## BOARD GRANTS LICENSE

Emmet Saloon Case Decided in Favor of Applicant.

## REMONSTRANCE IS VOTED DOWN

Four Members of the County Board For and Three Against Issuing Saloon License.

"The Emmet saloon case," as it has been popularly designated, was decided yesterday afternoon by the granting of a license to the applicant, James Armstrong, by a vote of four to three of the county board. The application created some little interest, or rather a remonstrance against the issuance of the license filed at a late hour by local members of the Woman's Christian Temperance Union.

The same applicant encountered a remonstrance last year on his applying to the board for a license, but it came from a different source this year. On Tuesday a remonstrance was filed by members of the O'Neill Woman's Christian Temperance Union against the issuance of the license, the application for which was scheduled to be taken up that day by the board. With a remonstrance filed, that had to be considered and disposed of before the application for license could be acted upon.

The hearing on the remonstrance was deferred until Wednesday to obtain the opinion of the county attorney as to its legality. The county attorney held it was a proper document for the consideration of the board and while it contained no specific charges of infraction of all or any part of the Slocum law it covered the matter in general terms and presented "a strong moral argument" against the issuance of the license.

Mrs. A. S. Younkin, president of the Union for Holt county, Mrs. C. L. Bright and Mrs. C. W. Woodward of David City, one of the prominent and well known Women's Christian Temperance Union workers of this state, were before the board in behalf of the remonstrators, while Mr. Armstrong, the applicant, and two or three other citizens of Emmet were there in behalf of the application. Mrs. Woodward had just arrived in the city and was "pressed into service" by members of the local union. She addressed the board in behalf of the remonstrators and stated as the principal ground upon which the remonstrators rested was that it was generally conceded that no saloon was run within the law and that they thought, and could produce evidence to prove it were they granted the time, that the one at Emmet was no exception, expressing her views in strong terms of the liquor traffic in general. Mrs. Younkin and Mrs. Bright also spoke on behalf of the remonstrators.

Those in favor of granting the application took the view that as long as there was no remonstrance from the people of Emmet but instead a petition had come from those people the license should be granted. Casper Englehaup, who was interested in the case only as a citizen of Emmet, addressed the board briefly in favor of granting the license.

A motion was put to the chair to sustain the remonstrance and was lost. This was followed by a motion to grant the license and the roll call was taken. There were four votes for and three against. One member of the board explained his vote by saying that if the remonstrance had come

## Chase-Lister Theatre Company.

Present the great melodramatic success in four acts, "At Risk of His Life."

"At Risk of His Life" is a new play written by Mark E. Swan. It has been one of the greatest successes in melodrama in the east, and is offered this season by Chase & Lister for the first time in repertoire. We can safely guarantee that it is the first production of the piece in your city, as the play has never been done outside of the largest eastern cities until this season. It is a melodrama filled with new ideas and novel situations, the interest beginning with the first act and continuing throughout the action of the play. The comedy is strong, and the plot original, and it is a play we can recommend.

Act 1—The poisoned book.  
Act 2—The accusation.  
Act 3—In the top of the tower.  
"Napoleon."  
Act 4—The smoking room.—The dead returns.  
At temptation prices. Great specialty program.  
At the new opera-house, Monday, March 16.

Col. Barney Stewart of Page was a Frontier visitor Wednesday. Col. Stewart was stopping in town until the afternoon train west on which he went to Atkinson to auctioneer a sale west of there today. Barney tells us he has been very busy crying sales all winter and is not through yet as he has several more for this month.

Farm stuff, he says, has been selling high this winter, especially cows. At a sale near Page last week cows brought around \$40 and \$50. Col. Stewart has had many years experience auctioneering in this and adjoining counties and remarked on the changed conditions at present compared with those a dozen or fifteen years ago. Men, he said, who were in the 15-cent class a dozen years ago he has sold out this winter and they are worth \$8,000 or \$10,000. A marked change has come to pass in the agricultural classes in this section within the last few years owing to various causes.
