 Mrs. Ruth Bryan Levitt, daughter of Nebraska's peerless leader, decided to give matrimony one more trial and on Tuesday was married to Lieutenant Owens of the British army. She was divorced from her former husband in March, 1909. She is still young and if the present hubby turns out to be a lemon the divorce court is open.
 Another splendid rain visited this section last Sunday and Sunday night, turning to snow during the night. It did not freeze Sunday night but there was quite a heavy frost Monday night. If there are any residents of the city who have been missed they will confer a favor on the enumerator and the people of the city by notifying Miss Brennan.  The rain Sunday caused the annullment of the ball game between the colored ball team and the O'Neill boys. A good-sized crowd came to town with the expectation of seeing this game and were disappointed. The coons played at Emmet Saturday afternoon and we understand walked away with a good chunk of Emmet money that the sports of that town put up on the Emmet boys. The game is reported to have been a "dinger," going twelve innings before the colored crowd were able to cop the game and the money. The score was 5 to 3. Foreman and Wilson were the Emmet battery.
 W. E. Renner, a Burlington engineer who had a run between here and Sioux City and who lived in this city until last fall when he was transferred to the Lincoln-Ashland branch, was mangled by his engine at Pacific Junction Monday from the effects of which he died in a hospital at Omaha Wednesday. Mr. Renner had his engine on a siding and had crawled underneath to make repairs on a brake shoe. The box cars escaped from a switching crew in the yards and dashed into the engine, when released from the switching engine driving the engine under which he was working over his body. Mr. Renner was at once taken to a hospital in Omaha where his leg was amputated, and from the effects of which he died yesterday.

He will be tried on this charge in county court on May 7.
 The speed department of our State Fair, to be held Sept 5th to 9th, is receiving some good advertising at the hands of the various horse papers from the fact that on the last and only bright sunny day of the 1909 fair the management pulled off to completion ten harness events, which is the record of the United States for game sportsmanship.  This office is in receipt of a letter from Dean Selah who is with the "In Wyoming" company and they have been showing in New York City the past six weeks. Dean says that he is prospering and has been with the company for two years. He sends regards to all old friends and says that he will return home in a few weeks to spend the summer and that he has made arrangements with the people who control the show to allow him to present "In Wyoming" here by home talent during the summer.
 Senator J. A. Donohoe returned from a visit to Lincoln Tuesday. The Senator spent several days in Lincoln hob-nobbing with the governor and other luminant lights of Nebraska democracy and urging the calling of a special session of the legislature. Jim wants to eliminate county option from the politics of the bourbons and probably thinks he might have added into the special call a demand a non-partisan judiciary so that he could get his pet hobby to the front again and would probably try to make it tight enough to pass muster before the supreme court. The senator is of the opinion, however, that there will be no special session as the democrats who opposed the initiative and referendum at the last session have failed to see the "error of their way" and are still opposed to this pet measure of the peerless leader.

When the present administration assumed the reins of government one year ago there was but \$833.54 cents in the treasury, while at the beginning of this fiscal year the city has a balance in the hands of the treasurer of \$2,001.42. The water mains were extended nearly three blocks during the year, and the work paid for. The plans for the ensuing year contemplate an extension of about two blocks of water mains. The extension contemplated is about the only one needed to thoroughly cover the city.
