

# The Frontier

Published by D. H. CRONIN.

\$1.50 the Year 75 Cents Six Months  
Official paper of O'Neill and Holt county.

## ADVERTISING RATES:

Display advertisements on pages 4, 5 and 8 are charged for on a basis of 50 cents an inch one column width per month; on page 1 the charge is \$1.00 an inch per month. Local advertisements, 5 cents per line each insertion. Address the office or the publisher.

Part of the fruit crop is gone but think of the corn harvest this fall.

The croaker who has been hollering dry year has been effectively silenced.

If O'Neill merchants would use more printers ink they would have less reason to complain of poor business.

Since the precipitation of the first of the week the farmers of Holt county are wearing the smile that won't come off.

Lincoln is again safely republican. A. H. Armstrong, republican, was elected mayor last Tuesday by 1700 votes over the democratic candidate. The balance of the republican ticket had similar majorities.

Lincoln will probably lose its nickname "holy city." At the city election held there last Tuesday the city voted wet by over 500 majority. It was about what could have been expected after having sheltered an extremely wet democratic legislature all last winter.

The Census bureau gives the population of Atkinson as 810, as compared with 595 ten years ago; Ewing has a population of 440 as compared with 275 ten years ago; Stuart's population is given at 467, as compared with 382 ten years ago. The population of Emmett, Inman and Page has not been announced yet.

Lieutenant Governor M. R. Hopwell died at his home in Tekamah, Nebraska, last Tuesday morning after an illness of two weeks of pneumonia. Governor Hopwell was one of the ablest men in the republican party in this state and his death will be sincerely mourned by a large circle of intimate friends and acquaintances.

Broken Bow has become an active candidate for the new state agricultural college for which the last legislature appropriated \$100,000. The town of Broken Bow is situated nearly in the geographical center of the state and would be accessible to more people than at any other point within the circumscribed limits provided by the bill.

The last legislature made an appropriation of \$40,000 to build a hospital for the treatment of patients afflicted with tubercular trouble. The same legislature appropriated \$100,000 for a new state agricultural college. A dozen towns are after the agricultural college while not a single town in the state has asked that the hospital for the treatment of consumptive patients be located adjacent to them.

## A Millionaire State.

Sioux City Journal: The last Nebraska legislature authorized the sale of \$4,000,000 in the bonds of other states held by the Nebraska treasurer, that the proceeds may be invested in Nebraska securities only.

Accordingly the agents of big financial concerns of Chicago, New York and Boston are now at Lincoln bargaining with the state officials for these securities. It is an interesting scene this, in connection with the fact that Nebraska, a young state, is not only entirely free from debt, but able to hold and to sell when it chooses to sell, the bonds of older states which have accumulated in its treasury.

"You'll have to bid higher than that," said State Treasurer George, "for this \$500,000 of four per cent California bonds."

"And here's \$500,000 of Minnesota bonds. If you want them you'll have to pay what they're worth. We are instructed to sell but we want the highest market price."

When the sale is completed the \$4,000,000 will be invested in Nebraska municipal securities. The cities of Nebraska will borrow from the state.

Refrain this \$4,000,000 the state has \$5,000,000 in interest bearing securities that belong to the state school

fund.

All this is very interesting and suggestive when it is remembered that only a few years since the state issued bonds and distributed "relief" to the "drouth stricken" farmers. These "relief bonds" have been paid off and the farmers for whose relief they were issued are riding in automobiles and investing in Texas lands for speculation.

## Locating an Incubus.

Albion News: A prominent southern democrat in Washington is reported to have remarked that Mr. Bryan is the greatest democrat incubus and one of the best republican assets. A great many democrats, observing Bryan's activity in shaping things in the house, will agree with this opinion, though perhaps not inclined at the moment to say. But is Bryan or the party itself the incubus? Three times he has been the nominee and in each of the three battles received over 700,000 more votes than were given any other candidate. The democrat record vote before Bryan's advent was Cleveland's 5,556,918 in 1892. Bryan's lowest vote in three battles was 6,358,133. The idea that he was an incubus in 1904 led to the nomination of Parker, who was snowed under, getting a total vote of only 5,077,911, and losing by the unexampled majority of 2,500,000.

These figures prove that there is a democratic incubus somewhere. But is it the man who has far exceeded any other man in gaining votes for the party. There is apparently a paradox in the situation, but the simple fact is that there are not enough democratic votes in the country to elect anybody to the presidency. The people decline to give the party a vote of confidence.

