George A. Miles was called to Defiance, Iowa last Sunday morning by a telegram announcing the accidental death of his brother-in-law Sam Knouss. Mr. Knouss was thrown from a wagon and instantly killed when his team became frightened at an automobile, and ran away.

Mrs. Bertha Grandorff died at the home of her daughter, Mrs. August Grandorff northwest of this city Monday afternoon after an illness of three months of paralysis. The remains were shipped to the former home of the deceased at Cordova, Nebraska, Tuesday morning, for interment.

The first snow of the season arrived last Saturday night, Monday morning the ground being covered to a depth of five or six inches. The snow fall has been quite general throughout the western states. Most of the farmers in this section have their corn in the crib and are well prepared for winter.

Word was received last Saturday by Mrs. Ira Leppan that her husband Ira Leppan, who has been at Excelsior Springs, Mo., the past two months for the benefit of his health, was not expected to live and Mrs. Leppan left for Excelsior Springs Sunday morning. We understand he is afflicted with cancer of the stomach.

THE PIANO as a Christmas gift, brings the greatest happiness, not only this Christmas, but in helping to celebrate each succeeding Christmas for a life time. W. L. Thomas of Corning, Iowa, arrived in the city last Monday night and will remain in the city during the winter. Mr. Thomas is a plumber and will work for James Davidson this winter and help Jim get rid of the extra large amount of work that he has on hand. Mr. Thomas is a brother of J. J. Thomas of this city.

Mather & Son are making arrangements for a public sale of their thorough Poland China hogs which they will hold at their farm, east of this city on March 6, 1911. They have secured the services of Z. A. Bronson of Lincoln, one of the leading live stock auctioneers of the west, to cry the sale and it promises to be one of the sale events of this part of the state.

Mr. and Mrs. Cowperwaithe returned last Friday evening from Excelsior Springs, Mo., where they had spent the past two months for the benefit of Mr. Cowperwaithe's health. Joe says while still weak he is feeling first rate and expects that the bracing air of old Holt will soon bring him back his former strength. He says it seems mighty fine to get back home again.

A query as to the propriety of placing toothpicks on the table. It is not now considered good form to do so. They may be placed on the sideboard, but their use should be relegated to privacy. The use of them at the table was always a disgusting operation. If one should sit at the table and clean their nails (a much less repulsive act) everyone would be outraged; therefore let the toothpick retire to private life.

E. S. Frost, who runs a store out in the old Parker country, was in the city Monday on his way to Lincoln, where he will spend the holidays visiting home folks. Mr. Frost says they are going to have a new postoffice out in that section of the country, which will be in operation in about a week. The new office will be called Opportunity. None of the present offices in that section will be discontinued.

Whether you talk with your neighbor or stranger at home or abroad, riding or walking always have a good word for your town. Speak of the beautiful homes, the nice streets, the excellency of the surrounding country and the intelligence and enterprise of your neighbors. Stand by your town through thick and thin as you would stand by your best friend in time of distress and you will find it prosperous and thriving as never before.

According to life-insurance statistics, the average of man's life has increased 5 per cent during the past twenty-five years. The people get the benefit of the life and the insurance companies the per cent.

The prosperity of our country depends so largely on the prosperity of our farmers, that everything possible should be done to render life in the rural districts agreeable as well as profitable, and nothing could conduce more to the comfort and happiness of our people than the improvement of roads.

Fight your own battles. Hoe your own row. Ask no favor of anyone, and you'll succeed a thousand times better than one who is always beseeching some one's interest and patronage. No one will ever help you as you help yourself, because no one will be so heartily interested in your affairs, the first step will not be such a long one, perhaps; by carving your own way up the mountain each step leads to another, and stand while you chop still another out.

The O'Neill National bank received a new safe last Monday and now has one of the most modern burglar proof safes in use in this part of the state. The safe is a Manard Manganeese steel, weighing two tons and costs \$1,600 and is absolutely burglar proof. Burglars have been tapping banks pretty regularly throughout the state the past couple of years but they will probably pass up O'Neill as all the banks here are now protected with moder safes.

Mr. and Mrs. T. T. Waid left Monday morning for Missouri, where they will visit relatives until after the holidays and will then go on to California where they will put in the winter and remain next summer, if the country agrees with them, returning to O'Neill next fall. T. T. says that old Holt county has treated him very nicely since he came here and they could not think of making his home elsewhere, but believes that he is entitled to a good rest and thinks that sunny California is a good place to go for rest and recreation.

A wisely conducted newspaper is like a banquet, says an exchange. Everything is served out with a view to charity. Help yourself to what you want and do not condemn the entire spread because pickles and onions may be included. If you do not relish them somebody may find them palatable. Be generous and broad enough to select gracefully such reading matter from a newspaper as will be agreeable to your taste. You, as an individual, are not compelled to swallow everything. We do not all think alike on every subject and it is a good thing as it makes more variety, and variety is the spice of existence.

The remark is often made by visitors to our town that it is a prosperous, thriving town. Traveling men especially, speak of the amount of business done here. The reasons for these remarks are: That the grain and stock buyers pay the highest prices that the markets afford, often a good deal better prices than are paid in the neighboring towns. To the merchants also is due a share of the credit. They carry large and well selected stocks, bought in large quantities at close figures for cash, and give their customers the advantages of the cut prices. Nothing helps to build up a town more than live energetic business men.

The dozens of householders who bowed their backs as stiffened their muscles by snow-shoveling Tuesday morning had one consolation, it was a fine blanket for the winter wheat. Many of them were inclined to call out where are the police, when they finished their own tasks and started downtown. As usual only about half of the walks were cleaned off, and before evening the snow was packed so tight on the neglected ones that it will require dynamite to remove it. Unless the sun does its duty these walks will remain covered for weeks. Later—Marshal Coyne got busy Tuesday afternoon with a snow plow of his own invention and cleaned off all the walks in town.

The big public question, this year will be road improvement. It seems strange that there would be any "opposition party" to those who want better roads, but if you think there is no opposition, start a road campaign in your locality and find out. As a matter of fact, the road problem is of far more importance to the farmer than either the tariff or silver questions. A good road costs money. It is a business investment requiring a large outlay of cash at first, and the interest on this investment comes back not only directly in the form of cash, but indirectly, as the farmer along the road is able to save horse power in hauling his crops to market. The chief question is, how is the money to be raised? Who is to handle and pay it out? It is a financial matter rather than a question of engineering skill. It ought to be debated and re-debated in every schoolhouse in the land.
