

After suffering for seven years, this woman was restored to health by Lydia E. Pinkham's Vegetable Compound. Read her letter.

Mrs. Sallie French, of Paucaunla, Ind. Ter., writes to Mrs. Pinkham:

"I had female troubles for seven years - was all run-down, and so nervous I could not do anything. The doctors treated me for different troubles but did me no good. While in this con-dition I wrote to Mrs. Pinkham for ad-vice and took Lydia E. Pinkham's Vegetable Compound, and I am now strong and well."

Pink-ham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. An Unexpected Answer.

San Francisco Chronicle: Woodruff, a Harvard man himself and the star in "Brown of Harvard," was called upon in the St. Francis lobby at 5:30 o'clock yesterday afternoon by a tall, statuesque, handsomely attired, beauti-ful young girl, with Harvard red roses on her hat and in her girdle. She in-troduced herself with a burst of con-fidence: "You don't know me, but I'm just creave to go on the stage!"

fidence: "You don't know me, but I'm just crazy to go on the stage!" Woodruff, who is rather a small man and blond, looked up at the stunning 200-pound caller and shook his head gravely. "Suppose," he said, "you were to go on the stage, say in the same com-pany with me, and there was a fire scene and a rescue, and I was the hero and you the heroine!" "Yes, yes; oh go on; how perfectly fascinating!" "And there was no one to save us,

"And there was no one to save us, just us two alone and in peril!" "And not a soul looking?" "Nobody near to help us." "Then I'd grab you right up, Mr. Woodruff, and carry you out to safety."

latter off 21/2 acres of ground.

Our best yields this year were 107 acres of wheat, making 41 bushels per acre at \$1.00 per bushel, would be \$41.00 per acre; 47 acres of oats, yielding 95 bushels per acre were sold for 50 cents per bushel. Proceeds \$47.00 per acre.

I might add that 50 acres of our oats were "stubbled in."

During the spring of 1906 we hired about 300 acres broken by steam. We put in and harvested 55 acres of grain last year, but did the remainder of our breaking, worked up the ground and seeded this year's entire crop; put in 7

acres of alfalfa, and 5 acres of garden potatoes, trees, etc., all with one four-horse team. During harvest we hired other teams; but, aside from this and part of the breaking, the one team did the work of raising practically 19,-000 bushels of grain, worth \$12,000.
