UNWARRANTED ASSAULT

Charges Against Supervisor Cannot Be Sustained.

The whole of this newspaper could be devoted to a denial and disproval of the many, many falsehoods set afloat by the fusion campaign writers and speakers and yet the half of them would not be touched upon. It seems absolutely impossible for them to tell the truth, the whole truth and nothing but the truth about anything.

Their last week's slander mill assailed Supervisor Roberts and charged him with having made illegal charges for his services as supervisor. The charge is not a new one as it is made in every campaign against the republican supervisors, but absolutely no evidence is submitted to sustain the

Mr. Roberts is serving on the board of supervisors as a republican contemporaneously with John A. Golden, who is a democrat. They have served practically the same length of time, Mr Golden having served a few days longer than Mr. Roberts. The territory Mr. Roberts serves comprises the six precincts of Shields, Paddock, Steel Creek, Scott, Willowdale and Iowa. Mr. Golden's district comprises the one precinct of Grattan. In point of territory, Mr. Roberts has six times as much to look after as Mr. Golden. Mr. Roberts has superintended the construction of seven or eight bridges the past year, Mr. Golden one. Mr. Golden has filed claims for his services to the amount of \$491.40 and says he will file more. Mr. Roberts has filed claims to the amount of \$383.75 and \$126 of this is for money he paid in cash out of his own bank account to hire men to build bridges who would not work unless they were paid cash for less than \$2.50 a day. By paying them cash Mr. Roberts could get them for \$2 a day, so he went down in his own pocket and advanced the money to the amount of \$126, thus saving the county 50 cents a day on those men's wages. He has bought bridge timber for the county and paid for it in cash out his own pocket in order to get it at a reduction, and in one instance, that of the Donahoe bridge on the Redbird, saved the county \$18 by doing the work himself and hiring one or two men to help him. That bridge had to be cut down and made lower. The lowest bid that could be obtained on the job was \$30. Mr. Roberts hired the help and did the work for just \$12 cost to the county.

Now this despisable mud thrower. this character assassin styling itself a newspaper, comes out and says he has been grafting the county. If Roberts 19 00 has been grafting, what has Gold been doing? His bills are over \$100 more than Roberts' and he has onesixth the territory to cover that Rob-

erts has. Why don't this character assassin tell the people about Bedford, the fusion candidate for supervisor, making a campaign two years ago for the legislature on the platform and promise that he would not accept a railroad pass and then after he was elected rode to Lincoln to attend the legislature on a pass and carried one all the while on the advice of the big chief in O'Neill, who has been shouting against passes and pawing the air like a Texas steer for fifteen years.

The high-handed lawlessness of this bunch of fusion grafters and fake reformers can't be equaled anywhere in the nation. Look at the thousands of 842 50 acres of lands they deliberately stole as truly as Harriman did the Alton railway, got a district court decree in 109 80 four or five weeks settling the title 23 25 in them when the law said it couldn't be done in less than two years. Look at the thousands of dollars of just tax-33 00 es they evaded for years and thus made 100 00 the taxes of those who did pay their taxes double what they should have been. Its a pretty bunch of rascals to be accusing others of grafting.
