The primary election law will place a few would-be political bosses, throughout the state, upon the shelf of oblivion, and Holt county will furnish some of them.

James H. Eckles, comptroller of the currency during the second administration of Grover Cleveland, died at his home in Chicago last Monday, of heart disease.

"Brain storms" will not be a popular defense in murder trials in the state of New York since the Thaw jury, by a vote of seven to five, failed to acquit him of the murder of Stanford White.

If the Napoleon of the western bar, D. M. Delmas, did not succeed in having Thaw acquitted of the charge of murder, he gained a reputation by his conduct of the case that will build him up a lucrative practice in the eastern courts.

Former United States Senator W. V. Allen, of Madison, is opposed to the direct primary law and it is reported he is to test its validity by means of an injunction. The ex-senator belongs to the old school of machine politicians and fails to see the benefits of modern methods.

The supreme court judges have named the following court commissioners: E. R. Duffie, Omaha; E. E. Good, Wahoo; A. C. Epperson, Fairfield; N. D. Jackson, Neligh; J. H. Ames, Lincoln; E. C. Calkins, Kearney. Calkins and Good succeed Commissioners Oldham and Robert.

After a newspaper has yelled itself hoarse in an effort to persuade people to patronize home merchants, says an exchange, and accidentally stumbles on the fact that some of these same business men, whom he is endeavoring to protect, are sending away for their job printing, it rather shakes his faith in mankind and makes reciprocity look like a lead dime with a hole in it.

Fremont Tribune: Dennis H. Cronin of the O'Neill Frontier has just been dropped from Congressman Kinkaid's list of postmasters. Mr. Cronin has hewn much water and drawn much wood for the congressman but presumably because his name is already Dennis the latter thought it wouldn't hurt much. But a reformed postmaster is by no means necessarily to be despised.

Men in ninety counties of the state who imagined they were secure in their offices as county assessors for another year had their dreams rudely shattered by the last legislature which passed an act providing that their terms should end with the current year.

Two years ago a series of bills were passed, the intent of which were to introduce the biennial election law in this state. It provided that the county assessors, whose terms expired in January, 1908, were to have a year added to their official life, their terms to expire in January, 1909. The law passed by the last legislature made their terms end as before, in January, 1908, and as a result every county in the state will have to elect a new assessor this fall. As all candidates will be nominated by the primary system this fall there will undoubtedly be many candidates for this position, which, although the salary is small, \$600 per year, is considered about the easiest snap in the county.

## Neighboring Notes.

Cholera in Boyd.—Hog cholera is again playing the deuce with some of Boyd county's herds of swine. In one neighborhood alone Theo. Engel has lost ten brood sows and more are dying. Martin Kimpfort has lost about twenty head and Henry Ertz has lost several head. Losses are reported from other neighborhoods near Butte but we have not learned to what extent the disease has spread.—Butte Register.

Ship Building at Valentine.—Roscoe Fischer and John Harvey are building a launch which when completed will eclipse anything launched upon the mill pond. It will have a capacity of 20 passengers and if it proves a success the boys will install a gasoline engine and otherwise equip the boat for useful service. Roscoe is the chief mechanic and if the boat falls short of what is expected he will be responsible for the failure.—Valentine Republican.

Extending Telephones.—Master Carl O'Neill, the little twelve year old son of Hugh O'Neill, was assisting his father in installing phones on the new line from Annar to Butte. They now have that line in fine order which connects the following prominent Holt county citizens with Butte central: Anton Schineost, R. H. Johnson, E. M. Englehart, Ben and Jim Reiser, Adam Rake, Geo. Wearne, R. J. Bellinger; Joe Obermire, Geo. Parshall, Frank Ellis, Chas. Keeler, Ray Coburn, S. P. Miller, Ralph Coburn, John Damero, Frank Damero, Harmen Damero, Frank Damero, Ben Kinney, Otto Wilson and Peter Duffy.—Butte Gazette.

A Gay School Director.—Irving Beatty, a well known farmer living near Foster, and a well-to-do man of family, was arrested charged with attempt to commit rape. Miss Eva Jones of Plainview is the alleged victim of the attempt. Beatty is a school director and Miss Jones was elected teacher in his district. The offense is alleged to have been committed last fall. Beatty is thirty years old and Miss Jones about nineteen. It is charged in the complaint that Beatty drove Miss Jones to Pierce to secure a teacher's certificate and that enroute home, in the carriage he took liberties with the young woman which led to his arrest.

