# Answer His Question

When a remedy has lived for over thirty years, steadily growing in popularity and influence, and thousands upon thousands of women declare they owe their very lives to it, is it not reasonable to believe that it is an article of great merit?

We challenge the world to show any other one remedy for a special class of disease which has attained such an enormous demand and maintained it for so many years as has Lydia E. Pinkham's Vegetable Compound, the famous woman's remedy for woman's ills. Unless it is a very good medicine and the claims made for it are honest, such a record would have been impossible—fraud or misrepresentations would long ago have been detected and the business gone into oblivion. Read this unsolicited letter:-

Melbourne, Iowa:—"I suffered for many years with female troubles, inflammation, and bearing-down pains, so that I was unable to do my work.

"Lydia E.Pinkham's Vegetable Compound was recommended, and I am so thankful for the great good it has done me. I feel that I am a living advertisement for this medicine as I have influenced so many of my friends to use it, so thankful am I that it restored me to health."—Mrs. Clara Watermann, R. D. 1,

When a woman like Mrs. Watermann is generous enough to write such a letter as the above for publication, she should at least be given credit for a sincere desire to help other suffering women. For we assure you there is no other reason why she should court such publicity.

We say it in all sincerity and friendship—try this medicine.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

Corn Planting is here—Distemper among the horses may be near also—may take some of them—corn planting may be late if your horses have Distemper.

SPOHN'S DISTEMPER CURE is your true safeguard—a cure as well as preventive—50c and \$1.00 bottle—\$5.00 and \$10.00 dozen, delivered. Large is more than twice the smaller size. Don't put it off. Fell from Scaffold and Injured His Back.

Thirty years ago James C. Lee, of 1100 9th street, S. E., Washington, D. C., fell from a scaffold and seriously injured his back. In telling about it he says: "My suffering was terrible; from the small of my back all around my stomach was just as if I had been beaten with a club. I tried all kinds of plasters-belladonna, capcine and porous-without getting relief, and bought so-called electric belts but none of them did me any good.

One day, while working near my daughter's house, my back pained me so badly that I had to quit. I went into the house and lay down for ease. My daughter had a bottle of Sloan's Liniment in the house and she rubbed my back well with it and gave me some to take home. I used six and a half bottles of Sloan's 25c. Liniment and can do as much work now as any man in the shop, although I am sixty-seven years old. I would not be without Sloan's Liniment for any consideration and recommend it to anyone suffering

Taken Unawares. Sir William Grantham has naturally had many entertaining experiences during his long public career, and some of the most amusing occurred when he was engaged as a political speaker in the days before he took his place on the bench, and when he was plain Mr. Grantham. On one occasion, while he was delivering an address a man got up in the audience and dress a man got up in the audience and shouted out excitedly: "It's a lie." "Thanks," said the future judge. "It's a lie," shouted the excited one again. "You're a gentleman," said Mr. Grantham sarcastically. "It's a lie," burst out his opponent again, carried away by his wrath; but the general laughter which prose at his answer recalled him to him. arose at his answer recalled him to him-self again and he sat down, discomfited.

Mrs. Winslew's BOOTHING STRUP for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colfo. 25c a bottle.

Small Scale Love.

From the Seattle Post-Intelligencer. Dr. Pierce Underhill, whose book on divorce and marriage is to appear next month in Indianapolis, delivered a lecture recently in a fashionable Indian-apolis church.

'Extravagance," he began, "is one of "Extravagance," he began, "is one of the big causes of divorce. My cousin, a bank teller, married a pretty girl and took her home to a nice little flat. But she frowned and bit her lip.

"'Oh, Jack.' she said, 'I can't live in a tiny flat like this!'

"'You don't love me when you say that, darling,' said my cousin.

"'Oh, yer, I do,' said she, 'but not on such a small scale.'"

An Unfortunate Resemblance.

From the Cleveland Plain Dealer. The visitor looked around. "Who is he?" he asked.

"That's Jim Pettigrew. He ain't don a stroke o' work for 16 years. Just sets aroun' an' tells stories." "What's the matter with him?"

'Nothin'. Only some fool feller back '93 told him he looked like Lincoln."

The Suffragette Cocktail. Minneapolis Letter to the Pittsburg Press.

