

There is Only One

# "Bromo Quinine"

## That is Laxative Bromo Quinine

USED THE WORLD OVER TO CURE A COLIC IN ONE DAY.

Always remember the full name. Look for this signature on every box. 25c.

Rozy-or Rozy? From Lippincott's. We've learned a lot about you, sir. We know your wondrous fame; yet ere you go we'd like to know how to pronounce your name.

### FITS

St. Louis, Mo. and All Nervous Disorders Permanently Cured by Dr. Kline's Great Nerve Restorer. Sold for Free at 18 West South and West 4th St. N. H. KLINE, Ld., 501 Arch Street, Philadelphia, Pa.

Reports from all sections of the country indicate a scarcity of hogs, due to the "panicky" unloading. Prices are likely to remain on the up grade for some time to come.

### WIDOWS' under NEW LAW obtained by JOHN W. MORRIS, Washington, D. C.

The fruit crop of the state of Washington for the year 1907 brought more than \$10,000,000.

Lead pencils were first made in the United States in 1811 by Wm. Monroe, at Concord, Mass.

## Truth and Quality

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing. Accordingly, it is not claimed that Syrup of Figs and Elixir of Senna is the only remedy of known value, but one of many reasons why it is the best of personal and family laxatives is the fact that it cleanses, sweetens and relieves the internal organs on which it acts without any debilitating after effects and without having to increase the quantity from time to time.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. To get its beneficial effects always purchase the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.

Recent experiments show that as a fertilizer, manure from cattle fed clover or alfalfa hay is worth twice as much as that from cattle fed timothy hay.

## EPILEPSY ITS TRIAL

If you suffer from Fits, Falling Sickness or Epilepsy, or have children that do so, by New Discovery and Treatment will give them immediate relief, and all you are asked to do is to send for a Free Bottle of Dr. May's

### EPILEPTICIDE CURE

Complies with Food and Drug Act of Congress June 30th 1906. Complete directions, also testimonials of CURED, etc. FREE by mail. Express Prepaid. Give AGE and full address. W. H. MAY, M. D., 548 Park Street, New York.

In 1907 Iowa led in the production of corn, oats and potatoes; Nebraska in rye, and Kansas in wheat. The value of the corn crop was greatest, being nearly half a billion dollars; winter wheat next, totalling \$200,000 in value; hay, rye, oats, barley and potatoes following in the order named.

Iowa, Illinois and Nebraska are the three great "hog states." The first named has nearly double the number of its nearest competitor and Nebraska is giving Illinois a close run for second place.

### \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

"The boy on the farm who can refer to my horse, or my calves, or my carriage or my anything is not the boy who is eager to leave the farm. The same thing is true of the girl who can speak of my things. In homes where everything is held in title by one person there is generally discontent. Every member of the family works and every member should own something individually."

## No Fatted Calf for Him.

Two old cronies met the other day and began discussing some of their mutual acquaintances. The conversation turned to Farmer Macdonald.

"Him!" contemptuously exclaimed cronny No. 2, who had never heard anything very mean laid to the farmer's charge.

"Well, it's like this," answered Donald. "Ten years ago he sent his son out w/ a tin bucket to milk the cow. The son and the bucket didna come back, and nothing was heard about the lad until the lither morning, when he knocked at his father's door. As a peace offering he brocht the auld man a suit of claes, a gold watch and a god gray mare."

"Then," interrupted cronny No. 2, "I suppose Macdonald had killed the fatted calf?"

"Not he," was the reply. "He said, 'Lad, they things will do very weel, but where's the tin bucket that you took awa w/ you?'"

The total value of farm products in the United States for the past year was \$7,000,000—about double that of 1900. Sixty-five per cent of the population are farmers.

## HOW TO TEST LINSEED OIL.

There is nothing that will make paint go wrong on the house more quickly than poor oil. It is as bad in its way as adulterations in the white lead. Petroleum oil cheapeners may be detected by placing a drop of the oil on a black painted surface. If one sees the characteristic iridescence or play of colors which kerosene exhibits, it is evidence of adulteration. Corn and fish oil can be detected by the smell.

