

The O'Neill Frontier

D. H. CRONIN, Publisher,
O'NEILL, NEBRASKA

A common South African flower possesses the valuable property of keeping fresh for two months or more after cutting. It is a "pink star" or Bethlehem, Ornithogalum lecteum, producing a compact spike of flowers on a stiff, erect stalk 18 inches to two feet long. The flower is of a thin and papery tissue, all white except the yellow anthers. It can be sent over as a cut flower from South Africa to this country and then lasts for weeks in water. And recently we have seen a South African flower, apparently a species of allium, which crossed the ocean and remained fresh for several weeks in this country. Many of the unopened buds expanded.

A few days ago a second-class stoker was paraded before the commanding officer of the Devonport naval barracks on a charge of insubordination. His insubordination took the form of resistance to be introduced to the swimming bath. Asked what he had to say for himself, the youth replied: "Sir, I've only bin in the navy three days. The first day the doctor drew six of my teeth. The second day I was vaccinated. And the third day the petty officer, he said 'Cum a-lonny, we're a-goin' to drown yer!'"

A man whose business is of a speculative kind, in the course of which he finds the stock tickers a valuable factor, is superstitious as to the 13th day of the month and never goes downtown on Fridays. He has studied the calendar and finds that besides the one in January there will be another Friday the 13th in October and that in the year 1911 the 13th will fall on Sunday once, Monday three times, Tuesday once, Wednesday twice, Thursday twice, Friday twice and Saturday once.

It is questionable whether any romance ever woven around the subject of precious stones can rival the history of the Hope diamond, with its long series of murders, suicides and other misfortunes. Its first recorded purchase was in the latter half of the 17th century. Among its owners have been Mme. de Montespan (disgraced), Marie Antoinette (guillotined), and Salome Zuyba, the favorite of Abdul Hamid (shot dead).

Miss Anna Rogstad is about to become a member of the Norwegian parliament. Miss Rogstad was chosen an alternate member for General Brattlie, who has since been chosen president of the storting. He is now obliged to give up his seat for a while to take part in reorganizing the army. Miss Rogstad, as his alternate, will have to fill his place as a member, though it is said she will not act as president.

When the revolution broke out Prince Albert of Monaco was busy inaugurating his new oceanographical museum. The scientific ruler signed a constitution rather than disappoint the many European savants assembled as his guests. The prince is one of the richest nobles in the world. He has a son, Prince Charles III, sold Mentone and Roccaruna to France for 4,000,000 francs.

A play in blank verse, written by the late Mrs. Julia W. Howe in 1859, will receive its first production in Boston during the last week of March. The proceeds from the performance, which will be by professionals, will be added to the Howe memorial fund. The play, "Euphrosyne," was originally written by Edwin Booth, but its production was delayed and finally abandoned.

Figures just made public by the census bureau for 1909 show that 4,483,000 more hogs were killed in 1909 than all other animals combined, including beaves, calves, sheep and lambs, goats, kids, etc. In 1909, 36,443,000 hogs were killed for food purposes and 31,960,000 of all other animals.

Wilbur F. Chase, of Limerick, who served as a drummer throughout the civil war and who drummed the long roll of the execution of Lincoln's conspirators in Washington, died Friday night, aged 73 years. He was a member of the Tenth Maine regiment, and for 53 years had been a teacher of dancing in Maine and New Hampshire.

By reason of our coastwise navigation laws 96 per cent of the Hawaiian freight to and from the United States is carried in vessels flying the Stars and Stripes. Even before annexation our commerce with Hawaii was mainly in American vessels. In 1910, 312 of the 437 vessels entering Hawaiian ports were American.

In the white public schools in Alaska in 1910 there were 621 pupils, maintained at a cost of \$36,486. The people throughout the territory continue to manifest the keenest interest in the public schools, especially in the manual training departments, which have been established in many places.

Rat Portage, at the north end of the Lake of the Woods, in southern Manitoba, was a lumber camp for years, but it became a lumber city and began to consider its name undignified. Now it is known as Kenora, which is more euphonious, but not so distinctive after all.

During her 10 years of territorial life, 1891 to 1900, Hawaii had a total export trade of \$328,053,584. Her import trade of \$133,600,107, a total overseas trade of \$471,653,691, of which \$441,503,562 was with the United States mainland. Sugar forms 90 per cent of the exports.

