PNEILL,

A deal E. Stevenson, formerly vice president of the United States, is fond of telling an odd experience he had shortly after the civil war. At that time David Davis was much talked of a state man to run against General Grant for the presidency. A con-ference was held in Mr. Stevenson's residence, many leading Illinois and ther democrats being present. A good feal was said about the possible candi-facy of Mr. Davis, but no one happened to mention his first name. After the conference broke up, Mr. Stevenson rew an old farmer friend into the cor-new and daked his opinion. He said: "Well, you know, Adlal, Tve followed your lead in politics for a good while, and I'm going to do it now. But, hon-ext, Adlal, don't you think it's a little inite early to nominate Jeff Davis?" Adeal E. Stevenson, formerly vice

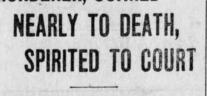

A lake of quicksilver, covering an rea of more than three acres and having a depth ranging from ten feet to fifty feet, has been discovered in the mountains of the state of Vera Cruz, Mexico. The value of the pro-fuct is estimated at millions. This lake has been known to the Indians for many generations. It is situated far up in the mountains in an almost inac-cessible position. Its surface is partly cessible position. Its surface is partly covered by stones. It is believed that volcanic action in the mountains above smelted the quicksilver out of the cin-nabar ore and that it ran down and filled this depression. A tunnel will be driven through the base of the mountain and the quicksilver will be brought down by means of gravity.

A. M. Chalmers, the British consul in North Formosa, says in his last re-port to the foreign office that the num-ber of opium smokers in his district appears to be slightly decreasing, there appears to be slightly decreasing, there having been 123,650 at the end of 1996, against 131,272 in December, 1905. This decrease, however, appears to be main-ly among the poorer classes, as among smokers of first-class opium there has been an increase, and there is little diminution in the actual value of the opium consumed. It is estimated that 4 per cent. of the native Chinese are smokers, the proportion in the two sexes being one male in every fourteen and one female in every one hundred.

Without exaggeration it may be said Without exaggeration it may be said that the Hon. Thomas Bent, premier of Victoria, is one of the most remark-able men who has ever occupied the post of premier of a colonial govern-ment. In Australia he is popularly known as the "Singing Premier," in consequence of his habit of singing comic songs in the middle of his poli-tical speeches. A word or a phrase strikes a chord of memory, recalls some half-forgotten melody and then the premier breaks forth into song. Mr. Bent began life as a market gardener, and once it was a common sight to see and once it was a common sight to see him driving his cart through the

Visitors to Japan are usually im-pressed with the many curious uses to which fans are put. The umpire at wrostling and fencing matches uses a large fan, the various motions of which large fan, the various motions of which constitute a language that the com-batants understand and promptly heed. Men and children, as well as women, use fans at all times. The servant has a flat fan, made of rough paper, to blow the charcoal fires with, or use as a dustpan. The farmer has a stout fan to winnow his grain. Still another variety is made of waterproof paper, which, dipped in water, creates a pleas-ant coolness by evaporation without wetting the clothes.

A fine looking young woman, the constant frequenter of the corridors, re-ception and dining rooms of a fam-ous New York city hotel, came under the suspicion of the hotel's detectives a fow evenings ago. She was followed to her domicile, a modest boarding house, and compelled to give up \$4,000 in silver, rugs, small tapestries and bric-a-brac, which she had at various times purloined from the hotel. Noth-ing was said after she gave up, for it wasn't a very pleasant episode for the hotel detectives to contemplate. If was rather too much of a grind or

Higgins Brought to Pender in Baggage Car, Admits

Everything.

Pender, Neb., July 10 .- Loris P. Higgins, the murderer of Mr. and Mrs. Walter H. Copple, of Rosalie, Neb., was brought to Pender this morning and waived identification in Justice J. G. Downs' court and is now enroute to Omaha via West Point.

Higgins was brought up from Omaha this morning by Sheriff Young and Deputy Newell. The party rode in the baggage car and was spirited up a back street to the judge's office, where Hig-gins, pale and nearly scared to death, waived the reading of the complaint, admitted that he was the man charged with the crime and was bound over to the district court without bond.

Judge Graves says just as soon the proper papers are filed in district court he will call a jury and give Hig-gins immediate trial. This will prob-ably be the last of this month. There ably be the last of this month. There is no sentiment here other than to let the law take its course.

He law take its course. Higgins killed Mr. and Mrs. Copple for whom he worked, and left the bod-les where the hogs partially devoured them. Children of the couple found the bodies. Higgins' only defense, when later arrested, was he was drunk.

