**A Great System.**  
From Nos. 101818.  
Master—What is the date of the battle of Waterloo?  
Pupil—I don't know, sir.  
Master—It is a simple matter, if you haven't a good memory, to employ some mechanical method to aid you. In this case, for instance, take the twelve apostles, add the half to their number, which makes eighteen. Multiply them by 100; that makes 1800; now, take the twelve apostles again and add a quarter to their number, which makes fifteen. Add it all up together, which makes 1815, the date you want. Quite simple, you see, and you can always remember dates by using that system.  
People can come nearer to believing that good wishes will come true, when they know they work, at a wedding than anywhere else in the world.

**A MEDICINE CLOSET.**  
Take an ordinary croquet box and paint it on the inside and out. Fit shelves in, running parallel with the narrow way of the box, making the distances between so as to fit the different sized bottles. It then can be adjusted easily to the wall by means of two picture knobs and strong cords. In the cover of the box a narrow strip of tape may be tacked closely together, so that small bottles or phials may be slipped through and kept in place. The same small hook can be used that originally came on the box.  
A woman will believe anything her husband tells her, especially if no one else will.  
**SAVE US FROM OUR FRIENDS.**  
Mary, I have sold the farm for \$50,000, and we will now move to the city and enjoy the balance of our life in comfort.  
**Five Years Later.**

**Doing Well.**  
From the New York Weekly.  
Aunt Cleo—"Howde, Mistah Ebony? Is youah son doin' well now?"  
Mistah Ebony—"He am doin' fine, Madame Cleo; he am de entry clerk at de Fashion Hotel."  
"Entry clerk? What's that?"  
"He tends doah at de front entry."  
It is a pity to be ill! Take Garfield Tea, the laxative exactly suited to the needs of men, women and children; it is made wholly of herbs; it purifies the blood, eradicates disease, overcomes constipation, brings Good Health.

**The Whistler Butterfly.**  
Whistler's earlier Thames etchings had no butterfly signatures; the first appeared in 1859, relates Otto Bacher, the New York artist who lived and worked much with Whistler in Venice, in his "Stories of Whistler" in the May Century. He goes on to relate that an early signature of this description is to be found on "The Fur Jacket." In "The Harmony in Flesh-Color and Green" are two butterflies hovering over his own; in "Battersea" one is painted white against a dark background.  
"Later signatures," Mr. Bacher says, "resembled the butterfly as we know it now, but in no case have I found it with a sting attached until the year 1880, when Whistler lived in the Casa Jankovitz. One day he found a scorpion, and impaled it upon his etching-needle. The vicious insect would strike in all directions, now and then hitting the handle of the needle with his curved spur."  
"Look at the beggar now!" exclaimed Whistler, excitedly. "See him strike! Isn't he fine? Look at him! Look at him now! See how hard he hits! That's right—that's the way! Hit hard! And do you see the poison that comes out when he strikes? Isn't he superb?"  
"The insect seemed to captivate him completely, and I believe that the addition of the sting to his butterfly dates from this occurrence. In his writings, whenever he wished to emphasize a point, he sketched his butterfly with the sting directed toward the particular remark."

**SEEDING COMMENCED IN WESTERN CANADA.**  
The Prospects for a Large Acreage to be Sown in Wheat.  
St. Paul, April 24, 1907.—Word has been received at the office of the Canadian Government in St. Paul that seeding has commenced at various points throughout Manitoba, Saskatchewan and Alberta.  
The heavy snowfall during the past winter has left the ground in splendid shape for successful seeding operations. The fine weather of the past few days has taken much of the frost out of the ground, and during next week there will scarcely be a district in which the seeder is not being operated. The most optimistic conditions exist, and in all districts the farmers are busy getting things in shape. There will be a very large acreage sown in spring wheat, oats and barley. At many points throughout the three provinces the newcomers are busy unloading their stock and effects, working night and day in order to get on their farms and become active agencies in the effort to make the year 1907 the banner year in grain-producing in Western Canada. As compared with districts many hundreds miles further south than this, it will be seen that Western Canada ranks amongst the first in the line of seeding operations for the present year. It is safe to say that farmers, who get in their crop before the 20th or 24th of May, will receive magnificent returns. A number of those coming in this spring, who had not their land prepared last fall, will break up enough land to get in a crop of oats and barley and probably some flax. This, together with the vegetables they will plant, will give them ample food for themselves and stock during the coming summer and winter. These early seeding operations are not confined to one district, but are spread over a country 200 miles long by 400 miles in width.  
The agents of the Canadian Government, located at different points throughout the United States, are busy giving information regarding the many new districts that are being made available for settlers. Low railway rates, information and literature are given on application to the agent, whose name appears in advertisement elsewhere in this paper.  
If a baby waves its hand when someone plays the piano, all the family thinks, of course, it has great musical talent.  
You think you know what you want, but do you? Have you been satisfied heretofore when your wishes were granted?

