Did you ever think what your ad in the newspaper is doing for you? When you close your store in the evening and go home to your family and fireside, not thinking about your business at all, then it is that the paper

is being pored over in hundreds of homes—the homes from which your trade is drawn. And there is your ad doing its work silently, but surely, and if you have taken the pains to make it attractive, its work will be all the more attractive. This is repeated over and over again, and is no doubt what inspired some writer to call newspaper advertising a "silent drummer."

Matt Verlinden returned Tuesday evening from a land prospecting trip into Missouri. While away Mr. Verlinden purchased 240 acres of land about twenty miles from Sedalia, Mo. He was favorably impressed with that country but says he bought the land more for a speculation than with the idea of making his future home in the "show me" state.

SEWER CONTRACT LET

An Omaha Firm Secures the Contract Wednesday Evening.

WILL COMMENCE WORK SOON

And Expect to Have the System Completed in Ninety Days.

The contract for the construction of the O'Neill sewer system was let by the mayor and city council last evening to Donohoe & Peterson of Omaha for \$16,507.46.

Five bids were submitted for the work, that of the successful bidders being but a few dollars lower than that of the next bidder. The other bids filed were as follows: E. L. Dimick Laurel, Nebr., \$16,635.00; J. A. Pringle Kansas City, Mo., \$17,482.70; Donigan & Briggs Shenandoah, Iowa, \$18,786.50; H. J. Cathro Omaha, \$18,435.77. Mr. Cathro was the only contractor who submitted a bid on the work the last time and his bid at that time was approximately \$20,000.00.

Contracts were drawn up with the successful bidders today and they will commence work as soon as the material can be secured. They figure that they will be going in full blast by August 1, and expect to complete the system in three months. Some idea of the magnitude of system can be learned from the fact that it will take twenty car loads of pipe to complete the system.

P. W. McGinnis arrived in the city last Friday evening from Dodson, Mont., and will spend the next month visiting relatives and friends here. Several young ladies in an Ohio town have organized an anti-kissing society and hope to establish branch orders in every town and county in the United States. The anti-kissing society may be all right for Ohio, or some other eastern states where the women are so homely that those of the masculine persuasion have no desire to kiss them but in a county like Holt or a town like O'Neill, which is noted for its beautiful young ladies, there is no danger of the order ever getting a foothold.
