If a business man works all day, put-ting the whole of his energies into whatever he is doing, he ought to be able to switch off his thoughts and turn them to something whereon they may pasture pleasantly. To some men, home, wife and children are the playground. For others there is some special hobby For others there is some special hobby which is their salvation, saving them from that iterant and reiterant monot-ony that belongs to business of most kinds. A great doctor once said that every man should have a holiday—and every woman, too. But women have more inward resources than men. Men are often restless and hate sitting still, unless they are fond of reading. Wom-en do not object to being quiet and en do not object to being quiet and passing a tranquil evening at home. That is, of course, if their hearts are in their homes.

"Some men are remarkable for their honesty," said an investigator for a Philadelphia Instalment house. "I went to a polfce officer to inquire about an acquaintance of his who wanted credit from our house. I asked him if he knew Mr. Brown. He said he did. "What kind of a fellow is he?" I queried. "Pretty fair." he said 'Is he honest?" "Pretty fair,' he said. 'Is he honest?" was the next question. 'Honest!' he ex-claimed. 'I should say he was. Been arrested twice for stealing and ac-quitted both times.'"

If these corpuscles are allowed to run out of the vessel at the rate of 1,000 a second. it will require seventeen quintillion (17,000,000,000,000,000,000,) of years to empty it.

A bit of the kind of American hu-mor that has thrived since the days mor that has thrived since the days of Benjamin Franklin comes from a Montana mining camp. Said one miner: "The rock down in that shaft is so hard they used six barrels of drills the other day and barely scratched it." "Ugh!" said another. "I saw 'em working on a ledge once where the fock was so hard that after they had used nine bar-rels o' drills on it the hole stuck out six inches."

Senator Platt was recently asked by Senator Carter, of Montana, as to how he stood in reference to the reception of Senator Smoot, the Mormon senator. Senator Platt narrowed his eyes in an appreciative crafty glance and replied: "To tell the truth, I was just waiting to salute your colleague from Utah, for I tell you, Tom Carter, it's my private opinion that it takes a mighty smart man to be a Mormon-without compli-cations."