The suffragette cocktail is the newest

American drink. Some other kinds of cocktails make a man want to go home and beat his wife. The new drink has exactly the opposite tendency. Two or three of the new drinks make a man go home and relinquish his position as head of the household to his wife and accord her all the privileges he now enjoys as a citizen.
That's true, for it has already been

tried. A Hennepin avenue bartender invented the new drink. Here's his

Sloe gin, French vermouth and Italian vermouth in equal parts to make a gill; mix in a cocktail glass, add a dash of orange bitters, twist in two One makes a man willing to listen to the suffragettes' argument.
Two convinces him that it has some

merit. Three make him a missionary, willing to spread the gospel abroad, and four make him go home and wash the

dishes.

How a Lawyer Lost a Fee.
From the Dallas News.
According to old timers, the late Colonel Bob Taylor, of Bonham, once met a woman in the road as he was riding on horseback to hold court in Delta county, he being then district judge. The woman had a jug of water and the judge was thirsty.

Being a man with a cheery word for everyone, the colonel stopped her.
"My dear madam," he said, smiling,
"If you will give me a drink of cool water from youder jug, when you want a divorce from your husband I will see that it costs you nothing."

"Are you a lawyer?" inquired the woman, handing him the jug. The colonel explained who he was, and waving a farewell departed, leaving the

woman gazing after him.

The very next morning the woman showed up in the court room and asked for him. She explained that she wanted a divorce. She had been separated from her husband for a long while and the colonel had put an idea into her head. The colonel was game, however. He procured a lawyer at his own expense and in due course of law the woman was given a divorce, and Colonel Taylor would tell the joke on himself often.

Longing. Come to me in my dreams, and then By day I shall be well again! For then the night will more than pay The hopeless longing of the day.

came cold the eczema started again and also in her head where it would take the hair out and leave bare (Come, as thou cam'st a thousand times, A messenger from radiant climes, And smile on thy new world, and be As kind to others as to me!

Evolution.
From Marcus Aurelius,
Observe constantly that all things
take place by change, and accustom
thyself to consider that the nature of the universe loves nothing so much as to change the things which are, and to make new things like them.

### **ENGINEERING FEATS** ON THE PLANET MARS

Speculation as to the Difficulties Martians Have Had to Overcome.

Garrett P. Servis in New York American, A reviewer in the London Times of Professor Percival Lowell's book on "Mars as the Abode of Life" makes a pregnant suggestion. Why, he asks, has not Professor Lowell dealt with the temperature difficulty on Mars as he has with that of the scarcity of water? And then he goes on to add that if the Martian engineers have constructed the gigantic system of irrigation of which must surely have been capable of solving the no less important problem of storing up solar heat on that chilly unblanketed planet.

While Mars gets only half as much solar heat as we do its cloudless con-

While Mars gets only half as much solar heat as we do, its cloudless condition is favorable to employment of heat engines depending on the utilization of the sun's rays. In its equatorial regions the sun is never hidden by clouds, and all day long solar engines might run without interruption. If the canal-like lines are, as Professor Lowell thinks, irrigated bands, it is equally probable that they also indicate the probable that they also indicate the lines along which energy is conveyed to the neighborhood of the poles, where the annually melting snows are assumed to furnish practically all the water that is available to keep the

planet alive.
This water would not flow toward the middle latitudes of itself. The supposed engineers must have con-trived machinery to pump it and set it running to the places where it can be used. The energy needed to drive the pumps would have to be almost unlimited in amount. Fuel like coal could not supply it, but a vast system of solar engines might suffice to do the work

The pumps would have to be arrayed in long series, conducting the water, by successive steps over distances as great as from San Francisco to New York. The known flatness of the surface of The known flatness of the surface of the planet is favorable to this. The necessity of a continuous succession of pumping machinery offers an explanation of the narrowness of the "irrigated bands," and also explains why they extend to the very poles. A glance at a chart of Mars shows the suggestive way in which the lines run, radiating from the centers and covering the enfrom the centers, and covering the entire planet with their network of sup-posed machinery.

Truly, our terrestrial engineers are pitifully childlike in comparison with the suppositious giants of Mars.

Unconscious Effort.

Unconscious Effort.

In pictures of athletic competitions, chiefly hurdle races and high jumps, an occasional spectator is seen caught by the camera in a queeer posture, says the New York Sun.

