"The works of Wilhelmina von Hillern were extensively read in our country," writes an American woman from Munich "and in the '70's her 'Gierwally was one of the best sellers. When we saw the name at the head of a newspaper article recently we thought to read something about oldtime novels, but it was the announcement of the 75th birthday celebration of the writer She is the daughter of the more celebrated novelist, Charlotte Birch-Pfeiffer. Despite her strenuous activities as accress and writer, she is still vigorous, and recently changed her residence from quiet Oberammergau to Munich."

Judge Rentoul, of the famous Old Bailey court, in London, favors some kind of brand for deported aliens so they can be easily detected when they try to sneak back into England "Alfens are flooding the country and doing more damage than anything I know of," says the judge. "I have often though: it would be a good thing it we could put some mark on persons who have been deported, so that it sver they put foot in this country agair they would be known. I would not suggest a mark on the forehead, like Cain had, but some mark about which there would be no doubt."

Dentists use in filling teeth pure gold use in bridgework and gold teeth they use coin cold, which is a little less than 22 karat; straight 22 karat is still better. Some mouths will stand 20 karat gold, but such gold blackens and discolors badly another mouth, so dentists make it a rule to use coin gold. Our coin gold is nine parts pure gold and one part copper by weight. So it is not so surprising that 12 and 14 karat gold ahould cause a discoloration of the ikin, when 20 karat gold may turn green or black made into a gold crowr and worn on a tooth root.

America hasn't any monopoly on food hauds and dangers by a long jump The London Chronicle speaks of "the sare that has constantly to be taken to see that the food sent to London is fil for human consumption," and tells of a recent case in Norfolk where a farmer was summoned to court "for laying graits to some with the town on his and for killing birds. Evidence was given that he had recently sent to the London market for human consumption about 30 dezen larks, in quantities ranging from six to 20 dezen as a time, all of which were poisoned.

Blackening of cuffs and shirt fronts by the rubbed off gold is a matter of much annoyance to jewelers when their pustomers come back, thinking they nave bought brass. The skin on the neck, as well as on the fingers, is frequently discolored by 14 karat, 18 karat and, some say, pure gold. An expert says that even in the case of pure gold this coloration of the skin is not due to any particular properties of the metal, but rather is the result of chemical changes in the body, or rather in the perspiration and natural oil of the skin.

What is presumably the largest sign in the state of Washington was recently constructed on the east bank of the Columbia river just above the town of Beverly. It advertises the location of new orchards, the new irrigation district being opened to settlement. From the windows of passing trains it catches the eye of the traveler and may be easily seen for a distance of several miles. The sign is nearly a quarter of a mile long, the letters are 46 feet wide and 100 feethigh.

For the year ended June 30, 1909, the average earnings to the passenger trair mile were \$1.27, to the freight mile \$276. The average passenger train is 300 feet long, and the railway statement declares that if it carried only mail it would earn only 97 cents a mile. The railways also put in that while the expenses of the postoffice department increased about \$40,000,000 from 1907 to 1910 the railroads received \$352,760 less for their mail service in the latter thar in the former year, though they handled

Greece and Roumania are patching up an old and inane quarrel under the conduct of Premiers Venezelos and Carp. An agreement for renewal of diplomatic intercourse is likely to be reached in a few days and it is rumored that the reconciliation will be sealed by the betrothal of Elizabeth, daughter of the Roumanian crown prince, to George, son of the crown prince of Greece, and heir presumptive to the Hellenic throne.

The total amount of earth excavated and yet to be taken out in building the Panama canal under the projected plans amounts to 214,666,594 cubic yards. This pile will tower nearly two and one half times as high as cheops, and would contain about 14 times as much material, by volume. In height it would extend up into the sky nearly 1,157 feet.

The O'Neill Frontier AVOIDANCE DOUBLE TAXATION REDUCES RATES OF INTEREST

Immediate Lowering to Borrowers Follows the Application of the New Law.