If the country has the same average potentiality for producing food as land similarly situated in North America or Europe, it would seem that Argentina can support 100,000,000 people easily, as only small parts of it lie outside the temperate zone.

An American consul, Julian H. Arnold, traveled several months in western China last summer. He stopped at 80 native inns and never did he experience the least uncivility or unfriendly treatment.

Honolulu is the only city in Hawaii with a street railway. This is the 22-mile single track electric line of the Honolulu Rapid Transit and Land Company. In 1909 it carried 8,269,532 passengers.

One of the favorite sports at the Swiss winter resorts is called Siskjoring. It consists in letting a horse draw a ski runner—a combination which results in diverse accidents, mostly harmless.

For a long time in English history white has been considered the unlucky color for coronations. Charles I wore white vestments when he was crowned.

Chamois leather is not the hide of the chamois, but the flesh side of sheep skins.

An international agricultural congress will be held at Santiago, Chile, in September.

NEBRASKA LAWMAKERS FIX DAY TO ADJOURN

April 4 Is Time Agreed Upon for Back to the Farm Movement.

Lincoln, Neb., March 27.—Tuesday, April 4, is the day for the adjournment of the Nebraska state legislature. The joint committee from both houses recommended this date to the senate and house late yesterday evening. The report was accepted. Both houses have a great deal of unfinished work. In fact, some members are of the opinion that there is about as much to do as has been accomplished.

In the senate several appropriation bills have not yet been disposed of. There are also a great many measures from the house that await action. In the house it is the same way. The initiative and referendum bill was signed by Governor Aldrich yesterday evening. However, the bill did not need his signature to become a law, for the reason that it is a constitutional amendment.

SODA FOUNTAINS TO BE INSTALLED ON TRAINS

Omaha, March 27.—The Union Pacific will install soda fountains on all through diners during the coming summer. The cars will be open to passengers at all times.

BRYAN'S COMMONER WILL NOT BE MOVED

Lincoln, Neb., March 27.—W. J. Bryan today stated that the publishing plant of his newspaper would not be changed to Memphis, Tenn. An offer was received from that city yesterday.

GLOVER CHARGES GROSS DECEPTION

Son of Mrs. Eddy Declares That He and Mother Were Bamboozled About Her Will.

Concord, N. H., March 27.—An additional bill in equity, filed today in the superior court in behalf of George W. Glover, of Lead, S. D., against the trustees of the First Church of Christ, Scientist, of Boston, makes the direct attack that Mrs. Mary Baker G. Eddy, founder of the Christian Science church, was "systematically deceived and led to bequeath nearly the whole of her property to said church in ignorance of the fact that so great a bequest was forbidden by the laws of New Hampshire and Massachusetts."

It is further alleged that the plaintiff in the case now before the courts, George W. Glover, "was also deceived and entered into an agreement not to contest the will of his mother, Mary Baker G. Eddy, without suspecting that an illegal disposition of the property was in contemplation."

It is stated he agreed not to question any law that he might make, but it is further declared he would never have agreed to an illegal distribution of the property and did not so agree. Further, the bill declares the defendants well knew Mr. Glover would not have entered into an agreement which would bind him to acquiesce in an evasion of the law, and he was, therefore, carefully kept from any knowledge of the purpose of the defendants.

Another allegation is that the plaintiff was estranged from his mother through the "machinations of the directors of the First Church of Christ, Scientist, her mind having been poisoned against him by false statements."

It is also charged that she was under the influence of "malicious animal magnetism," which has so many times been mentioned in the Eddy suits.

DAKOTA MAN'S CLAIM STRENUOUSLY DENIED

Fight for Fortune in Courts of Massachusetts Given a New Turn.

Cambridge, Mass., March 27.—Counsel for William C. Russell, of Meisroe, filed in the Middlesex county court today an appearance and answer to the motion "pro confesso" filed yesterday by the attorney of the Dickinson, N. D., claimant ("Dakota Dan") to one-half share in the \$500,000 estate of the late Daniel Russell, of Meisroe.

The answer denies that the claimant is the son of the late Daniel Russell; denies his right to ask the court to construe the will of Daniel Russell, and wishes further "that the said will be given to Daniel Blake Russell, there mentioned, any interest in the estate of the late Daniel Russell."

The final paragraph of the answer of William C. Russell to the motion for judgment in the case is in effect the contention of William C. Russell that even if the claimant should prove to be the son of the late Daniel Russell he is not entitled under the will to receive any portion of the estate.