If it is a picture of an athlete leaping, 10 chances to one the spectator has involuntarily raised his right leg, twisting his body in automatic expression of a desire to help the jumper. With hurdle race photographs this often may be noticed, too, and in the case of sprinters not a few men stand with faces twisted up and holding the breath in correct imitation of the athbreath in correct imitation of the ath-

So, too, with football views. In one of a big game recently there was a photograph of a man on the side line watching a tackle, who was crouching down in almost exact imitation of a waiting defense man who was shown at the moment making ready for his leap at the runner. Men who follow athletics know how

involuntary this is. One athletic trainer has appeared in hundreds of pictures as watching some one of his tures as watching some one or his charges high jumping, with his legs swung out just as if he were making the leap himself. There is a sort of relief for the feeling of trying to help the jumper in swinging the leg up so, and almost any person is likely to do

It may be noticed at prize fights that some men go through the entire battle punch for punch, crossing and countering an imaginary opponent as they watch the struggle before them. Men drive and ride horses in races from the stand, making the effort in the stretch along with the jockey of their fancy. This is one of the well-known features among the race growd where there are among the race crowd where there are many "grand stand riders." In wrest-ling matches almost any one will try, purely by instinct, to help the athlete who is down and who is bridging desperately.

And yet there is rarely enough tele-pathic suggestion in the air surcharged with desire to bring about a result different from what naturally might be expected at the moment when the greatest wish for something else is born. That is to say, the high jumper doesn't necessarily clear the bar, nor the sprinter squeezes out the inch or so that he needs, nor the jockey whip up his mount in for the head that means victory.

HELPING HIM OUT.

"Your milliner's bill has cost me this year as much as the salary of my two bookkeepers. That is more than I can

"Well, discharge one of them."

The United States annually produces more oats than any other country in the world—754,000,000 out of 3,582,000,-000 bushels.

From the Columbus Dispatch Jack Gantz, colored, janitor of offices of the attorney general and state pharmacy and medical boards, who is past 60, born in slavery, and

who is past 60, born in slavery, and who has never attended school in his life, is to be educated. Assistant Attorney General William H. Miller, who secured him the place he holds, six months ago, and who has taken a deep Man of 60 Years Learns to Write. Interest in him, has arranged for him to receive instruction in one of the Y. M. C. A. classes. It is a part of the work of the janitor to bring and distribute the mail and when Jack took the job and was told what was expected of him, he was filled with despair. "Deed. Mr. Bill, you know I don't know nuffin' bout dat readin' and 'ritin' and I can't do dat work."

Mr. Miller took him in hand, taught him the rudiments of these things and

him the rudiments of these things and Jack has progressed so far that he can-Jack has progressed so far that he cannot only read the addresses of the letters and distribute them properly, but also write his own name, an accomplishment over which he is very proud. He signs his pay voucher and in speaking about his ability to perform that task he remarked: "That was de greates' thing on history." Jack was reared by the Todhunter family in Favette county.

Fayette county.

Funny Preachers Win Fight.

From the Milwaukee Sentinel.

Advantages enjoyed by foreign missionaries having ability to entertain, were touched upon by Henry White, late missionary to Laos, before the Women's Presbyterian board of missions of the Northwest.

Women's Presbyterian board of missions of the Northwest.

"These natives are just as hungry for fun as Americans," said Mr. White, "If the missionary can play a horn or a violin, or sing, and, yes, even give a clog dance, he will get the attention of these people and later be able to reach their hearts with the gospel.

"The missionary who is full of humor and jokes has the greater chance mor and jokes has the greater chance

for success. "You may question as to what we are achieving. When I tell you that because of our work in Laos hundreds have denounced idolatry and taken Christ, cost what it will, are we not 'making good?"

Protection afforded to the seal and the salmon has for the time being made a serious deficiency in the value of the fish product of Canada.

NOTHING IN SIGHT.

Life Had Lost All Interest. Mrs. J. P. Pemberton, 854 S. Lafayette St., Marshall, Mo., says:

"Doctors told me I had Bright's disease, and I believed it. I was getting weaker and weakuntil I finally took to bed. The kidney secretions were scanty and seemed filled with dead tissue. I got thin and emaclated and then

began to bloat all over. It oppressed my heart and I was in such a condition that I did not take an interest in anything. As a last effort I began using Doan's Kidney Pills. The kidneys responded quickly, began carrying off the poisons, and when I had used twelve boxes the trouble was all gone. I now enjoy better health than ever before." Sold by all dealers. 50 cents a box.

Foster-Milburn Co., Buffalo, N. Y.

Pope's Translation of the lliad.

From the New York Times.

