

ONE OF THE OLDEST MEN IN AMERICA.

Says: "Peruna Has Been My Stand-by For Many Years."

Isaac Brock, 120 Years of Age. Mr. Isaac Brock, of McLennan county, Tex., is an ardent friend to Peruna and speaks of it in the following terms: "Dr. Hartman's remedy, Peruna, I have found to be the best, if not the only reliable remedy for COUGHS, COLDS, CATARRH and diarrhoea. "Peruna has been my stand-by for many years, and I attribute my good health and my extreme age to this remedy. It exactly meets all my requirements. "I have come to rely upon it almost entirely for the many little things for which I need medicine. I believe it to be especially valuable to old people." Isaac Brock.

Wanted—A Vision.

From an interview with Israel Zangwill in the New York Times. "You have," said Mr. Zangwill, "the most interesting country in the world. Its present situation and its future opportunities are absolutely fascinating. Never before was a territory so vast, a virgin territory, committed into the hands of the people—a democracy. You have a chance to do in America anything in the world that has ever been imagined or that remains to be imagined. You have a chance to amaze history and to dumbfound the future itself. "What you need is a national aspiration. Do you think you have one? If you have, I cannot discern it. You are engaged with the idea of material grandeur. You think of riches. You pile wealth, you increase possessions, you multiply luxury. It is not worth while. All true glory, and all continued, assured national existence even, depends upon the existence of a spiritual ambition. No people can hold together, certainly no people can hold a great place in the world, unless it be by some ideal. Where there is no vision, the people perish. "The vision will come to you. The ambition will possess you. I do not doubt. What I feel, however, I cannot guess—but something very splendid, I am sure, perhaps even now conceiving in the passion of events. If I allow myself to think of it at all, it comes to me that perhaps if you but allow your zeal for material expansion to become more introspective; if you would cease to take pride in extending abroad the fame of your riches and come to take pride in the fact that every man and woman and child at home only knows of, but participates in, your wealth and comfort and good living, then you would have achieved an ideal worthy of your existence."

There are innumerable instances of forest destruction; few of replantation. At Malta when the trees were cut down to make way for the growth of cotton, rain became rarer. The same result from felling the timber occurred on the Cape Verde Islands. On the island of St. Helena, on the other hand, with the increased growth of the forests, rain has increased proportionately, the rainfall being twice what it was when Napoleon resided there.

London as a fishing village was pictured by Sir William Ramsay at the annual meeting of the British Science Guild. He was dealing with the question of the national coal supply, which he said it was estimated would be exhausted in from 500 to 800 years. "Are we going to pay attention to afforestation, so that when coal is gone we shall have wood?" he said. "It is horrible to look forward to a fishing village of London built on top of some magnificent ruins, and with a population of 5,000 or 6,000 supported by the pursuit of agriculture."

A Modern Nero. The Crown Prince George of Servia is not exactly one's ideal of a model ruler. This young gentleman, whose hobby is said to be to bury cats in the ground up to their necks and then stamp them to death, is more one's idea of a youthful Nero or Caligula, and heaven help the nation delivered over to his tender mercies.

Start Tooth Crusade.

The care of the teeth has reached a transitory age. The movement to popularize it will sustain impetus from a series of meetings which continues all through next week, bringing to Boston dentists, physicians and laymen of the highest attainment to discuss in the public forum the subject of dental and oral hygiene. The purposes of this conference—the first Massachusetts state conference on oral and dental hygiene—are to bring the importance of this vital subject fully and frankly to parents, educators, social workers and philanthropists; to invite the public to an open discussion on dental hygiene; to determine how best to further the popular movement for better care of the mouth and the teeth.

Read the Label. Under the Pure Food Laws baking powder labels now show the ingredients of which the powder is made.

Those who appreciate the importance to health and good baking of using a pure cream of tartar powder will read the back of the label carefully and make sure that the ingredients mentioned include cream of tartar.

