Chapter No. 2 is due this week relative to the 94-year-old mentioned in these columns last week as being on the grounds to buy a horse ranch. One enterprising real estate dealer says he spent \$20 on the sprightly old chap showing him ranches. Landlord Ziemer of the Merchants says he was the best boarder at his hotel, with an appetite like a harvest hand, but neglected the formality of asking how much he owed upon departing, besides leaving a loan of \$2 unsettled. He remarked, however, that his ancient friend had written him that he would be back again. At any rate, some doubts have arisen as to the genuineness of the old gentleman's desire to buy a ranch, and the story of his great age is also looked upon with suspicion.

Jerry McCarthy died at his home in this city Saturday last after a lingering illness. The cause of death ascribed by the attending physician was subdiaphragmatic abscess. The deceased was four months and three days past forty-three years of age. He was a native of Ireland, but came with his parents to America at the age of six years. Their first home in America was at Hancock, Mich. In 1878 the family moved to O'Neill. Mr. McCarthy grew to man's estate among us, and in 1885 was married to Mary E. Dwyer. Five children were born to this union, Margert M., John P., Eugene, M. Vernica and Lance, all of whom, except Eugene, are living. His wife also survives him. He was a member of the Ancient Order of United Workmen. Funeral services were held Monday forenoon at St. Patrick's church, the remains being laid to rest beside those of his son in the Catholic cemetery.

Complaint comes to this office that two tombstones provided by the government for old soldiers have been dumped in the vacant lot between the two cemeteries. The names of the old soldiers for whose graves they were ordered are on the stones, with the number of regiments and companies. When the stones were ordered is not known, but our informant thinks from appearance that they have laid there for several years. It would seem that whoever ordered the stones would have made some arrangements about having them erected over the graves. The government furnishes these stone

free for the graves of old soldiers and it is negligence or thoughtlessness in this instance that the stones have not been put in the proper places. It is to be hoped that whoever has the authority to act in the matter will see that the same are erected.

The Methodist congregation expect soon to install a gasoline lighting plant in their house of worship.

**Educational Notes.**

The Stafford district has just received a new seventeen dollar library. The school at Emmet is at present making a second addition to its library this year.

After September 1st, 1907, a second grade certificate cannot be issued to a teacher who has not had at least eight weeks normal training, or a year's experience in teaching.

A first grade certificate cannot be issued except the applicant has had twelve weeks normal training or a year's experience in teaching.

This legal minimum requirement is hardly worth considering unless it acts as a stimulant to further preparation on the part of the teacher.

The Nebraska Teacher prints the following in this month's publication: It is generally believed that the new inspector of high schools will use his influence against the use of tobacco on the part of teachers in the public schools. As a superintendent he always took a firm stand on that question. He believes that a board of education should never employ as superintendent or principal one who uses tobacco in any form.

He will quite likely refuse to recommend any teacher or university student for a position in the schools who uses tobacco. A failure to secure the endorsement of this inspector for a position or for a promotion is about as hard a blow as can come to any teacher. If he takes that stand it means that the young men in the schools using tobacco will be forced to give up the habit or else take considerable chance in securing better places. It also means that many university student who aspire to positions in the public schools will quit using tobacco before the end of the senior year or else secure places through their own efforts.

Florence Zink, County Superintendent.