Adulteration in white lead can best be discovered by the use of a blowpipe, which National Lead Company will send with instructions free to anyone interested in paint. Address, National Lead Company, Woodbridge Building, New York City.

## WASTING FERTILITY.

The fertility of the soil is the farmer's asset, and to continue to crop land without returning anything to keep up the supply of humus will soon exhaust it, and it will fail to produce a crop. Keeping stock and applying manure to the land is the safest and best method of maintaining fertility, and yet there are wasteful methods of handling the manure. To throw the manure out in the barnyard where the droppings from the calves and the rains will wash it and carry much of the fertilizing elements into the brooks and creeks is a wasteful practice. To have it spread out in the yard all summer where it will lose by evaporation and washing is another poor practice. To apply a heavy coat on a field and then wait five or six years is also a wasteful method, as it is better to apply a light coat often, and then the soil can utilize it, while a heavy coat cannot be "digged" all at once, and consequently some must be wasted. A light coat of manure applied every two years will maintain the fertility of the soil and good crops can be secured continuously. Spread thinly and often is the safest rule.

Garfield Tea is a natural laxative—it regulates the digestion, purifies the blood, cleanses the system, clears the complexion, brightens the eyes and brings the glow of splendid health!

Mary Morison, O. Mary at thy window be! It is the wisest hour! Those smiles and glances let me see! That make the miser's treasure poor; How blithely wad I hide the stoure, A weary slay frae sun to sun, Could the rich reward secure, The lovely Mary Morison.

Yestreen when to the trembling string The dance gaed through the lighted ha', To thee my fancy took its wing— I sat, but neither heard nor saw; Though this day frae his loving braw, And yon, the toast of a' the town, I sigh'd, and said among them a', "Ye are na Mary Morison."

O. Mary, canst thou wreck his peace Wha for thy sake wad gladly dee? Or canst thou break that heart of his, Whae only frae his loving dee? If love for love thou wilt na gie, At least be pity to me showa; A thought ungentle can't be sent, The thought o' Mary Morison. —Robert Burns.

## BABY IN TERRIBLE STATE.

Awful Humor Eating Away Face—Body Mass of Sores—Cuticura Cures in Two Weeks.

"My little daughter broke out all over her body with a humor, and we used everything recommended, but without results. I called in three doctors, but she continued to grow worse. Her body was a mass of sores, and her little face was being eaten away. Her ears looked as if they would drop off. Neighbors advised me to get Cuticura Soap and Cuticura Ointment, and before I had used half of the cake of Cuticura Soap and box of Cuticura Ointment the sores had all healed, and my little one's face and body were as clear as a new-born babe's. I would not be without it again if it cost five dollars, instead of seventy-five cents. Mrs. George J. Steese, 701 Coburn St., Akron, O., Aug. 30, 1905."

Took Something. Mrs. Brown, living in the country, had five trunks carried up from the station some three miles away, by an old man. The day was rainy, and the old fellow was soaked through when he drove up to the house.

Mrs. Brown (with sympathy)—Why, Hamilton, you must be wet. Hamilton (shivering)—Ye-es, ma'am. Mrs. Brown—Aren't you afraid you'll take cold, Hamilton? Hamilton—Ye-es, ma'am; rheumatiz pretty bad, ma'am. Mrs. Brown—Don't you ever take something when you get soaked through, Hamilton? Hamilton (eagerly)—Ye-es, ma'am. (Rubs the back of his hand across his mouth.)

Mrs. Brown—Well, here are four two-grain quinine pills, Hamilton, take them as soon as you get home.

SORE EYES, weak, inflamed, red, watery and swollen eyes, use PETTIT'S EYE SALVE. All druggists or Howard Bros., Buffalo, N. Y.

The secret in producing cheap pork is to maintain a steady gain and a high degree of health and vigor from start to finish. To this end have a variety of feed and make all changes from feeding for growth to feeding for flesh gradually. The sleeping places for hogs should in all cases be clean and dry, well ventilated and well provided with bedding, frequently changed.