The food law does not force consumers, merely, to protect themselves. All good housekeepers want cream of tartar baking powders, and will not use alum substitutes in the food, if they know it. As the ingredients are printed on the back of the label, all may know the facts. Good baking powder is one of the most useful things in the kitchen; it is easily obtained at any store; the better it is, the more economical it is in cooking materials, and the more it conserves the health of the family.

And As for Managers, Well— One day Ben Teal was rehearsing a new play.

"Ladies," called Mr. Teal in persuasive, soothing tones to the chorus on the stage. "Ladies, what I want in this number is style! Class! Breeding! To get that, we are willing to pay something more than the usual salary. I want grace! Poise! Distinction!"

He swept the stage with his experienced eye, and every girl within its range straightened her back and steadied her stride. "I want you to appear as ladies, as well bred ladies, accustomed to the drawing room. As I said before, I want grace! Poise! Distinction!" "Good heavens, girls, don't walk like a lot of ducks!" he shouted.

Salzer's Seed Produce.

We recently saw a letter from Wm. Underwood, of Patchogue, N. Y., addressed to the John A. Salzer Seed Co., Box C, La Crosse, Wis., that has this to say:

"I planted Salzer's Independence Corn. I sold 7,000 ears before the first Sweet Corn of other gardeners around Long Island was ready to eat. I sold them as high as \$2.50 per 100 ears."

"I planted Salzer's Earliest Cucumber seed and first, last and all the time, I think that Salzer's Earliest are the greatest I ever saw. They are such bearers, and so fine."

Choice of Two Evils. From the Cleveland Leader.

When Charles Dudley Warner was the editor of the Hartford (Conn.) Press, back in the '60s, arousing the patriotism of the state by his vigorous essays, one of the typesetters came in from the composing room and, planting himself before the editor, said: "Well, Mr. Warner, I've decided to enlist in the army."

"With all the sensations of pride and responsibility Mr. Warner replied encouragingly that he was glad to see that the man felt the call of duty. "Oh, it isn't that," said the truthful compositor, "but I'd rather be shot than to try to set any more of your copy."

WISHED FOR DEATH.

Sufferings From Kidney Troubles Were So Acute. Mrs. Josephine Jeffery, 24th and Washington Sts., Marion, Ind., says: "To look back upon what I have gone through, it seems a miracle that I live, and I feel that I owe it to Doan's Kidney Pills. My case developed gradually. First, backache, floating spots before my eyes, weakness and exhaustion, then a terrible steady pain over the kidneys and an extreme nervousness. Doctors finally said there was no hope for me, but I began using Doan's Kidney Pills and gradually recovered my health."

Aboard the stage coach in the Virginia mountains the old man and the old woman were fellow passengers. The old woman kept staring at him as if trying to remember. At last she said: "Stranger, 'pears to me I seen you somewhere." The old man eyed her reflectively and scratched his head. "Spec you have," said he. "Ah been there."

25 OLD SLIP NEW YORK, N.Y.

There is more than one way to skin a cat. Also there are several thousand ways of mulling a city by getting around an obnoxious law. Chicago's aldermen have voted themselves an increase in pay of \$1,500 a year, placing the figure after April 1 at \$3,000. This will affect only the new aldermen to be elected this spring. But the "hold-overs," who are barred by law from any increase during their terms of office, are not left out in the cold. A provision that they shall have \$1,500 a year for "private secretaries" has been adopted.

A Cure for Colds and Grip.

There is inconvenience, suffering and danger in a cold, and the wiser of us people will take a few precautions against colds. One or two Lane's Pleasant Tablets (be sure of the name) taken when the first snuffly feeling appears, will stop the progress of a cold and save a great deal of unnecessary suffering. Druggists and dealers generally sell these tablets, price 25 cents. If you cannot get them send to Orator F. Woodward, LeRoy, N. Y. Sample free.

A New One on Conners.

From Harper's Weekly. Fingy Conners is an irrepressible soul. Tact and he have nothing in common. A few evenings ago he met Charles Bissell in a crowded hotel and pounced upon him with reckless joviality. "Hello-o-o, Charley!" he cried. "How the deuce are you, eh? How's Herb? How's the wife?"