Bryan is his party's best vote getter, and yet has been beaten three times by from 6000,000 to 2,200,000. The party owes him some gratitude for his democratic high-water mark. They fell short, but he did the best he could, and much better than Parker, who was quite the equal of Harmon or Woodrow Wilson. Democrats who are gunning for their incubus in national politics should not open fire on Bryan without examining these figures. Here is the point: Bryan obtains more votes than any other democrat, but can't muster enough. The democratic best, therefore, falls short. Calling the best an incubus suggests that the label should be put on the party itself, and not on its strongest candidate.

## The Junior Normal.

O'Neill, Neb., May 1, 1911.  
Dear Teacher: We desire to take this opportunity to announce the summer session of the O'Neill State Junior Normal School June 5, to July 28. This is the fifth annual session of this school. Teachers desirous of securing reviews or taking advance work without interfering with their regular school activities will be glad of the opportunity this normal offers.

While it is still a little early to announce the faculty definitely, we can assure you that Superintendent Crabtree is sparing no effort to secure the best school men and women available, as instructors.

Plans are under way to make this the most interesting and profitable session in the history of the normal. Short chapel talks will be made by the different members of the faculty and prominent educators of the state. Special music will be arranged for once each week. Other special features will be added to make your stay at O'Neill pleasurable as well as profitable.

The first week of the normal is institute week. Work of a special nature will be offered by each member of the faculty for those attending only during this week.

Plan, however, to stay the entire summer. More intensive work can be done and a greater amount of subject matter can be covered during the whole term than during institute week.

The really successful teacher of today is the one who by a judicious

use of her vacation is establishing for herself higher standards, better scholarship and more lofty aspirations. Such a teacher is worth many dollars a month more to a district than the "stay at home," and school directors are finding it out. If you want an increase in salary, prepare yourself for it.

The people of O'Neill will again admit teachers to their homes at reasonable rates. For information concerning board and rooms address Superintendent Minnie B. Miller, O'Neill, Neb. A letter addressed to me asking further information will be gladly answered.

Very truly yours,  
Chas. A. Mohrman,  
Principal.

## Inman Items.

Henry and Chester Fowler have the measles this week.

William Sherill left for Paulina Iowa, this week.

G. E. Van Avery of Butte was in town on business last week.

Laurence and Florence Malone spent Saturday and Sunday visiting with their grandparents, Mr. and Mrs. J. P. Hancock.

The Misses Sylvia and Dorothy Wilcox and Fay Goree went to Stafford Wednesday to attend the exercises given at the Stafford school, where Carl Wilcox is the teacher.

The Epworth League gave an ice cream social Friday evening. The proceeds was \$14 and will be used to paper the church.

Contractors are laying the foundation for Dr. Noyse's new residence south of the Jay home.

Miss June Hancox completed the teaching of a very successful term of school in Dist. No. 111, just south of town, last Friday afternoon, when a short program was rendered after which refreshments were served.

H. J. Abrahams and wife were up from Omaha, Monday and will spend a few days in this vicinity.

W. W. Watson and Dr. Noyse drove to Lincoln in Mr. Watson's automobile, Friday, where Dr. Noyse will visit with his parents, before going to Omaha where he will attend a medical convention before returning.

Last Saturday Nelson Van Avery celebrated his 66th birthday by inviting a few old soldiers and friends to his home. All who were present enjoyed the day and all wished Mr. Van Avery many happy birthdays.

## Opportunity Items.

The storm which came April 30th, was a great surprise to most people, and not a very pleasant one at that. Some of the farmers intended to start planting corn on May 1st, but the storm caused them to put it off awhile.

Clarence Simonson did not buy that automobile he went to look at, as it was bunged up too bad.

The boys here had a little fun playing ball last Saturday, they now say that they will wait until they are sure that spring has come before they practice again.

Forty head of stock wandered away during the storm Sunday and came to George Bradt's. The writer did not learn who their owner was.

The farmers in this locality are ready to plant corn as soon as weather conditions will permit.

The roads are again in an impassible condition on account of the recent storm, which was certainly the fiercest we have ever seen at this time of the year. It is now the shed for automobiles, and the road for sleighs.