CANDLE FINDS GAS

LEAK; 1 KILLED, 1 HURT Plattsmouth, Neb., July 10.—S. Grass-man was instantly killed and E. O. Wurl seriously injured last evening by an explosion of gas in the basement of the building occupied by them as a grocery store. The floods of the last day or two had caused a leak in the gas pipes, and the two men, with Fred McConley, were searching for the leak with a lighted candle. The explosion set fire to the building and before the fire department could extinguish the flames two other explosions practically demolished the structure. The body of Grassman has not yet been recovered. The loss is about \$25,000. LEAK; 1 KILLED, 1 HURT

Corry, widow of the man who was shot and instantly killed at Hallam last Monday by Charles Gloe, met the slayer of her husband today in the of-fice of the Lancaster county jail. There was no show of bitterness or resent-ment. On the contrary, when the two were introduced, Gloe offered his hand, which was grasped by the woman. Neither uttered a word. Gloe stood with downcast eyes, the pain and sor-row which is weighing him down, being plainly indicated in his face. A friend of the Corry family, who had accompanied the widow and two young men relatives to Lincoln, said: "T is too bad. Too bad on account of both families." In a low voice Gloe answered with the single word, "yes." Mrs. Corry burst into tears and left the room, sitting down on the front steps of the jail until she could con-trol her feelings. The party then re-turned to the office of the county at-torney. The meeting was at the re-quest of the woman.

WEATHER DURING WEEK SLIGHTLY BELOW NORMAL

Lincoln, Neb., July 5.—The weather summary for Nebraska for the week ending July 1, follows: The week was mostly warm and pleasant, with abundant sunshine and

light wind.

The daily temperature averaged about 3 degrees below the normal. The weekly average was about 72 degrees in the southeastern counties and 68 to 70 degrees in the northern and western. The maximum temperatures gen-erally were not high, but on Monday, and Saturday temperatures above 90 degrees were recorded at many places. The rainfall was above the normal in most of the southern and extreme western counties, and below normal in the rest of the state. Thunderstorms oc-curred in the southeastern counties Monday afternoon, accompanied by high wind more than an inch of rain. high wind more than an inch of rain, and in some places by heil. Scattered showers occurred in the state the last part of the week, but the rainfall was mostly light. The rainfall for the week was less than half an inch in most of the northern counties. The total rain-fall from April 1 to date in most of the state is between one-half and two-thirds of the normal amount.

BURLINGTON RAIROAD CHANGES RELIEF DEPT.

CHANGES RELIEF DEPT. Lincoln, Neb., July 5.—It has been only a short time, comparatively, since the Burlington began to concentrate its departments in Chicago and handle the business of the big road entirely from the Windy city instead of having a double set of officers, one set east of the Missouri river and the other set west west.

In this time, however, a number of departments which were run independently west of the river have been ab-sorbed by the Chicago end of the great runk line. The last change is in the handling of the relief department. After August 1 Dr. T. P. Livingston, of Plattsmouth, will not wear the title of medical director of the system west of the river. The entire management of the relief department will be in the hands of Superintendent Redfern and Assistant Superintendent Denny at Chi-cago. Officers of the operative department will not have any jurisdiction then The medical and surgical corps of the relief will not be paid salaries in transportation after this date, as is the practice now, but the fee system will prevail. There are something like seventy sur-geons and physicians in the service of the road west of the river now, and many of them have little to do. The latter were given transportation im place of coid cash for their services. Chicago, July 5-Lucy Page Gaston, founder of the National Anti-cigaret league, prominent as the foe of the little 'paper pipes," must do her work nearly all over again in Illinois, for the stinger which she had inserted in the law passed by the past legislature has been thrown out by the local course, and Chicago and Illinois cigar and tobacco dealers are selling the little paper pipes at the same old stand and in the same old way.

FLAN TO COLONIZE THE WEST WITH JEWS

New York, July 5.—Israel Zangwill, has written a letter to the Jewish Ga-zette of this city, explaining the colon-ization work that the Jewish territorial ization work that the Jewish territorial organization, of which he is president, hopes to do in the western part of the United States. The letter, which is in-tended to correct a mistaken impression of the organization's plans, says:

of the organization's plans, says: "There is no particular desire to lo-cate Jews in Texas, but merely to open for Jews the whole splendid west of the United States. Here is a region half as large as Europe, full of endless wealth, filled with new, rising towns, yet containing only 100,000 Jews, or as many as pour 'nto New York in a many as pour into New York in a single year. Why should these hun-dreds of thousands continue to pour into a single city? Let them pour all over America."