Lincoln, Neb., May 8.—Lincoln dealers in mortgage securities are beginning to feel the effect of the new law covering the taxation of mortgages and of mortgaged lands. The purpose of the law is to obviate double taxation of this class of securities, and it is said that the act has caused an immediate reduction of interest rates. Under the old way the mortgaged land was taxable for its full value as realty, the tax being assessed against the owner. The mortgage was also taxable for its full value at the residence of the holder. In cases where the mortgage was held in Nebraska it meant that the same real value was taxed twice.

meant that the same real value was taxed twice.

The new law provides that the mortgage shall be taxed to the holder for its full value. The land, however, is to be taxed for its excess values above the fact value of the mortgage. In this way the real value is reached only once.

In this way the real value is reached only once.

Under the terms of the law, the owner of the land may agree to pay the entire tax by so stipulating in the mortgage contract.

Real estate dealers and security brokers expect that this permission will be generally accepted by parties to the mortgages, so that the mortgagor will assume the entire tax. In return for this privilege, the mortgagee, theoretically at least, should loan his money for a lower rate than under the old law, when he was subject to taxation. ject to taxation.

MOURNING IN ENGLISH COURT ENDED TODAY

Last Memorial Service for Late King Edward Is Celebrated.

London, May 8.—The court of mourning for King Edward was ended today, the first anniversary of the death of the monarch. The occasion was commemorated with a memorial service at Windsor, which was attended by the Queen Mother Alexandra, King George, Queen Mother Alexandra, King George, Queen Mary, practically all the royal family and the members of the late king's household. The accession of King George was celebrated with the customary naval and military salutes and the dressing of warships.

The coronation year season which, it is expected, will be the most brilliant in British history, will open on Monday, when King George will attend the New Market races for the first time since his accession. On Tuesday and Wednesday their majesties will hold court at Buckingham palace. The festival of the empire will be opened at the Crystal palace by the king and queen on Friday. London, May 8 .- The court of mourn-

GIRL RETURNS TO THE SIMPLE LIFE

Grace Rolph, After Many Adventures, Comes Back to Childhood Scenes.

Pender, Neb., May 5.—Grace Rolph nas returned to Pender and is living here with the parents of her guardian, Dr. Rolph, who is also here from Mexico on a brief visit. The young woman came to Pender from Lincoln and is said to be the wife of young Clark Harris, son of Geo. S. Harris, a wealthy capitalist and rancher, to whom she was recently married against the opposition of his parents.

The young woman gained considerable notoriety some months ago, when the report was given out that she had been made the victim of an abduction from the ranch home of her guardian in Mexico by a hidaigo by the name of Gonzola. Further events led to the conclusion that it was not an abduction but an elopement. After her recovery by her guardian the young woman was sent north and lived for a while at Detroit, later going to Lingoln, where it is said she met and married young Harris, whose father is the pwner of the ranch over which Dr. Rolph is superintendent.

Mrs. Harris or Miss Rolph is a niece of Dr. Rolph and is now 18 years of age.

IRRIGATION ENTERPRISE IN PROSPEROUS CONDITION
Fremont, Neb., May 5.—The annual meeting of the board of directors of the Farmland, Fremont & Railroad Dyking district, was held at the office of Secretary J. F. Hanson. The members present were President Bignell, of Lincoln, and Directors Rexroth, Wallace, Richards and Hanson. F. L. Burrell, whose eligibility as director terminated with his official capacity as mayor of Fremont, handed in his resignation, and Mayor George F. Wolz was elected to fill the vacancy. In the election of officers were re-elected.

The annual financial report of the district showed the total expenditure of the district's operations up to date to be \$43,834.53. It is not expected for the year 1911 there need be anything but a small tax levied by the district.

ARE ENTIRELY INADEQUATE
Lincoln, Neb., May 5.—C. H. Kelsey,
of Neligh, filed a complaint with the
railway commission against the Northwestern railroad, asserting that station
facilities provided by the railroad at
Netigh are inadequate. Kelsey states
that the present structure is no larger
than it was when first erected in 1880.
Passenger receipts at Neligh are estimated at \$60 per day and more than
1,000 cars of freight come into the city
each year, as many more going out.
The commission will set a date for a
hearing on the complaint, unless the
Northwestern voluntarily settles the
matter.