SPRINGFIELD, ILL.—State Senator John Broderick, of Chicago, who has filed in the circuit court here since last Monday on a charge of having bribed former Senator D. W. Holst, law of Iuka, to vote for United States Senator William Lorimer, was pronounced "not guilty" by a jury, which returned its verdict yesterday afternoon after having been out only 20 minutes. The final arguments were completed about 3 o'clock and the instructions of the court then read.

BIG FORTUNE FOUND.
London, March 27.—Treasure trove to the value of \$1,200,000 is reported from Jersey, where it was uncovered by Athelstan Riley while he was pulling down the ruins of an old manor house built in the thirteenth century, with the object of using the stone to enlarge his present manor.

GAS QUESTION IS THE ISSUE BEFORE LINCOLN CITIZENS

Armstrong Pushed Forward by "Wets" Who Have Two Party Candidates.

Lincoln, Neb., March 24.—Lincoln is in the midst of one of the warmest municipal campaigns in its history. There are two important issues at stake. The "wet" and "dry" question again will have to be settled. The gas question also enters the campaign, for the reason that the president of the Lincoln Gas Company, A. H. Armstrong, is a candidate for mayor.

Gas Case Pending.
The city's case against the gas company for dollar gas is now pending before the United States supreme court. The price at present is \$1.30 per thousand. When an ordinance, providing for dollar gas, was passed in the city council several months ago, the gas company brought the case to the federal court here. The action of the council was upheld. Then the case was appealed to the United States supreme court where it is still pending.

To Make Lincoln Wet.
An organization, calling itself the business men's association, has entered the campaign for the purpose of making Lincoln a "busier" city. It feels that Lincoln has lost because of the absence of saloons. Several weeks ago it selected Thomas Cochrane, a grain dealer, as its candidate for the democratic primaries for mayor. Later it put Mr. Armstrong in the field on the republican ticket.

Mayor Don Love is a candidate for renomination on the republican ticket. Robert Malone, who gave Mayor Love a close race two years ago, again is the democratic nominee. Mayor Love is the only "dry" candidate.

Armstrong Is Opposed.
Just how voters will look upon Mr. Armstrong's candidacy is still a question. That there will be a great deal of opposition to him because of his connection with the gas company, goes without saying. Many feel that if he were elected mayor it might have some effect on the litigation between the city and the gas company.

It is more than probable that the liquor issue will be submitted to the voters by the referendum at the city election, May 2. The only device of opposition to him because of his connection with the gas company, goes without saying. Many feel that if he were elected mayor it might have some effect on the litigation between the city and the gas company.

TWO EXPLOSIONS ARE INTIMATELY RELATED

Contractor's Indiana Home Blown Up at Same Time as Omaha Court House.

Omaha, Neb., March 24.—The receipt this morning by representatives of the Caldwell & Drake company, contractors for the new court house of a telegram from Thomas N. Wilson, secretary of the company, announcing the practical destruction of the home office at Columbus, Ind., by a dynamite explosion at midnight last night, and the fact that the explosion here and there were intimately related.

An attempt was made this morning to identify the miscreants with blood hounds. The estimate of damage to the uncompleted county building by the explosion given last night of \$10,000 to \$15,000 had not been changed today, but it was stated that a careful examination of the main walls would have to be made before it could be said positively they were not injured.

Two explosions occurred in the basement of the new \$1,000,000 court house at midnight last night, and soon afterward two men and woman were seen running from the fence surrounding the court yard. All the windows in the court house and in immediately surrounding buildings were shattered.

NEBRASKANS OPPOSE BOARD OF CONTROL

Democrats Will Defeat Republican Measure and Cut Off Chance of Legislation.

Lincoln, Neb., March 25.—Because some one managing affairs in a house tried to work a trick on the republicans of the house, and advance a democratic measure to take precedence over a republican measure on a like subject, there is every probability that both the Prince and the Matrau non-partisan board of control bills will be defeated, and this platform pledge will fall of passage.

The republicans lined up solidly against the measure, although it is as much their pledge as that of the majority party. They gave as the reason that in the regular order of events the republican bill should have come up for passage first. In the clerical office managed by democrats a substitution was made which the minority resented. The democrats will now defeat the republican measure and all chance of legislation of this kind will be gone.

