Items from the country are solicited for this department. Mail or send them in early in the week as possible; items received later than Wednesday can not be used at all and it is preferred that they be in not later than Tuesday. Always send your name with items, that we may know who they are from. Name of sender not for publication. See that your writing is legible, especially names and places, leaving plenty of space between the lines for correction. Be careful that what you tell about actually occurred.

### Kola Items.

Mrs. R. H. Dale of Mullen Neb., is here visiting her brothers, Frank, Edward and Charley Welton.

Mrs. J. Pfund went to Emmet last Sunday after her daughter, Grace, who returned from O'Neill, where she has been attending school the past month.

Mrs. V. E. Vrooman, after a short illness of about two weeks, passed quietly away on March 17th at 4 o'clock of pneumonia. The remains was taken to Beemer, Neb., their former home for burial. The sympathy of the neighborhood is with Mr. Vrooman and children in this their hour of affliction.

A destructive prairie fire started 8 miles south of Kola through the carelessness of some one which caused a lot of loss which in a measure can never be replaced. Miss Lilly Monroe, being the largest looser, all her buildings, hay, some cattle, poultry and a nice grove of pine trees, about 4 years old in which she took especial pride. Mr. Clifford lost a large frame barn and all of his hay. F. A. Kellogg, all of his tame hay and other hay, except 3 stacks. Mrs. Monroe, all but 3 stacks. Barunm & Kennedy, all of their hay. Mr. Bruner, 4 stacks of hay. Mr. Pfund, 1 stack and stacker, besides other loss which can never be estimated. The way the people express themselves around here they are going to make an example of some of these fire-bugs, if this fire business does not stop, for they are getting tired of being burnt out year after year just through carelessness.

**Opportunity Items.**  
We are certainly having lots of windy weather this month.

H. L. O. Weidtfelt disced a portion of his breaking last week.

The prairie is greening up a little now and grazing will soon be good.

J. R. Thomas returned from Florida a week ago, well pleased with his trip and also with the country he went to see.

There is not many farms for rent in this part of the country, notwithstanding the numerous sales that have occurred here.

Miss Esther Thomas finished her school at Agee on the 24th. In the evening she gave an entertainment which was very much appreciated by those who had the good fortune to be there. The program was a good one and well rendered. The Leonie band furnished the music for the occasion.

Last Thursday about noon, a prairie fire started near Scottville postoffice and went clear to the Niobrara river destroying a considerable lot of hay in its wake. It was a half mile wide when it passed Scottville. No further loss can be learned at this time, but we earnestly hope that no one suffered a greater loss than has been reported.

### FIRE EATERS.

**The Trick of Breathing Flames and Sparks From the Mouth.**  
Fire tricks were practiced in very ancient times. The first known fire breather was a Syrian slave named Eunus, a leader in the Servile war in Sicily, 130 B. C. He pretended to have immediate communication with the gods. When desirous of inspiring his followers with courage he breathed flames and sparks from his mouth.

In order to accomplish this feat Eunus pierced a nutshell at both ends, and, having filled it with some burning substance, he put it in his mouth and breathed through it. The same trick is performed today in a more approved manner. The performer rolls some flax or hemp into a ball about the size of a walnut, which he lets burn until it is nearly consumed. Then he rolls around it more flax while it is still burning. By this means the fire is retained in the ball for a long time. He slips this ball into his mouth unperceived and breathes through it. His breath revives the fire, and he sustains no injury so long as he inhales only through his nostrils.

Various theories have been advanced to account for other feats of this sort performed by the ancients. An old ordeal was the holding of a red hot iron by the accused, who was not burned if he were innocent. Probably some protective paste was used on the hands. The peculiar property of mineral salts, such as alum, in protecting articles of dress from fire has long been known. An old Milanese devised a costume consisting of a cloth covering for the body which had been steeped in alum. A metallic dress of wire gauze was added to this, and thus protected a man might walk on hot iron.—Harper's.

**London's Dramatic Censors.**  
London has had its absurd dramatic censors even if it cannot quite come up to Vienna. Colley Cibber in his autobiography tells us of one master of the revels who was responsible for the licensing of plays in those days expunging the whole first act of "Richard III." on the ground that the distresses of Henry VI. would remind weak people of King James, then living in France. In fact, Shakespeare has more than once been censored, for "King Lear" was inhibited during the illness of George III. George Colman when reader of plays banned the use of such words as angel and heaven.—London Chronicle.

**To Make Him Sleep.**  
"Unfit for duty because of insomnia" was the record of a New York policeman for several weeks.

Inspector Byrnes sent for the man and gave him a little bit of advice, thus: "Tonight, about midnight, put on your uniform, belt, hat, revolver, take night stick in hand and go to some corner house. Lean against it, and lean against it hard, as if you were really on duty. You'll go to sleep, all right."—New York Tribune.

## Here's the Only Shoe That Was Ever Guaranteed

Never before has it been possible to sell shoes under a six months' guarantee! Manufacturers have never been able to make shoes good enough to guarantee. They did the best they could, but high salaried traveling men and their big expenses ate up the money that should have gone into better quality.

The Desnoyers Shoe Co. has done away with traveling men and their enormous expenses. They sell direct to the dealers by letter. And the enormous saving has been put into better leather and other materials to make the guarantee possible.