It afflicted with Thompson's Eye Water sore eyes, use

## LOSSES AND CONDITION OF FARM ANIMALS

Reports from correspondents and agents of the Bureau of Statistics of the United States department of agriculture indicate that the general condition in regard to healthfulness of farm animals on April 1 was higher than the average of the past ten years, and, with the exception of swine, slightly higher than on April 1 last year. Losses from disease of swine during the past year were slightly heavier than during the preceding year; but smaller than the average of the past ten years. Estimates for other classes of farm animals indicate smaller losses in the past year than either the preceding year or the average of the past ten years.

The following table shows for the United States the estimated losses of farm animals during the years ended April 1, 1908, and 1907, the average of losses of the past ten years, and the condition on April 1 of 1908, 1907 and the average on April 1 of the past ten years:

	1908.	1907.	Ave. of Past Ten Years.
Horses—			
Losses from disease 17 1.9 1.9	32,000		
Condition April 1.....	96.8	96.7	96.1
Cattle—			
Losses from exposure 1.2 1.5 1.8			
Losses from disease 1.9 2.0 2.1			
Losses from exposure and disease 3.1 3.5 3.9	2,203,000		
Condition April 1.....	96.2	94.6	94.2
Sheep—			
Losses from exposure 2.3 3.5 3.3			
Losses from disease 2.2 2.6 2.4			
Losses from exposure and disease 4.5 6.1 5.7	2,478,000		
Condition April 1.....	96.7	94.4	94.7
Swine—			
Losses from disease 5.2 4.9 6.3	2,940,000		
Condition April 1.....	95.3	96.6	93.7

The following table shows the losses from disease of swine since 1884, years ending April 1:

Year	Losses	Per Cent	
1908	5.2	1896	9.2
1907	4.9	1884	4.9
1906	5.1	1893	6.3
1905	5.1	1892	5.4
1904	5.3	1891	8.4
1903	5.8	1890	7.6
1902	5.2	1889	7.4
1901	5.5	1888	7.8
1900	6.4	1887	12.4
1899	5.2	1886	7.2
1898	9.3	1885	13.1
1897	14.4	1884	8.1
1884	12		

The number of brood sows on April 1 is estimated to have been 3.2 per cent less than a year ago.

## The Too-Soon Brethren.

De Villet say he come ter stay— No col' kin lay him flat; Jack Pros' come lak' a ghos' in gray, An' de Villet—whar he at? (Watch out, my chilluns, By de light of sun an' moon, Always de bowleg baby Is de one dat walk too soon.) De Jaybird primp 'fo' de lookin' glass Fer de picnic in de spring, De blizard come lak' a big bass drum; Dar's snow on de Jaybird wing! (Watch out, my chilluns, Watch how you raise de chune; Always de bowleg baby Is de one dat walk too soon!) —Atlanta Constitution.

## New Mexico Land

W. A. Harris, the Kansas statesman, live stock breeder and farmer says: "I have been impressed by some of the tremendous mistakes that have been made in this country. As a boy I was familiar with the tidewater part of Virginia. There they farmed in an early day, making tobacco the leading crop. There never was any live stock industry in those days. And when we went into the other states of the south we see there the worn scarred hillsides, the result of the one crop—cotton. This is a sad spectacle. That land can hardly be brought back to its original fertility in a generation. The west should learn the lesson that one crop farming is a poor substitute for getting along in the world."

This woman says that after months of suffering Lydia E. Pinkham's Vegetable Compound made her as well as ever.

Maude E. Forgie, of Leesburg, Va., writes to Mrs. Pinkham: "I want other suffering women to know what Lydia E. Pinkham's Vegetable Compound has done for me. For months I suffered from feminine ills so that I thought I could not live. I wrote you, and after taking Lydia E. Pinkham's Vegetable Compound, and using the treatment you prescribed I felt like a new woman. I am now strong, and well as ever, and thank you for the good you have done me."

