it is of imperative importance that he should not attend the proposed conference at Trenton on Monday. Monday." Senator Dryden said he had hoped at this meeting to be able to convince the eight republicans who refused to be bound by action of the party caucus that their opposition to him is based upon mistaken grounds. The speech which the senator intended to deliver before the republican caucus at Tren-ton will be made public today. In explaining the senator's withdraw-al from the senatorial race his private secretary made the following state-ment: Senator Dryden concluded that a con-

COUNCIL SAYS GRIP IS SPREAD BY KISSING

Atlantic City, Feb. 4.-Health Officer Somers says kissing and grip go hand in hand, and in order to prevent the spread of influenza has issued a statement warning the public against osculation.

Dr. Somers holds that 9 per cent. of all kisses are laden with germs, particularly grip germs, and that it is not possible to sterilize kisses, therefore he ssues the following:

"In view of the rapid spread of grip throughout the city, and in view of the known fact that osculation, commonly described as kissing, is the most fruitful agent of the propagation of the grip germ, it is advised that temperance and moderation in respect to said practice be more generally observed." Chief Inspector Beck and the board of health is backing Dr. Somers up in his attack on kissing, and the council will be asked for an appropriation to have the warning printed and displayed in railroad stations and public places in general. general.
