A business corporation has been suc-restully established in Vienna by men who are totally bilnd. The company manufactures brushes and baskets and all its employes are blind. In the eight months of its existence it has filled or-ders aggregating 23,000 kronen (\$4,000), making a fair profit, and has enough orders on hand to justify the enlarge-ment of its workshop. Sixteen of the employes are skilled workmen and the company wishes it known that its wares are sold on their "actual merit," that they are put upon the market "In fair competition with the products of other concerns," and that the blind peo-ple want "business, not charity."

Governor Hughes is an aristocrat in his correspondence. When he writes a personal note from the executive cham-ber at Albany he uses the heaviest type of stationery of a cream white color, double page, and 10x7 inches, twice the size the average man has for his per-sonal use. The seal of the state, em-bossed in gold, is stamped at the head of the paper with the words "State of New York, Executive Chamber, Albany, N. Y.," in blue below, and when the recipient gets the letter it resembles an invitation to a fashionable wedding or a summons to a court function.

Financially and commercially the city is now very close to the normal basis, and it is evident that population and business are having a regular nor-mal increase. Doubtless our popula-tion is less than it would have been at this time had we met with no disaster, but it is certainly larger than ever be-fore, and if we take in the whole met-ropolitan area which would be includ-ed in a "Greater San Francisco," it is improbable that growth has been checked in the least, says the San Francisco Chronicle.

There was a suburban woman whose house, one summer, was overrun with moths. A tramp told her that, in re-turn for a square meal, he would give her an infallible moth cure. She set a square meal before the tramp, he de-voured it, then he said: "All ye need to do, ma'am, is to hang your moth filed clothes and carpets and things on a line and beat 'em with a stick. Goodby to yer moths then." "Will that kill them?" asked the lady. "Yes, if ye hit 'em," said the tramp. There was a suburban woman whose

This sensational declaration caused a stir in the little court room where the inquest was being held and caused the inquest was being held and caused the county attorney to call to the stand the two actectives who searched the rooms of Davis yesterday. They said the proprietor of the Chatham did not see him come in, but no further explanation was offered.

Jury Out an Hour.

The testimony was completed at noon and the jury retired. Most of the testimony introduced was

day by Mrs. Abbie Rice. Clara Gleason, who runs a rooming house, testified that Rustin and Mrs.

Rice had occupied a room at her home for four days prior to the shooting, and that Mrs. Rice went home about mid-night on the night of the shooting. She also said Mrs. Rice had called up the Rustin home several times between midnight and morning, apparently without receiving any satisfaction as to the whereabouts of the physician. Sev-eral other witnesses testified.

Detail of Inquest.

At the inquest Davis admitted hav-ing walked downtown at a late hour Tuesday night on the south side of Farnam street. He also stated he was very ill from the effect of morphine and liquor. His testimony and the in-formation furnished by Dr. Lord coin-cide in every detail, and indicate that Davis might have been walking east on Farnam street 10 to 15 minutes after he shooting occurred. No definite time has been set for the Davis hearing, the police and county Omaha, Neb., Sept. 9.-Two features in the coroner's inquest over the death of Dr. Rustin, brought out in yester-day's proceedings, have practically up-set all former theories as to the manner of his death. Last spring prohibition was defeated only by the announce-ment of the board that no saloons would be allowed to sell liquor from 7 in the evening until 7 in the morning. The board kept its promise, but the hotel men, after scratching their heads vigorously, evolved a scheme. They posted in every room and conspicuous-ly about the lobbies that the bar closed ly about the lobbles that the bar closed at 7 o'clock every evening and that no liquor would be sold after that hour, liquor would be sold after that hour, but that they would be glad to fill and deliver at the room of the guest before that hour any liquor he desired. The hint was generally taken, and later the boys about town dropped to the fact that all they leeded to enjoy an even-ing of the old kind was to hire a room at a hotel during the day and have the materials sent up there before 7,

o'clock. Last Thursday two young men and young women of respectable families in Firth, a town in southern Lancas-ter, came to Lincoln, and for two days they held bacchanalian revelry in a hothey held bacchanalian reveiry in a ho-tel room. The debauch ended with one of the young men committing suicide and the exposure of what was going on has ruined the reputations of the two girls, who had hitherto been un-suspected. A storm of indignation broke on the excise board, and it now proposes to adopt the rule that a liquor decler can seel no liquor excent to the proposes to adopt the rule that a liquor dealer can sell no liquor except to the man who presents himself at the bar and pays for it in person. This stops all delivery of goods even after the customer has bought and paid for them in person. EXPRESS COMPANIES PLEAD POVERTY CASE

Lincoln, Neb., Sept. 10.-The pitiable condition of the express companies doing business in Nebraska was presented yesterday afternoon before Referee Sullivan, who is hearing the case brought by the state to prevent the express companies from violating the

Sibley law reducing express rates 25 per cent in the state. The companies contended that they were making such a small margin un-der the old rates that if compelled to permanently maintain the new ones, ruin stared them in the face. The legal ground of defense is that the law is a clerk in a local bank and well con-nected, and said: "There he is." Davis was called to the stand and, while denying that he had agreed to the shooting of Dr. Rustin, admitted that on three occasions the doctor had given him sleeping potions, intended to make him take the long sleep.
