The Markets

South Omaha, October 30.—Special market letter from Nye Schneider Fowler Co.

It is hard to express on paper the demoralized condition of our cattle market. The general cause of course, is well known to be the financial state of affairs. The worst decline is on the kinds that the packers buy and on which there is no competition from outsiders. They have certainly taken advantage of this opportunity with a vengeance. Canners that brought \$2.25 on Monday the 21st brought less than half that price on Monday the 28th and it has not improved any since up to this writing. The decline is anywhere from 50c to \$1 on almost all grades. As is usual the choice ones suffered the least owing to the very light receipts of this kind. There certainly is a world of money for the farmer or feeder who can load up at these prices and run them over until they are wanted. Some shippers are reloading their cattle and taking them back home. These conditions are going to result in a shutting off of shipments until we would not be surprised to see practically nothing arriving by the first of next week and no doubt will bring a sharp advance in prices.

The hog market made a slump of 70c in four or five days but receipts have been so extremely light since then that the result has been a slight advance. Prices range from about \$5.40 to \$5.60 today and we expect to see them work a little higher as long as these receipts continue light, but anything like liberal receipts will quickly bring them down again.

Sheep prices are also taking their turn on the toboggan and are from \$1.25 to \$2.00 lower than the high time of the season with an extremely dull market today. Surely the man who buys his feeders now stands a lot better show than those who have been buying during the past two or three months.

The news of the death of Mrs. Chas. Bigler was brought to this settlement today (Monday) where Mrs. Bigler has lived for over twenty years. They having left their farm near Ray postoffice and moved to O'Neill about a year ago. The deceased had been a partial invalid for the past eight years. Her trials were many and she only awaited the summons when God in his mercy should call her to rest. Her neighbors knew her as a God-fearing, loving mother and extend their sympathy to the bereaved husband and family.

Why Colds are Dangerous.
Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in a common cold. Consumption is not caused by a cold but the cold prepares the system for the reception and development of the germs that would not otherwise have found lodgment. It is the same with all infectious diseases. Diphtheria, scarlet fever, measles and whooping cough are much more likely to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than in any other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple article of trade over a large part of the world. For sale by Gilligan & Stout.
