TIRED AND SICK YET MUST WORK

......

"Man may work from sun to sun but woman's work is never done,"

In order to keep the home neat and pretty, the children well dressed and tidy, women overdo and often suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome pains and aches which daily the make life a burden.

It is to these women that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs,

MAKING EASTER GIFTS.

Each year the custom of giving Easter presents is becoming more general. No longer is a lily or a pot of white hyacinths considered the only appropriate gift either, but anything appropriate gift either, but anything and everything is now in good form. One is not necessarily reminded of the significence of the day by the gift of a bible or some little white covered book of beautiful thoughts. The more especial meaning of the commem-oration may be lost sight of entirely in frivolous neck ruches and fragrant suchets that are among the newer and more accentable presents for the womore acceptable presents for the wo-men who have more worldly tastes.

Lent, when there is a lull in the so-cial whirl, affords the time for making many attractive little remembran-ces for Easter giving, and probably none are more in favor than the many and various kinds of sachets made from bits of ribbon and lace to wear to wear or to hang in the closet with one's

Next to the sachets come the new lingerie strips for wear with the silk shirt waists, or the fancy coat sets that are cunningly made from linen and

HOSTESSES HANDICAPPED

Many a New York woman, who has planned an elaborate social affair of which she hopes to make a brilliant success, engages the services of some famous prima donna for which she pays the fabulous sum of \$1,000 or more and finds herself entirely at the mercy of that autocrat who holds it in her hands to make or mar the pleasure of the whole performance and then sets about to do so in the way that best suits her fancy.

The hostess is merely a figurehead from whom all right to dictate has been taken away. The prima donna must have all arrangements made to suit herself and she must be the guest of honor as well. To whom all the inhonor as well. To whom all the in-vited guests are brought for a word of recognition. Most of them refuse to sing if others not of their own selec-tion are chosen to take part on the program, and more than once a hostess is confronted with utter failure if she has not the tact to settle things peace-ably so the program may be carried on.

UNDERSTAND BABY'S CRIES. The wise mother will know in a very short time that there is a language in the cries of a baby that becomes as intelligible with a little careful study as the English language itself. It is a kind provision of nature that finds a means for even the tinlest baby to tall use what is wrong though nato tell just what is wrong, though na-ture has not always been as kind in teaching mothers how to learn it, or to realize the something their cries tell. There is the sleepy cry, when baby is cross and tired, when rubber balls

and ratiles have lost their attractions and even scissors and alarm clocks have ceased to be amusing. This cry is only a fretful sort of whine followed by a little real yelling that stops sudgreat piles in my granaries, I feel sure

Or. Williams' Pink Pills Restored Mrs. Robbins To Health and Also Cured Her Daughter of Anaemia.

Mrs. Jotie Robbins, of 1121 Clar St., Decatur, Ill., says: "I was weak,

thin and troubled with headaches. My appetite failed so that I did not relish my food. I was unable to do my work because my limbs pained me so and my feet were swollen. I got numb and dizzy, my tongue seemed at times to be paralyzed so that I couldn't speak distinctly. My extremities, when in this numb state, felt as if some one was sticking needles into me all over their surface. Through my shoulders at times I had such pain that I couldn't sleep. Many times I awoke with a smothering sensation.

"When the physician's remedies failed to benefit me I began to look for something that would. My sister, Mrs. McDaniel, of Decatur, recommended Dr. Williams' Pink Pills to me and I at once purchased some. was greatly encouraged when I saw how they acted on my nervous condition and continued using them until cured. I am now able to attend to my duties and have not consulted a physician since.

"I also gave them to my daughter who had always been weak and at this time seemed to lack vitality. Her cheeks were colorless and she was thin and spiritless. She had anaemia and we feared consumption, because every time she went out doors if it was at all cold or damp she would take cold and cough. But Dr. Williams' Pink Pills brought color back to her cheeks and strength to her body."

Dr. Williams' Pink Pills are sold by all druggists, or sent postpaid, on re-ceipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

WHAT WESTERN CANADA DOES.

"Old Indiana" Holds the Ribbon. Dundurn, Sask., Sept. 30, 1906. Mr. W. H. Rogers, Canadian Govern-

ment Agent, Indianapolis, Ind.: My Dear Sir-When you were at our place in July I promised to write you what my North quarter made per acre. You will remember it was all sown to wheat. Well, I finished threshing yesterday, and received from it an average of 431/4 bushels per acre-testing 641/2 pounds per stroked bushel. The wheat is the best sample I have ever raised-so uniform and even in size. You may know it was a good sample when I tell you that I have already sold 2,000 bushels of it for seed to my neighbors. This year has been my best effort in farming during my life. My wheat totalled 9,280 bushels and my oats nearly 5,000.

If you remember I pointed out to you a half-section lying just west of our house and joining my upper quarter on the south, which I said I should have in order to make one of the best farms in Western Canada. I am very glad to be able to tell you that I now own that half-section. My ambition now is to be able to market 20,000 bushels of wheat next year. If some of those good honest Hooslers could have been with me during the last two weeks and could have seen the golden grain rushing down the spout into my wagon and then could have seen it in

denly and then goes back to the begin-ning and goes all over it again. The mother ear trained to the faintest dis-country in the world than this I may tinction of sounds knows that it is high time baby was tucked up in his little

bed. Then there is the hungry cry that an-nounces that baby is ready for his next meal. This is a steady, fretful cry that keeps up indefinitely and the cry that comes after, the colle cry, which is sharp and tells plainly of pain. The cry that tells more emphatically than words that pins are sticking into him or that bands are crampingly tight is a series of sharp screams, while the one that tells of sickness, fever, or other ills peculiar to babyhood is nothing more than a pitiful little wall. And last of all there is the cry that

more than a pitiful little wall. And last of all there is the cry that tells of temper, when baby is fighting for his own way. He doesn't have to be many weeks old before he learns it either or is able to use it to advantage. This cry is an angry scream with ab-rupt short intervals of quiet. It can be easily recognized by the conspicuous absence of accompanying tears and beabsence of accompanying tears and be-cause it always ceases as soon as baby gets his own way.

It is a language that is more important for the young mother than all her college mastery of German and French. It is the Esperanto of women and soonor later everyone will recognize its importance.

COFFEE THRESHED HER

15 Long Years.

"For over fifteen years," writes a patient, hopeful little Ills, woman, while a coffee drinker, I suffered from Spinal Irritation and Nervous trouble. I was treated by good physicians, but did not get much relief.

"I never suspected that coffee might be aggravating my condition. I was downhearted and discouraged, but prayed daily that I might find something to help me.

"Several years ago, while at a friend's house, I drank a cup of Postum and thought I had never tasted anything more delicious.

"From that time on I used Postum instead of Coffee and soon began to inprove in health, so that now I can walk half a dozen blocks or more with ease, and do many other things that I never thought I would be able to do again in this world.