LINCOLN EDITOR SUBMITS TO SERIOUS OPERATION
Lincoln, Neb., March 25.—Harry T. Dobbins, editor of the Evening News, passed a favorable night last night following an operation for appendicitis.

Mr. Dobbins submitted to an operation late Wednesday evening, following a two days' illness. He was afflicted by acute appendicitis, which had reached a critical stage before the operation was performed.

WIFE RECOVERS \$25,000
Lincoln, Neb., March 25.—Mrs. Lizzie Wright recovered a verdict in the Lancaster district court against the Rock Island for \$25,000, the full amount asked as damages for the death of her husband, Otto C. Wright.

STOCK YARDS STATUTE VETOED BY GOVERNOR

Nebraskan Exercises Prerogative On Taylor Measure and Gives Reason.

Lincoln, Neb., March 24.—Governor Aldrich this morning exercised his veto prerogative for the first time in refusing to approve the Taylor stock yards bill. No action was attempted in overturning the veto. Instead the house voted to make the consideration of the Ollis stock yards bill a special order.

In giving his reason for the veto, the governor declared that he considered the designation of such a corporation as "Public Markets" not good law. The house killed the non-partisan judiciary bills in committee of the whole this morning by almost strict party votes. Later in the morning on a test vote the democrats were brought in and both bills were approved temporarily by a vote of 51 to 42, three democrats voting with the republicans against the party pledge and two republicans voting with the democrats.

The senate stood pat on the bills for state aid in the improvement of public highways, and by a vote of 4 to 3 recommended them for passage, notwithstanding that the house had already killed them.

NEBRASKA FORGER IS CAUGHT IN INDIANA

Des Moines, Ia., March 24.—W. C. Organ, said to be wanted at Fremont, Neb., for forgery and jumping a \$4,000 bail bond, is under arrest at Logansport, Ind., according to word reaching the local police force. Organ is also wanted at Boone for forgery.

WOMAN REFUSES TO LEAVE COUNTY JAIL

Declines to Dress and Authorities Can Not Take Her Without Clothing.

Fremont, Neb., March 24.—Mrs. Nancy O'Brien, an aged county ward, has baffled every effort of the jailers and deputy sheriffs to remove her from the county jail to the county poor farm in pursuance of an order recently issued by the supervisors. Mrs. O'Brien says she does not want to go to the poor house because it is in the country and she does not want to live in the country. She would prefer to stay in the county jail, where she has the liberty of the corridors. Today Deputy Sheriff Condit attempted to get Mrs. O'Brien out of the jail. Mrs. O'Brien adopted her usual style of warfare. She refused to dress for the trip. She appeared at the door in her underclothing and defied the deputy sheriff to remove her. "I will not dress and you can't take me this way," she said. Mrs. O'Brien will stay at the jail at least until the deputy sheriff can re-arrange the board and ascertain his further desires in the matter.

JURY IS SECURED IN KANSAS MURDER CASE

A. A. Truskett, Who Killed Neely, Is Severely Scored by the Prosecutor.

Independence, Kan., March 24.—A jury to try A. A. Truskett, charged with the murder of J. D. S. Neely, of Lima, Ohio, was secured today. There are 10 farmers, one carpenter and one workman on it.

Prosecuting Attorney T. H. Stanford made the opening address. He said the evidence will show that Truskett, smarting under imagined grievances, deliberately and premeditatedly lay in wait for Neely, carefully inquired as to his movements, followed him to the Palace hotel and without provocation shot him down. He said the examination of Neely's clothes showed he did not even have a pocket knife.

Fred Neeley, son of the dead man, was called as the first witness. Because of a technicality he was not allowed to testify at this time. George A. Perry, proprietor of the Palace hotel, testified to seeing Truskett and Neely in the hotel lobby before the shooting.

FRISCO PAINTED AS HOTBED OF INIQUITY

Chicago Mothers Are Advised to Keep Boys Away From Panama Show.

Chicago, March 24.—Do not let your boy attend the Panama exposition in San Francisco unless the city's moral tone is made better.

This is the warning Arthur Burrage Farwell gave to members of the Morgan Park Women's club.

"I am familiar with the vice conditions in Chicago, but I want to say that I saw the worst debauchery on the Pacific coast that has ever come to my notice," said Mr. Farwell.

"San Francisco does not deserve the fact unless it renovates its vice district. This at present is a monstrous menace to any young man in that city."

"The better element of the Pacific coast city is endeavoring to secure the passage of a bill in the California legislature which, if enforced when it becomes a law, will remedy conditions."