F. A. Hatch, and Chris Berger, went to band practice at E. D. Henry's last Saturday evening,

# WILL SOON RETURN

That Well Organized and Successful Corps of Medical Specialists known as the Associated Doctors

Will be at Evans Hotel O'Neill

Tuesday and Wednesday, May 16-17.  
Two Days Only--Remarkable Success of these Talented Physicians in the treatment of Chronic Diseases.

These doctors are considered by many former patients among America's leading stomach and nerve specialists and are experts in the treatment of chronic diseases and so great and wonderful have been their results that in many cases it is hard indeed to find the dividing line between skill and miracle.

Diseases of the stomach, intestines, liver, blood, skin, nerves, heart, spleen, kidneys, or bladder, rheumatism, sciatica, diabetes, bed-wetting, leg ulcers, weak lungs, and those afflicted with long-standing, deep-seated, chronic diseases, that have baffled the skill of the family physician, should not fail to call.

According to their system no more operations for appendicitis, gall stones, tumors, goiter or certain forms of cancer. They were among the first in America to earn the name of the "Bloodless Surgeons," by doing away with knife, with blood and with all pain in the successful treatment of these dangerous diseases.

If you have kidney or bladder troubles bring a two-ounce bottle of your urine for chemical analysis and microscopic examination.

Deafness has often been cured in sixty days.

No matter what your ailment may be, no matter what others may have told you, no matter what experience you may have had with other physicians, it will be to your advantage to see them at once. Have it forever settled in your mind. If your case is incurable they will give you such advice as may relieve and stay the disease. Do not put off this duty you owe yourself or friends or relatives who are suffering because of your sickness, as a visit this time may help you.

Married ladies must come with their husbands and minors with their parents.

Office at the Evans hotel, O'Neill, Tues. and Wed. May 16 and 17, hours 10 a. m. to 8 p. m.

Below are the names of a few of the many patients that have many good things to say for these doctors:

South Shore, S. D., Jan. 11, 1912. Associated Doctors.,

Minneapolis, Minn.

Dear Sirs:—I thought I would write a few lines to let you know how we are getting along because I think you would be glad to hear. My wife is feeling lots better than she has felt for 8 years after taking about 2 months of your treatment. I will have you give her 4 months more after these 4 run out if I can rustle the money. I am feeling good myself after your 4 months treatment. I think a little more treatment is necessary. Please inform me in regard to this matter if you think it is best.

Yours truly,

E. Van Meredith.

Mrs. A. G. Olson, of Clark, S. D.,

catarrh and nervous trouble.

Martin Lynstad, of Yollin, S. D.

stomach and kidney troubles.

Gena Olson, Egan, S. D. nervous trouble.

Wm. Parsons, Estelline, S. D., bladder trouble.

P. H. Frantz, Aberdeen, says he is doing fine under the Associated Doctors treatment.

Mrs. C. C. Krogh, Huron, S. D., blood trouble.

E. S. Zimmermann, of Montrose, S. D., piles.

Miss Lottie Taylor, Egan, S. D. says she never expected to get such quick relief in so short a time. Miss Taylor's brother is also doing well under the Association Doctor's treatment.

John Mock, Forbes, N. D. chronic stomach trouble.

Mrs. J. H. Unruh, Freeman, S. D., of kidney trouble and lame back.

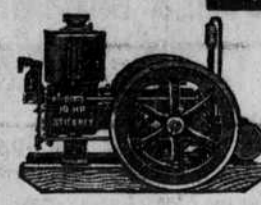

and it got so dark while they were there that they could not find their way home, and had to stay all night.

A heavy fall of rain on Saturday last preceded the snow storm of the 30th.

In these days of suits and counter suits, it behoves the well meaning people of this country to remember this commandment; "Thou shalt not bear false witness against thy neighbor."

Most of the news in this locality was snow bound, and we did not have time to shovel it out.

# Stickney Gasoline Engines ARE THE BEST

Economy—  
I Can Help You

You know that you should have a Stickney Engine but do you know what size will do your work most economically, both in cost of fuel and in the expenditure of your time as an engine too small to do the work is not true economy. It is not economy to overload your engine nor to run it at too high a speed. Again the right size of engine will not give proper results unless the pulley sizes are right and the hook up is correct. This is where I can help you before you buy as well as look after you when you have bought.

Once more let me offer my help and show you the Stickney Engine—its outside igniter, its perfect cooling system, its automatic mixer, its ball bearing governor and its three point suspension.
