Mr. Chairman!

We your committee, appointed to investigate the damage caused to Mrs. Cassidy by her boy and four horses falling through a bridge between section 7 and section twelve, township 28, range 11, on November the 27th, 1910, having viewed the horses and said bridge on December 1st, 1910 we beg leave to report as follows, after as sound as could be regarding their age, one horse, a grey, injured very slightly on the right fore leg, not enough to deprive him from work. Furthermore we find the tongue on the wagon broken, the harness being removed we did not see it, but considering the statement the harness was dsmaged as follows; three tugs cut at \$2 00 a tug, \$6 00, 2 breast straps at .60 each, \$1 20, 2 belly bands .60 each, \$1 20, one wagon tongue

We the investigating committee would reccomend that the above named sum be paid to Mrs. Agnes Cassidy Anton Prusa.

M. P. Sullivan.

Motion carried.

Mr. Chairman: In regard to the consent road proposed to be opened in township 31, range 11, petition for the same being signed by P. J. Lansworth and others examining the horses we found them as shown on page 525 of supervisors record "I", the same having been surveyed by order of the board, also the old road known as the McClellen road and a review of a road connecting with above named McClellan road on the south side of section 11, 31, 11, said road being known as the George E. Hansen road; running from the north line of said section; completely through the section. Said Hanson road having been leosed to School District No. 16 for road purposes as shown by miscellaneous record No. 9 page 175, in office of county clerk; but fails to show on road record. And to make the record of these roads complete as required by law I move you that the field notes of these surveys be taken and recorded as the true description hereof. And that the name be recorded and platted as herein described: to-wit.

A road 40 feet wide the center line of which is described as follows, to wit: Commencing at the 1 sec. corner between sebtions 1 and 12 in twp. 31, n. of range 11 west, thence south on } section line (variation of needle 12 d. 45 m e) the distance of 20.15 chains to 1 1 line in the center of the north 1 of section 12, 31, 11. Thence angle right 44 d 28 m distance 4.44 chains, thence angle left 80 d 6 m distance 2.00 chains to a point on the south bank of the Red Creek and near the end of bridge over said stream. Thence angle right 74 d 52 distance 4 82 chains. Thence angle right 63 d 50 m distance 4.72 chains. Thence angle left 38 d 40 m distance 2 89 chains. Thence angle left 22d 18m distance 8 16 chains.

Thence angle right 66 d 40 m distance 4.49 chains.

Thence, angle left 3 d 15 m distance 3.64 chains, thence angle left 44 d 40 m 1.15 chains to Blackbird Creek 6.14 chains which make total 7.39 chains and equals north 23 e 20 m east. This line crossing Creek. Thence angle right 25 d distance 40.40 chains. Thence angle right 300 distance 3.12 chains. Thence angle right 70 d 30 m distance 2 52 chains, which equals n. 890 east. Thence angle left 53040 m distance 6 79 chains to n and s section line between sections 12, and 31, 11. Thence angle left 34 d 45 m distance 6.30 chains on sec. line to a point 8.60 chains north of section corner at the sw of section 12, thence angle right on McClellan road in section 11 100 d 44 m distance 20.03 chains to a point 50 links west of Biackbird Creek. Thence angle left 19 d distance 7.78 chains. Thence angle left 64 d 35 m left 90 d 22 m distance 2.63 chains. Thence angle right 32 d 46 m distance 3.83 chains. Thence angle right 84 d distance 2.55 chains to the section line and the south end of road running north and south through section 11, 31, 11, hereafter described as the Han-Creek is one chain south of last named point on section line. The description of the Hanson road is as follows

Commencing at a point on section line 34 07 chains east of nw corner of sec. 11, twp. 1, n of range 11 west Thence south 25 d west 21.25 ch. to station one. Thence angle left 25 d 35 m. 2.06 ch. to sta. two. Thence angle right 23 d 40 m 36.42 chains to station three, thence angle left 27 d 30 n. 13.80 chains to station four. Thence on same course 21.60 chains to section line and there connects with the north end of the above described road. This last describes the center line of a road two rods wide through section 11, 31, 11, leased to school district No. 16 of this county for the time of 99 years and is not a bounty road.

There is Only On Guaranteed Shoe!

-And Only One Place to Buy It

There is only one manufacturer in the world who is making shoes that are sold under a six months' written guaranty. And we are the only dealers who are allowed to sell these shoes in this town.

Shoes have never been guaranteed before because manufacturers have been unable to make shoes worth guaranteeing. They did the best they could, but they were handicapped by enormous selling expenses. High-priced traveling men and their big hotel bills and railroad fares cost shoe manufacturers millions of dollars every year.

The Desnoyers Shoe Co. did away with traveling men and sold their shoes direct to dealers by letter. Thus they saved thousands and thousands of dollars and put it into better quality. That's why the "Six Months" Shoe is so far superior to all other shoes and good

all with strangers.

cannot afford.

Best Leather Procurable

"Six Months" Shoes are made from expensive foreign hides, which manu-facturers selling under the old system

The Swissox Soles are tanned from Switzerland hides, the toughest and

finest hides for sole leather produced anywhere in the world, owing to Switz-erland's high a titude and the corone care with which the Swiss sock is

Conditions and kept clean and healthy.

The Paris Veal hides used for the uppers in our "Sin Months" Shoes are

extremely tough, yet closer fibred, softer and more flexible than the hides

"Six Months" Shoes have to be bet- | the factory or have any dealings at ter than other shoes, or the manufac-turers couldn't afford to guarantee six months' wear. The guaranty alone is convincing proof of their superiority.

Here's the Guaranty If either the soles or uppers wear out within four months we agree to furnish a new pair of shoes entirely free of charge. If either the soles or uppers wear out during the fifth month we agree to refund \$2.00 in cash. If either the soles or uppers wear out during the sixth month we agree to refund \$1.00 in cash. In other words, if these shoes should not give full six months' wear we refund more than the proportion they fall short.

And we make good the guaranty. You don't have to send your shoes to

grown in this country.

"Six Months" shoes combine style, | lock-stitch machines, using the very finish and quality in a degree never before equalled in a shoe selling at anywhere near the price. They are

wonders for men in every walk of life. Many Quality Features They are made with sole leather box toes to give extra strength at the tip. Army duck lining is used because it is the strongest and smoothest lining

highest grade silk thread. Nothing but the best Irish linen thread is used in sewing the soles. These methods all cost more, but they make the shoes last much longer. Flexible and Waterproof All sole leather used in "Six Months" Shoes is put through a secret tanning

process, which adds wonderfu! wearing qualities and makes it remarkably flexible and perfectly water-proof. made. It costs twice the price of ordinary lining.

The uppers are stitched together by **Best Styles for Every Purpose**

"Six Months" Shoes are made for common working men and millionaires. You'll find dress shoes, business shoes and work shoes. And the very latest and best styles of each to choose from. Investigate at Once! The written guaranty makes it absolutely impossible for you to lose a cent on "Six Months" Shoes. You don't risk anything in giving them a trial, so why delay? Call now and take your choice of a complete assortment. (16)