STOCK YARDS BILLS IN COMPLICATION

Nebraska House Turns Down Ollis Measure and Governor May Veto Taylor Bill.

Lincoln, Neb., March 23.—The house this morning refused to consider the Ollis stock yards bill and relegated it to cold storage. Meanwhile the Taylor bill, which differs from the Ollis bill in many particulars, is in the hands of the governor, who is not at all certain he will give it his approval. If he vetoes the Taylor bill it will be on the grounds that it will not perform the service for which it was intended, and in that case in all probability the Ollis bill, which has passed the senate, will be passed by the house.

The insurance bill, prohibiting discrimination in rates between the different sections of the state by the same company, was resurrected in the house after having been killed yesterday, and pushed on to its passage. The measure is sponsored by the state auditor and is intended to work in favor of state companies, as opposed to foreign insurance companies.

The state senate recommended for passage the Plack legislative apportionment bill, which is said to be very much in the interests of the majority party.

STIRRING DIVORCE CONTEST; AGED HUSBAND VS. WIFE

Lincoln, Neb., March 23.—In the district court of Colfax county, with Judge Hollenbeck presiding, the case now on trial is one for divorce begun by Jessie Bolton against Henry Bolton. The plaintiff spent all of the afternoon on the witness stand, and from the evidence she gave it is evident the case will develop a sensation. Mrs. Bolton declared that marital life for physical reasons was for her intolerable.

The defendant has filed a cross petition, wherein he names Dr. Brillhart, a former dentist here, but now located in Hastings, as co-respondent.

This morning the suit was resumed. So sensational was the testimony yesterday that young boys were kept out of the court room being full of curiosity seekers. The defendant is one of Schuyler's oldest merchants and has a young family. The plaintiff is a young woman, his second wife. They have been married a few years.

FIREMAN KILLED

Crawford, Neb., March 23.—While making a run to a fire last night, Ted Miller, while pulling the fire cart, stumbled and fell, the wheel of the cart passing over his chest. At first it was not thought the accident was serious.

Mr. Miller was employed in a local cafe. He was to have been married next week to Miss Vida Pittit. After the accident he sent for her and told her he was going to die, and asked her to notify his parents at Independence, Ia.

No word has been received from them as yet. The fire was of no importance. The Northwestern was burning old dry grass and brush off the right of way.

SYMPATHY OF TAFT IS EXTENDED TO BOOKER

President Writes to Negro Expressing Confidence in His Character.

New York, March 23.—Dr. Booker T. Washington, the negro educator, whose alleged assault of last Sunday night, Albert Ulrich, was held yesterday for trial on an assault charge, was still at the Hotel Manhattan today, recovering rapidly from the effects of the injuries he sustained.

Dr. Washington was gratified today to receive a letter from President Taft in which the president's handwriting, in which Mr. Taft expressed sympathy for and confidence in Dr. Washington. The letter as given out by Dr. Washington, read:

"The White House, Washington, March 21, 1911.
"My Dear Dr. Washington:
"I am greatly distressed at your misfortune, and I hasten to write you of my sympathy, my hope that you will soon recover from the wound inflicted by insane suspicion or viciousness, and of my confidence in you, in your integrity and morality of character, and in your highest usefulness to your race and to all the people of this country.
"It would be a nation's loss if this untoward incident in any way impaired your great power for good in the solution of one of the most difficult problems before us.
"I want you to know that your friends are standing by you in every trial and that I am proud to subscribe myself as one.
"William H. Taft."

leactionary New York Democrat Will Be Chief of House Appropriations.

FAST TRAIN GOES THROUGH TRESTLE IN SOUTH GEORGIA

Cars Are 10 Feet Under Water and the List of the Victims May Be Increased Later.

Ocilla, Ga., March 27.—Seven persons were killed and more than a dozen injured when the Dixie flyer on the Atlantic Coast line, running between Chicago and Jacksonville, Fla., was wrecked on a trestle over the Alapha river, near here, at 7:20 o'clock this morning. The first and second class coaches and the first Pullman sleeper went into the river, carrying about 400 feet of the trestle.

According to reports of some of the passengers, who came to Ocilla, the crash came without warning. It was caused by the breaking of an axle on the engine when midway on the long trestle. Coaches in the river are about 10 feet under water, and it is said the list of dead may be increased when the debris is cleared away. Seven bodies had been recovered at noon and the injured were brought here and will be sent to the Atlantic Coast line hospital at Waycross, Ga.