**MOTHERS GARDEN.**  
From Mother's Magazine.  
A writer in What to Eat makes a plea for the return to the old-fashioned garden that mother supervised and the children kept. There is discipline, education, love, duty and religion in such a garden for mother and child. I care little how small the patch of ground may be, plant it to something and teach the child how to care for the growths. We worry much about pure foods. They are at the doors of all who can have a garden, if only they knew it. Till the soil to make it produce food. Invite the children to study books that teach the care of the soil and how to raise food. Show them that gardening when understood is not drudgery, but a healthful delightful work. It is easy to lead the minds of these children along this way, for they love the fresh air, the turning of the soil and the care of growths. Step by step take the children into the writings of John Muir, of John Burroughs, of Luther Burbank—writings which the child can understand. They will see gardening and plan cultivation in a new light. There is something more than this also. The effort may lead the child through its natural tastes into a permanent and profitable life occupation. We complain much, I fear, at not knowing what to do with the children when they fill the house with noise. The panacea to my mind is in the garden, and I would take them to that garden through the delightful books and pictures on the subject that now fill every public library of note. Gardening is one of the first sciences man mastered. It is yet the backbone of prosperous Germany, Holland and France. It was the most profitable pleasure of the early New England days. With our many unused acres in the west let us return to it, for the love of the child whom we wish to come into masterful life clean of hand and pur of mind.

**Nice, Clean Milk.**  
From the Chicago Record-Herald.  
Bobs does not read the papers? No, many people do at 7 years. So he knows nothing of the crusade for pure milk. He supposed, if he ever thought of it at all, that all milk was pure. At all events he didn't hesitate to drink what was offered to him, without any question, until he went to Canada last fall. Bobs, having been born and brought up in Chicago, knows nothing of the country and country ways, and everything was a delight to him until he went out to the farm. He saw them milk the cows. His mother couldn't understand why he suddenly stopped drinking milk, and no persuasion could prevail upon him to change his mind. Neither would he explain until he got his mother alone.  
"I'll wait till we get back home, mother," he said confidently, "where we have our own nice, clean milk."

**Unable to Do Even Housework Because of Kidney Troubles.**  
Mrs. Margaret Emmerich, of Clinton St., Napoleon, O., says: "For fifteen years I was a great sufferer from kidney troubles. My back pained me terribly. Every turn or move caused a sharp, shooting pain. My eyesight was poor, dark spots appeared before me, and I had dizzy spells. For ten years I could not do housework, and for two years did not get out of the house. The kidney secretions were irregular, and doctors were not helping me. Doan's Kidney Pills brought me quick relief, and finally cured me. They saved my life."

**A Serious Matter.**  
From the New York Weekly.  
Young Wife—What? Do you mean to say your brother and his wife have given up housekeeping and gone to boarding?  
Hubband—Yes; but what difference does that make?  
Young Wife—Oh, nothing; only in about a week or so they'll be dropping in every other day to meals.

**FAMILY'S SKIN TROUBLE.**  
**Eczema, Heat Rash, and Scalp Affections Affect Different Members, but Cuticura Cures Them.**  
"My wife had eczema for five or six years. It was on her face and would come and go. We thought we would give the Cuticura Remedies a trial. We did so and she has never had a sign of eczema for four years. I myself used Cuticura Soap and Cuticura Ointment some time ago for falling hair. I now have a very heavy head of hair. We used Cuticura Remedies for our baby, who was nearly bald when young. She has very nice hair now. She is very fleshy, and we had so much trouble with heat that we would bathe her with Cuticura Soap and then apply Cuticura Ointment, it would dry the heat up so much quicker than anything else. Mr. H. B. Springmire, 323 So. Capitol street, Iowa City, Iowa, July 16, 1905, and Sept. 16, 1906."

Sometimes a man tells his own troubles just to keep from listening to those of others.  
It sometimes happens that other people have as good an opinion of a man as he has of himself—after he is dead.  
Most of us who attend the school of experience insist on long vacations and short sessions.

**PERIODS OF PAIN**  
While no woman is entirely free from periodic suffering, it does not seem to be the plan of nature that women should suffer so severely. Irregularities and pain are positive evidences that something is wrong, which should be set right or it will lead to serious derangement of the feminine organism.  
Thousands of women, have found relief from all periodic suffering by taking Lydia E. Pinkham's Vegetable Compound, which is made from native roots and herbs, as it is the most thorough female regulator known to medical science.  
It cures the condition which causes so much discomfort and robs women who are troubled with painful or irregular functions should take immediate action to ward off the serious consequences and be restored to health and strength by taking  
**Lydia E. Pinkham's Vegetable Compound**  
Miss Adelaide Nichols of 324 West 22nd Street, New York City, writes:—Dear Mrs. Pinkham:—"If women who suffer would only rely upon Lydia E. Pinkham's Vegetable Compound their troubles would be quickly alleviated. I feel greatly indebted for the relief and health which has been brought to me by your inestimable remedy."  
Lydia E. Pinkham's Vegetable Compound cures Female Complaints such as Falling and Displacements, and Organic Diseases, Headache, General Debility, Indigestion, and invigorates the whole feminine system. For the derangements of the Kidneys of either sex Lydia E. Pinkham's Vegetable Compound is excellent.

**THE VALUE OF PERSONAL KNOWLEDGE**  
Personal knowledge is the winning factor in the culminating contests of this competitive age and of ample character it places its fortunate possessor in the front ranks of  
**The Well Informed of the World.**  
A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.  
A Knowledge of Forms, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of  
**Known Quality, Known Excellence and Known Component Parts** and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.  
This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.
