

Mr. Groundhog saw his shadow; that means 6 weeks or more yet. You will need at least one more load of good coal. Now is a good time to come in and talk over that new house or barn you are planning to build this spring. Maybe we can help you.

A New Line to the Northwest Through the Big Horn Basin

The Big Horn Basin is fast settling up and offers the greatest opportunities for farmers, and especially farm renters, to secure fine government irrigated farms at the mere cost of the water, and often a single crop can be made to pay for the farm. Ten yearly payments without interest. This is cheaper than paying rent in any locality.

With the completion of the new line this promises to become a great wealth producing region.

The oil, gas and irrigation of the Big Horn Basin will make that country a combination of farm and industrial prosperity.

Write me for full descriptive literature. Go with me to the Basin and let me help you select a new home.

Dollars paid for rent are lost.