First reports of the wreck were to the effect that the entire train went into the river, and that 40 persons were killed outright. The scene of the wreck is in a remote section of the state and it was several hours before accurate information was obtained. Relief trains have been sent to the scene from Tifton and Willacoochee and Waycross and it is stated that it will be 26 hours before the tracks are cleared for traffic.

List of the Dead.
The known dead:
W. CULPEPPER, Tifton, Ga.
O. E. BOWWART, Henderson, Ky.
MRS. W. D. FLETCHER, Rowland, Ill.
CONDUCTOR CHARLES J. PARNELL, Savannah, Ga.
EXPRESS MESSENGER WOODWARD.
FIREMAN LUCIUS ELLIS, colored.
PORTER WHIDDEN, colored.

The injured are: Express Messenger and Baggageman Powell, serious; W. T. Perkins, Cattlettsburg, Ky.; Mrs. O. Bomwar, Henderson, Ky.; Nick Van Domeulin, Grand Rapids, Mich.; Peter Gerlof, Holton, Mich.; Mrs. J. P. Klein and 8-year-old daughter, St. Louis, Mo.; W. F. Francis, Crawfordville, Ind.

RAILROAD GIVES OUT VERSION OF ACCIDENT

Savannah, Ga., March 27.—The Atlantic Coast Line general superintendent's office gives out the account of the wreck of the Dixie Flyer:
"Train No. 95, known as the Dixie Flyer, running from Chicago to Jacksonville, Fla., was wrecked on the Alapha trestle, three miles south of Alapha station on the Brunswick & Western division of the Atlantic Coast Line railway at 7:20 o'clock this morning. The train carried down with it 400 feet of the trestle. The baggage car was telescoped and the first and second class coaches and the first Pullman sleeper car fell through the trestle.

"Conductor Charles J. Purnell, of Savannah, and a negro porter are supposed to be under the wreckage. A number of passengers were injured. "The accident was caused by the engine driving wheel axle breaking off, although the engine remained on the trestle. Hospital trains were sent from the Coast Line hospital at Waycross to the scene of the wreck with doctors and nurses on board. This train left Waycross at 8:40 o'clock this morning. "Doctors were also sent from Tifton on a special train and the company doctors from Willacoochee went to the scene on a hand car. It will be 35 hours before the track is cleared."

MANY PERISH WHEN SMALL VESSEL SINKS

Thirty-Four Persons Believed to Have Been Drowned in Accident On Pacific Coast.

Victoria, B. C., March 27.—The little wooden steamer Secheit turned turtle off Beechey Head in the Straits of Fuca, yesterday afternoon and sank with all on board, 35 passengers and four of the crew. Indians at Beechey Bay saw the steamer capsized in a sudden squall at 5 o'clock.

Victoria, B. C., March 27.—With 34 passengers and crew on board the steamer Secheit, a small shelter deck steamer operated between Victoria and Sooke by the British Columbia Shipping company, capsized off Beechey Head late yesterday. It is believed all on board were lost.

The Secheit left yesterday afternoon with about 35 passengers, mostly laborers bound to the Canadian Northern railroad construction camp at Pedder Bay, and a crew of four men with Captain H. B. James, manager of the company in command. Early this morning a boy arrived at Esquimalt in a gasoline launch from William Head quarantine station with news that the steamer had capsized. All that the boy knew was the Secheit had capsized and he believed all were drowned.

Not until news is received from the tug William Poliffe, which was sent to the relief of the Secheit will it be known what was the fate of those on board the steamer. The Secheit was 82 feet long with a gross register of 73 tons.

VERMILION MAN ENDURES SERIOUS SURGICAL OPERATION

Vermilion, S. D., March 27.—Col. John L. Jolly on Thursday underwent a surgical operation at Rochester, Minn., where he has been under treatment for several weeks. The operation gives hope of his complete recovery.

PRISONERS IN GEORGIA JAIL WHIP DISTURBER

Dalton, Ga., March 27.—Following a night of sleeplessness resulting from the hilarious behavior of one of their mates, prisoners confined in the local jail today organized a court. The offending one was arraigned with all ceremony, then tried and convicted of intoxication and disorderly conduct. He was fined 25 cents and sentenced to the whipping post, where he was forced to strip his back to 25 lashes.