Mr. Bissell was worried. He pined for decorum. At his side was Justice Brewer, of the United States supreme court at Washington, reserved, silent, dignified. Mr. Bissell was inspired to use his majestic personality as a quench of Fingy's exuberance. "Mr. Conners," he said, "let me introduce you to Justice Brewer."

"How's the health?" asked Fingy, giving the hand of the judge a perfunctory shake. "The health is good, so as to afford more range to his glance of disapproval, he looked at Justice Brewer very coldly, and turning to Mr. Bissell said: "Say, Charley, I thought I was onto all the people you put on the bench, but I guess you're wrong somewhere. What court do you make him judge of?"

HAD WEEPING ECZEMA.

Face and Neck Were Raw—Terrible Itching, Inflammation and Soreness—All Treatments Failed—Cuticura a Great Success. "Eczema began over the top of my ear. It cracked and then began to spread. I had three different doctors and tried several things, but they did me no good. At last one side of my face and my neck were raw. The water ran out of it so that I had to wear medicated cotton, and it was so inflamed and sore that I had to put a piece of cloth over my pillow to keep the water from it, and it would stain the cloth a sort of yellow. The eczema itched so that it seemed as though I could tear my face all to pieces. Then I began to use the Cuticura Soap and Ointment, and it was not more than three months before it was all healed up. Miss Ann Pearsons, Northfield, Vt., Dec. 19, 1907."

The curator of the museum at Brussels has just been pursuing an interesting claim in the Belgian courts. In May last Mme. Bourliant, the widow of an Egyptologist, offered to the museum two scarabs with inscriptions, which the lady claimed related to a voyage on the coast of Africa referred to by Herodotus. The curator purchased the scarabs for \$2,000, and, as may be imagined, they created a great deal of interest in the learned world, the final judgment of which was that the so-called antiquities were forgeries. M. Capart, the curator, has sued the widow for the return of the purchase price, and the courts have decided in his favor.

Our Oldest Families.

From the Indian's Friend. The Kiowas, Comanches and Apaches held their inter-tribal council on October 1. Chief Ahepaton was re-elected chief of the Kiowas, Quannah Parker of the Comanches, Apache John of the Apaches. Paul Corbett, of Kamliah, is a full blood Indian, but he is a stockholder and director in the Kamliah bank, a stockholder in the Kamliah Bridge company and a landed proprietor of no small pretensions.

A descendant of Tama's band of Musquakie Indians is now the engineer of a fast passenger train on the Burlington road. He is here on the same ground where his ancestors lived for many generations. Few passengers who ride behind him know that a Tama Indian sits in the cab of the engine as it speeds over the prairies.

Hollow Horn Bear, chief of the Sioux, returning from a visit to Senator Gamble at Yankton, found himself "broke" and through Interpreter Pillsbury sought Judge Witten in charge of the Trip registration, and asked for a loan of \$5 to buy food for his family. When the judge presented a \$5 bill Elliston pointed out Hollow Horn Bear's picture on it. Judge Witten kept the bill and gave the chief specie. He wished to keep the bill which contained the picture of the only living man ever photographed in that manner. Hollow Horn Bear made a speech in congress in 1889, and as he is a good looking specimen of his race his picture was engraved on both the \$5 and \$20 bills.

WELL PLEASSED WITH WESTERN CANADA.

Good Crops, Splendid Climate and Well-Enforced Laws.

Mr. George E. Hunt is a Maidstone farmer, who writes a Canadian Government agent as follows: It was the first week in November, 1907, when we arrived here. There was very little snow or cold weather until after the holidays, then the snow and cold increased, but to no great extent. I think the coldest I heard of was 30 degrees below zero, but that degree of cold would not be felt here any more than 10 degrees below zero would be back home in Michigan, owing to the beautiful, dry atmosphere of this country. There came a good thaw every month that settled the snow, the fields soon became bare and on the 12th of April I commenced ploughing. The snow was then all gone and summer at hand. This last season was something more than an average year around here with fine crops gathered from a large acreage. In parts the crops were less than average, but generally speaking they were above it. The price of wheat was quite good. Some fine yields sold at \$1.10 per bushel, while some were marketed at much less, but hardly any went below about 60 cents a bushel.