FACTS FOR SICK WOMEN. For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

## THE DUTCH BOY PAINTER STANDS FOR PAINT QUALITY

IT IS FOUND ONLY ON PURE WHITE LEAD. MADE BY THE OLD DUTCH PROCESS.

## HAD CATARRH THIRTY YEARS.

### Congressman Meekison Gives Praise To Pe-ru-na For His Relief From Catarrh.

CONGRESSMAN MEEKISON COMMENDS PE-RU-NA.

"I have used several bottles of Peru-na and I feel greatly benefited thereby from my catarrh of the head. I feel encouraged to believe that if I use it a short time longer I will be fully able to eradicate the disease of thirty years' standing."—David Meekison.

## OTHER REMARKABLE CURES.

Mr. Jacob L. Davis, Galena, Stone county, Mo., writes: "I have been in bad health for thirty-seven years, and after taking twelve bottles of your Peru-na I am cured." Mr. C. N. Peterson, 132 South Main St., Council Bluffs, Iowa, writes: "I cannot tell you how much good Peru-na has done me. Constant confinement in my store began to tell on my health and I felt that I was gradually breaking down. I tried several remedies, but obtained no permanent relief until I took Peru-na. I felt better immediately, and five bottles restored me to complete health."

## A SINCERE RECOMMENDATION.

Mr. D. C. Prosser, Bravo, Allegan Co., Mich., writes: "Two years ago I was badly afflicted with catarrh of the stomach. I had had a run of typhoid fever, was very depleted. I could find nothing I could eat without causing distress and sour stomach. Finally I came to the conclusion that I had catarrh of the stomach and seeing Peru-na advertised, began to take it. It helped me soon, and after taking three or four bottles I was entirely cured of stomach trouble, and can now eat anything."

Manufactured by PERUNA DRUG MANUFACTURING COMPANY, Columbus, Ohio

## The New Baby.

A young woman of a religious turn of mind wished to announce to a friend the birth of her first-born child. She sent the following telegram: "Isulah, 9-4," which being interpreted, read, "For unto us a child is born, unto us a son is given." The friend, more literal and less familiar with the Prophets, read the message, and said to her husband, "Margaret has a boy, but why on earth did she name him Isulah? He must be a healthy chap, though, for he weighs 9 pounds and 6 ounces."

## 90 BUSHELS OF OATS TO THE ACRE.

What Mr. Kaltenbrunner Has to Say About His Grain Crops in Central Canada.

Writing from Regina, Saskatchewan, Central Canada, Mr. A. Kaltenbrunner writes:

"Some years ago I took up a homestead for myself, and also one for my son. The half section which we own adjoins the Moose Jaw Creek; is a low, level and heavy land. We put in 70 acres of wheat in stubble, which went 20 bushels to the acre, and 30 acres of summer fallow, which went 25 bushels to the acre. All the wheat we harvested this year is No. 1 hard. That means the best wheat that can be raised on the earth. We did not sell any wheat yet, as we intend to keep one part for our own seed, and sell the other part to people who want first class seed, for there is no doubt if you sow good wheat you will harvest good wheat. We also threshed 9,000 bushels of first class oats out of 160 acres; 80 acres has been fall plowing, which yielded 90 bushels per acre, and 80 acres stubble, which went 30 bushels to the acre. These oats are the best kind that can be raised. We have shipped three carloads of them, and got 53 cents per bushel clear. All our grain was cut in the last week of the month of August before any frost could touch it. "Notwithstanding the fact that we have had a late spring, and that the weather conditions this year were very adverse and unfavorable, we will make more money out of our crop this year than last.

"For myself I feel compelled to say that Western Canada crops cannot be checked, even by unusual conditions."

Information regarding free homestead lands in Manitoba, Saskatchewan and Alberta may be had on application to any Canadian Government Agent, whose advertisement appears elsewhere. He will give you information as to the best route and what it will cost you to reach these lands for purposes of inspection.

## SICK HEADACHE
