| Work upon the sewer system is progressing rapidly and the contractors will have no difficulty in completing the system in the time specified in the contract. | If you desire hornless cattle without use of a saw get a nicker of caustic potasa at the drug store and keep it in a bottle so it will not slack. Catch your calf, take your stick of potash wrapped in a piece of paper, wet the hair over the horn spots and your calf will grow up a polled Jersey, polled Holstein, polled Short Horn, or polled whatever it is. | |
| Foreign missionaries will be pleased to hear that the King of the Cannibal Islands, who was won't to broil them on coals in his evening fire, has passed in his utensils. His last feast was an old editor who had turned missionary. The ex-editor's cheek proved to be indigestible and for the first time in his life the king succumbed to the force of circumstances. | |
| A heavy smoke enveloped this city Monday and nearly all day Tuesday and most people believe that it came from the forest fires in Montana and Idaho. We understand that several people north of town were considerably alarmed when the smoke first appeared as they imagined a tremendous fire was in their neighborhood. According to the daily papers the smoke in parts of South Dakota was so dense as to cause irritation of the eyes and many business places in the western part of the state were compelled to use lights during the afternoon. | |

Bright cheery songs with brief pointed sermon and special music by the choir. Come and meet your friends at these services. Strangers are urged to be present with us. We have a homelike atmosphere in our church, it will do you good to come in contact with it.—Rev. D. B. Ralston. | |

THE STATE TICKETS

Vote of Few Candidates Very Close. Will Take Official Canvass.

TO DETERMINE THE RESULT

W. R. Jackson Formerly of this City Democratic Nominee For State Superintendent.

Upon the complete vote of the state for governor Dahlman has a lead over Shallenberger of about 175 votes for the head of the ticket. As a recount of the ballots is going on in some counties this lead may be reduced and the nomination may ultimately go to Shallenberger, as it is certain that each of them in nearly every county in the state that should have been thrown out. If the recount should nominate Shyllenberger the case will probably be taken to the courts and the ultimate end of the case cannot be foretold. Whatever the outcome the chances for democratic success at the polls this fall does not look very bright even to the most enthusiastic democrat.

Aldrich continues to gain some votes on Cady for the republican nomination, and seems to have a safe majority ranging in the neighborhood of 5,000.

Ryder, republican, for secretary of state, is leading Walt by 1,200.

Hopewell has won the nomination for lieutenant governor on the Republican ticket and Ralph Clark on the democratic side.

Walter A. George of Broken Bow is nominated for treasurer on the Republican side and George E. Hall of Franklin has the democratic nomination.

Auditor Silas E. Barton had no opposition for renomination or the republican ticket. It is a close race between Hewitt and Bernecker on the democratic side.

J. W. Crabtree of Peru is the republican nominee for superintendent of public instruction and William R. Jackson of University Place is the democratic nominee.

The nominees for attorney general are Grant Martin, republican, and C. E. Whitney, democrat.

E. B. Cowles is easily renominated on the republican ticket, as is H. T. Clarke, Jr. for railroad commissioner. Their opponents will be W. B. Eastham and probably Victor Wilson.

It is a close race between Pool and Gatewood for secretary of state on the democratic ticket, but Pool appears to be safely ahead.

An exchange advocates a plan where by young ladies attending church in the evening can register their names in the church vestibule, so that the young men who are in the habit of lingering around the church door can see whether or not their best girl is present and thus set a troubled brain at rest. The plan would undoubtedly be a great convenience for a certain class of young men and would work well in many places.

Speaking of advertising: There is no business that cannot be increased and benefited by advertising. No class of advertising pays as well as a well written newspaper ad. Speaking of advertising: There is no business that cannot be increased and benefited by advertising. No class of advertising pays as well as a well written newspaper ad. There is no work you could do that would bring you as great returns as to use thirty minutes time each day in the study of advertising, if you are in business. The great trouble with most advertisers in

a country town is that they write an ad invoicing their stock in trade and expect by letting it stand week after week in the country newspaper to get direct returns from it.

Quite a good-sized delegation of O'Neill people went down to Neligh last Thursday and witnessed Speed On win the 2:14 pace and take a new mark of 2:15. The race was very exciting and the first heat was called a dead heat between Speed On and Colonel Davis. But the Colonel was driven out in the first heat and in the next three heats was not a serious contender for the money.

F. W. Phillips arrived in the city last Monday morning from his Canadian home to spend a few weeks looking after business matters and to visit old-time friends. Frank says that the Alberta country has been like most of the United States this season, rather dry, but that crops are fairly good. That portion of Canada is being settled rapidly, the preponderance of the settlers being Americans, but that about ever nationality is represented. They do not raise any corn there except for table use, the seasons being short. Their principal crop being wheat. They had a light frost there on August 13. Mr. Phillips expect to remain in this county about three weeks.

State Journal: Dan Gellus, chief game warden, has returned from Holt county, a county where convictions or violations of the game law have been rare. He prosecuted Frank Brubecker of Stuart and the defendant pleaded guilty and was fined \$95, which with costs, made a total of \$102.50. Brubecker was charged with having nineteen prairie chickens in his possession during the closed season. The birds were in a small ice box and had been killed by some one unknown on a hay ranch. Brubecker remarked when he filled the box with chickens at the hay camp that he did not want a particular old prairie chicken to be included in the lot, as it might cost him \$5.

For Sale or Rent. My ranch of 640 acres for this and the coming year. Seventy acres of corn in the field; hay put up for 150 head of stock, good range, good well, five room frame house and good barn. Call and see me, 11 miles south of Chambers, or write me at Francis, Nebraska. 10-4. Clark Hough.

Buy Town Lots Now. A few years ago I begged of you to invest in farm and hay lands. You then said that the price was too high, that land would go no higher than \$10 an acre, the price asked. You made a mistake, didn't you? You will make another mistake if you fail to buy town lots in O'Neill at the price I offer them. The extensive improvements now going on in O'Neill is only a starter. It will continue to grow and property will accordingly advance. I have many business lots on the main streets and residence lots in all parts of the town. I can't use all of this property. I bought cheap as a matter of speculation and will sell correspondingly cheap. I have more than 100 lots in the city besides acreage adjoining the city. Unless you inquire of me you will not know how cheap you can buy and your regrets after the lots are sold will be valueless. 8-3. T. V. Golden.