Oats started on the market at 35 cents a bushel, barley about 50 cents and flax from 90 cents to \$1 a bushel. As this was my first year in this country, it was a hard year for my horses owing to their being Eastern horses and not used to the Western climate, but they will soon get climmatized.

The soil on my farm is a black loam about one foot in thickness. Below that we find about six feet of clay and below that again gravel and sand, with an abundance of excellent water. This was the condition of the ground as I found it when I dug a well. I can say that the water is as sweet and as free from alkali and impurities as I ever saw.

My opinion is that the man who comes here with a little means can do no better than invest \$500 or \$1,000 in cattle after locating a homestead adjoining or near some hilly part of the country where it will not be taken up as soon as there is plenty of grass and hay to be found in the hilly country and small lakes and sloughs will afford sufficient water for any amount of cattle. The bluffs with a few hay or straw sheds will make sufficient shelter for them. There is no need to worry about the market for cattle, as there is already a great call for stock of all kinds to satisfy the continued demands of the large packing house at Edmonton, established by Swift & Co.

The dairy business should by no means be forgotten. It is one of the paying enterprises of this great West. The price of butter seldom goes below 25 cents and reaches as high as 40 cents a pound. Also the new creameries that are fast being erected along the lines of railroad are calling on the farmers for their cream.

These creameries are greatly welcomed in all communities, because selling cream is better than making butter, even at an average price of 25 cents a pound. For a new country the railroad transportation facilities are good; not yet, of course, what they are in older countries, but the new lines are swiftly gaining as the country gets more settled and supplies them with produce to ship. It is hard to say too much in favor of this country. All one needs is a little money with grit and ambition. I have seen homesteads that were filed on a little over three years ago that the owners have refused \$3,000 for. There is much more that can be said in favor of Western Canada, but I think my letter has been long enough.

Rome is not yet finished. Ernesto Nathan, the mayor of Rome, is described as a remarkable man of charming personality, earnest in his work and intent on doing his utmost toward bringing to perfection the plans which will make Rome one of the most beautiful cities.

OWES HER LIFE TO

Lydia E. Pinkham's Vegetable Compound

Vienna, Va.—"I feel that I owe the last ten years of my life to Lydia E. Pinkham's Vegetable Compound. Eleven years ago I was a walking shadow. I had been under the doctor's care but nothing helped. My husband persuaded me to try Lydia E. Pinkham's Vegetable Compound and it worked like a charm. It relieved all my pains and misery. I advise all suffering women to take Lydia E. Pinkham's Vegetable Compound."—Mrs. EMMA WHEATON, Vienna, Va.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

Thus far Miss Minnie J. Reynolds, of New York, has the distinction of having secured more signatures for the national woman's suffrage petition in one evening than any other person in the country.

WESTERN CANADA THE PENNANT WINNER

FARMS WESTERN CANADA FREE "The Last Best West."

The Government of Canada now gives to every Actual Settler 160 acres of wheat-growing land free and an additional 100 acres at \$3.00 an acre. The 300,000 contented American Settlers making their homes in Western Canada is the best evidence of the superiority of that country. They are becoming rich, growing from 25 to 50 bushels wheat to the acre; 60 to 110 bushels oats and 45 to 60 bushels barley, besides having splendid herds of cattle raised on the prairie grass. Dairying is an important industry.

The crop of 1908 still shows Western Canada is the land of the future. The world will soon look to it as its food-producer. The thing which most impressed us was the magnitude of the country that is available for agricultural purposes. National Editorial Correspondence, 1908. Low Railway Rates, good schools and church markets convenient. Prices the Highest, climate perfect.
