The merchants of a town should combine to keep every foreign ad out of their home paper by buying all the space the editor has to spare and utilize it for their own good. The poor editor was dying; but when the doctor placed his ear to the patient's heart and muttered sadly, "Poor fellow, circulation almost gone"

the editor raised himself and gasped: "Tis false, we have the largest circulation of any paper in the county!" then sank back upon his pillow, with a triumphant smile upon his face. He was consistent to the end—lying about his circulation.

"Lives of poor men oft remind us honest toil don't stand a chance; the more we work we leave behind us bigger patches on our pants. On our pants once new and glossy now are patches of different hue; all because subscribers linger and won't pay what is due. Then let all be up and doing; send in your mite be it e'er so small, or when the blasts of March snarl strike us we shall have no pants at all.

Mayor Gaynor of New York was shot in the neck and seriously wounded last Tuesday morning, while surrounded by friends upon the promenade deck of a trans Atlantic liner. The Mayor was about to start upon a two weeks vacation trip to Europe. The shot was fired by James J. Gallagher, a discharged city employee. Gotlieb Voight, an aged gentleman who has been a city charge the past fifteen years, died last Saturday afternoon. He was a resident of this city for about twenty years, the first five or six years of his residence here he worked in meat markets, and was considered by butchers a good workman. He has suffered from kidney trouble for several years, this ailment finally resulting in his death. He was about 65 years of age.

Stand by your town. Not a dollar invested there but some good comes of it. There is no family like one's own family; there is no wife like one's own wife; there should be no town like one's own town, where we live, educate our children, on whose street our babies play, and where we may some day sleep. Let the newspapers stand by the town, and let the business men stand by the newspapers, and let us make our home as famous as possible.

We are always glad to get local items, just such as you, reader, would like yourself, and if you have any on hand at any time send them along. Don't sandwich an advertisement into them, for they belong to the cashier's department, and if they are not worth paying for in a legitimate way they are no good to us. If you have any friends visiting you, or you expect to go away, just say so. The latter clause may gratify your creditors, and the first your friends.

Long credit is the bane of any country and should be put a stop to. Business men have the power but do not exercise it? Many a man has been induced to purchase articles when he could do very well without, on promise of long payment. He probably saw no sure way of paying it when the time came "unless something turned up." The something did not come to hand and consequently he went to the wall. Long credit has been the ruin of many a man and is bound to ruin many more if it is persisted in.

Eschew all conglomerations of babblement and assinine affections. Let your extemporaneous decantings and unpremeditated expatiations have intelligibility and veracious vivacity, without rhodomontade or bombast. Sedulously avoid polysyllabic profundity, pompous prolixity, ventriloquial verbosity and grandiloquent vapidity. Shun double-entendres, purient jocosity and pestiferous profanity, obscure or apparant.

Mr. and Mrs. E. P. Hicks left yesterday morning for Brantford, Ontario, Canada, where they will make their future home. Mr. Hicks still has considerable property interests in this county and will make annual visits here to look after his affairs. The O'Neill friends of this estimable couple regret to see them leave this city, but wish them happiness and prosperity in their Canadian home.

The enterprising farmer stops not for weather's chilling blast, but sows his oats and gets his corn ready, and when the genial sun breaks forth and the warm south winds blow his grain is ready to shoot forth and grow, and at harvest time is fully matured and he is counted one of the lucky ones whom Dame Nature always favors with fine crops while his unfortunate neighbor, who rests on his oars crying time enough yet wonders why it is his crops must always be a failure, prosperity withheld and life but a burden to bear.

You can get a very good idea of the personal habits and tastes of the occupants of property by the appearance of things about the premises. If the yard is full of rubbish, the bushes untrimmed, a dearth of flowers, and other evidences of carelessness, the chances are that the occupant is untidy and loose in habits. On the other hand, if everything is clean, neat and tidy, flowers blooming, and and homelike air of contentment prevades the premises the chances are that the occupant is neat and progressive. Let all keep these hints in mind and clean up and beautify their property.

Mr. and Mrs. H. L. Madison returned from Deadwood, S. D., where they have resided the past six months and will again make their home in prosperous Holt. Mr. Madison says it has been very dry in Western South Dakota this season and that hundreds of homesteaders are pulling out and leaving their claims. Pastures in that section are all burned up and he predicts that there will be much suffering in that country this winter on account of a lack of food for man and beast, as the majority of the people that settled in that section are poor and with a total crop failure will be unable to purchase the necessary food supplies.

Missouri is a funny place. Last week a lad from the backwoods came further north and seeing a young lady playing a piano, ran to his brother, saying, "Oh, Bill, come and see this girl. She is knocking regular thunder out of a bureau." Two state senators were boasting of their qualifications one day at Jefferson City. One said, "I am a minister;" the other said, "I am a lawyer, and I'll bet \$10 you don't know the Lord's prayer." The money went up, and the Missouri clergyman began, "Now I lay me down to sleep, etc." "It is your money," said the lawyer. "I did not believe you knew it. I have not heard it all before in twenty years."