The promises made to his constituents have been fulfilled and it is with pleasure they welcome his return.—The Advocate.

Johnson called the meeting to order and it was moved and seconded that the following named business men act as a committee to devise ways and means for their protection: L. O. Johnson, chairman; J. W. Isaacson, E. H. Smith, Wilton Hayne and E. E. Hunter. It is hoped they will find some good and efficient way and plenty of means for this as it is something Page has long needed, and it was called to the attention of the people very sharply by the burning of Townsend Bros. warehouse a few days ago.—The Reporter.

## CAMELS OUTDONE.

### Creatures That Go For Extended Periods Without Drinking.

Other creatures than the camel are able to get along for extended periods without drinking. Sheep in the southwestern deserts go for forty to sixty days in winter without drink, grazing on the green, succulent vegetation of that season. Peccaries in the desert of Sonora live in little dry hills where there is no natural water for long periods. They cannot possibly find water—in fact, for months at a time. The only moisture they can obtain comes from roots and the fruits of cacti, but the most extraordinary case is that of the pocket mouse, one of the common rodents of the desert. This little creature, by the way, has a genuine fur lined "pocket" on the outside of its cheek. When it is hungry it takes food from this pocket with its paw, just as a man would pull a ham sandwich from his pocket. One of these mice has been kept for three years with no other food than the mixed bird seed of commerce. During this period it had not a taste of either water or green food. Other experimenters have found, in fact, that these mice in captivity refuse such treats, not seeming to know that water is good to drink. The bird seed put before this mouse contained not more than 10 per cent of moisture, which is less than is necessary for digestion. Stuff so dry as this cannot even be swallowed until it is moistened by saliva. Yet this remarkable mouse gave nothing but his time to the interests of science. He suffered nothing in health or spirits during his captivity.—Brooklyn Eagle.

### Government Homesteads in South Dakota.

Plenty of government land along the new line of the Chicago & North-Western between Rapid city and Pierre open to settlement. There are no charges except the land office fee of from \$14 to \$20 for quarter section. It is the chance of a lifetime. It will pay you to investigate. Ask any ticket agent of the North-Western line to give you maps, pamphlets and complete information. 40-4

### Cured of Rheumatism.

Mr. Wm. Henry of Chattanooga, Tenn., had rheumatism in his left arm. "The strength seemed to have gone out of the muscles so that it was useless for work," he says: "I applied Chamberlain's Pain Balm and wrapped the arm in flannel at night, and to my relief I found that the pain gradually left me and the strength returned. In three weeks the rheumatism has disappeared and has not since returned." If troubled with rheumatism try a few applications of Pain Balm. You are certain to be pleased with the relief which it affords. For sale by Gilligan & Stout.

### To Chicago and the East.

Fast splendidly equipped trains daily to Chicago, making direct connections for points east, via The North-Western line, the only double-track railway between the Missouri River and Chicago. Also fast daily trains to Sioux City, Mankato, St. Paul, Minneapolis, Duluth and points in South Dakota, the Black Hills and Wyoming. For rates and full particulars apply to your ticket agent. 40-4

Edison records are the best and so near like the singer or band that one thinks he is listening to the singer or band and not to a machine. For proof call at Lockard's jewelry store and hear them. 34-1f

# For the Children

To succeed these days you must have plenty of grit, courage, strength. How is it with the children? Are they thin, pale, delicate? Do not forget Ayer's Sarsaparilla. You know it makes the blood pure and rich, and builds up the general health in every way.

The children cannot possibly have good health unless the bowels are in proper condition. A sluggish liver gives a coated tongue, bad breath, constipated bowels. Correct all these by giving small laxative doses of Ayer's Pills. All vegetable, sugar coated.

Made by J. C. Ayer Co., Lowell, Mass. Also manufacturers of  
**Ayer's** HAIR VIGOR, AGUE CURE, CHERRY PECTORAL.

The effect of **Scott's Emulsion** on thin, pale children is magical. It makes them plump, rosy, active, happy. It contains Cod Liver Oil, Hypophosphites and Glycerine, to make fat, blood and bone, and so put together that it is easily digested by little folk.

ALL DRUGGISTS; 50c. AND \$1.00.