There are a number of interesting libraries of R. N. Oakman, jr., of Brooklyn and Dr. E. C. Williams, of Chicago, which will be sold at Merwin-Clayton's on May 11, 12 and 13. One of them is a first edition of Alexander of them is a first edition of Alexander Pope's translation of Homer's Iliad.

Pasted on the front leaf is the following printed slip: "Received of George England, esq., two guineas, being the first payment to the subscription for the Translation of Homer's Iliad; to be delivered in quires to the bearer hereof in the manner specify'd in the proposals. (Signed) A. Pope."

The name of George England and the The name of George England and the signature, "A. Pope" are both in Pope's autograph.

There is also a copy of a first edition of George Bancroft's Poems, writ-ten in 1823 when he was 23 years of age, and rare, owing to his own efforts to suppress it. It is said that most of the copies were burned at the home

## Kidney Ailment

I want every person who suffers with any form of Kidney aliment, no matter how many remedies they have tried, no matter how many remedies they have tried, as matter how many doctors they have consulted, no matter how serious the case, to give Munyon's Kidney Remedy a trial. You will be astonished to see how quickly it relieves all pains in the back loins and groins caused by the kidneys. You will be surprised to see how quickly it reduces the swelling in the feet and legs, also puffiness under the eyes, after taking a few doses of this remedy. You will be delighted to see the color returning to your cheeks and feel the thrill of vigor and good cheer. If your Urine is thick or milky, if it is pale and foamy, if it contains sediments or brickdust, if it is highly colored or has an offensive smell, if you urinate frequently, you should persist in taking this remedy until all symptoms disappear. We believe this remedy has cured more serious kidney aliments than all the Kidney medicines that have been compounded. Professor Munyon believes that the terrible death rate from Bright's Disease and Diabetes is unnecessary and will be greatly reduced by this remedy.

Go at once to your druggist and purchase a bottle of Munyon's Kidney remedy. If it falls to give satisfaction I will refund your money.—Munyon.

For sale by all druggists. Price 25c.

\*\*\*\*\*\*\*\*\* ANIMAL STORIES.

Subdued Her Lord.
From the New York Herald.
New thought in various forms arouses in echo in the Bronx Zoological Gardens, and visitors yesterday had an opportunity to witness practical demonstrations of the doctrine of woman suffrage and the "Osler" theory

man suffrage and the "Osler" theory among its inmates.

Duke is a magnificent gray timber wolf and until yesterday was an autocratic one. His mate was Susan, and a more peaceful, meek and self-effacing wife no one could desire. Duke was distinctly the head of his own household and ran things to suit himself, When he wanted amusement he nagged

hold and ran things to suit himself. When he wanted amusement he nagged Susan and when he was irritated he snapped at her in quite the usual and natural way. Sometimes he bit her, and his teeth are sharp. He was in a particularly evil temper on Saturday. It is not known whether Susan slipped away to a suffragette meeting in the evening or whether she found a yellow button bearing the legend "Votes for Women," which started a revolutionary train of thought. But yesterday she came to an understanding with Duke that had unpleasant consequences for him. He started to worry her and she came out for her rights, caught him by the scruff of the neck, banged him up and down, ripped. rights, caught him by the scruff of the neck, banged him up and down, ripped his coat in 15 places and had him by the neck with a strangle hold when the keepers separated her from her first convert—for there was no doubt that Duke was converted. When heleaves the hospital, if ever, he will trot right up with the beef bone and take what he gets when Susan is through with it.

The prairie dogs afforded the next illustration of the advance of ideas among the animals. There has long been a mystery, to keepers as well as to visitors, concerning the fate of the

to visitors, concerning the fate of the aged prairie dogs. Members of the colony have suddenly disappeared. Yescolony have suddenly disappeared. Yesterday a number of persons gathered about the prairie dog burrows saw one of the patriarchs crawl slowly out into the sun. He was unnoticed for a time, but presently three young, active prairie dogs surrounded him and began to kick dust at him. He made no resistance, but crawled back into his hole. Then they scraped dirt in after him. When one of the keepers was summoned and dug into the burrow he found that the aged victim had been suffocated.

Cure That Cold To-Day.

Nearly all druggists and dealers now have in stock Lane's Pleasant Tablets (laxative) for Colds and Grip, and they will break up a cold quicker than any other remedy. A trial will convince you, as it has thousands of others. Avoid suffering and save doctors' bills by ordering today. 25 cents a box. Sample free. Address Orator F. Woodward, Le Roy, N. Y.