A minister who stands high in one of the leading denominations, and in all denominations, was heard to say recently that he did not wish to be introduced to any lady who chews gum, that he thought it would be compromising his dignity, and that ready, after all, she was not worth knowing, because her senseless, harmful habit betrayed her lack of good judgment and culture, that are two of woman's crowning jewels. If women knew how much, on account of this habit, they fall, on first acquaintance, in the estimation of those whose good opinion they should ever seek to command, they would assume a virtue, at least, even though they did not possess it.

No town, country or community will ever prosper where there is a division of strife of any nature. In helping others you invariably help yourself. "Opposition is the life of trade," and merit wins. No town will prosper and grow where a lack of enterprise and push on the part of its citizens is felt. The true motto of each and every citizen of a town is and should be to assist and help your neighbors, encourages business of all kinds—there's no danger in gorging the market in this line—unite in the matter of improvement in making the town attractive and giving it a home like appearance. When this is done people from a distance will form a good opinion of the place and it will be an inducement for them to locate with us and become permanent and substantial citizens.

There can be no greater mistake that a business man can make than to be mean in business. Everybody has heard the proverb of penny wise and pound foolish. A liberal expenditure in the way of business is always sure to be a capital investment. There are people in the world who are shortsighted enough to believe that their interest can be best promoted by grasping and clinging to all they can get, and never letting a cent slip through their fingers. As a general thing, it will be found, other things being equal, that he who is most liberal is most successful in business. Of course we do not mean it to be inferred that a man should be prodigal in his expenditures; but that he should show his customers, if he is a trader, or those whom he may be doing any kind of business with, that in all his business transactions, as well as social relations, he acknowledges the everlasting fact that there can be no permanent prosperity or good feeling in a community where benefits are not reciprocal.

Regular services will be held at the Methodist Church next Sunday at 10:20 a. m., and at 8 p. m. The subject of our morning discourse will be, "Doing Good and Keeping At It." What School Next.

Of course you will not stop with the 8th grade, or the 10th, or the 11th. The coming generation needs more education than any that has gone before. This is a day of science on the farm and of keen competition everywhere. A trained mind has the advantage. Why not go to an Academy of established reputation.

GATES ACADEMY does not fear comparison with any school in North Nebraska in mental training, it gives its students, or in scholarly ideals of moral influence. Satisfactory board and comfortable rooms cannot be obtained cheaper elsewhere. Normal, Scientific, Classical, and Business Courses. Special advantages in Music. Write the Principal, C. A. Jaquith, Neligh, Nebraska.

Buy Town Lots Now.

A few years ago I begged of you to invest in farm and hay lands. You then said that the price was too high, that land would go no higher than \$10 an acre, the price asked. You made a mistake, didn't you? You will make another mistake if you fail to buy town lots in O'Neill at the price I offer them. The extensive improvements now going on in O'Neill is only a starter. It will continue to grow and property will accordingly advance.

I have many business lots on the main streets and residence lots in all parts of the town. I can't use all of this property. I bought cheap as a matter of speculation and will sell correspondingly cheap. I have more than 100 lots in the city besides acreage adjoining the city. Unless you inquire of me you will not know how cheap you can buy and your regrets after the lots are sold will be valueless. 8-3. T. V. Golden.

SPEED ON CLEANS THEM

Sets the Pace For the Field in Wednesday's Races

AND WINS IN STRAIGHT HEATS

The Running Race Was one of the "Thrillers" of the Day, the Favorite Being Defeated.

Those who attended the race meet Wednesday were treated to some of the best racing seen in this part of the state for years. While better time has been made, even upon the O'Neill track, than that Wednesday, the races were all so close that it was thoroughly enjoyable, and those that were not present missed some enjoyable sport.

In the 2:14 pace, Speed On, Dave Stannard's speedy little pacer, had it upon the rest of the string and won in straight heats. Harriska tried for two heats to head Speed On, the but little sorrel was out for the money and refused to be headed, although Harriska forced him to step a little for the first three quarters. In the third heat Brunswick B. took after Speed On and strived vainly to take the heat and put up a nice race for the first half but could not stand the going and dropped back to third, Harriska taking second. Speed On seemed to be in fine trim for racing and many in the crowd believed that he could easily have lowered the track record a second or two Wednesday, if crowded.

The 2:20 pace was also a "dandy". Bonnie B, owned by W. V. Austin of Greeley, Neb., was the class in this race and won first money in straight heats and done it easily. The great strap in this race was for second money and it was a battle royal, Minnie Onedia finally winning, although Maymewood came in second in the last heat and Prince L was second in the first heat. Third and fourth monies were divided between Maymewood and Prince L.

One of the swiftest races of the afternoon was the running race and it was witnessed by only a handful of the "royal blue" sports, as most of the people were scared by the threatened rain storm and left before the first heat was run. The race proved to be a "pippen" and the "dopesters" were all backing Marshall Dunn to win and playing him as favorite against the field, but here was where the talent was again up against "too much Johnson", for after taking the first heat he lost the next two to Hattie McCann, but it was some race, especially the last heat, when an ordinary bed sheet would have covered both horses all the way around—and it would not have to have been eleven feet long either—Hattie finally coming under the wire half a length to the good. Many thought that Regene would have some show in this race but they were unable to get her started until the others had a lead of a hundred yards or so, but she made a good showing in the second heat despite the handicap at the start.
