325,000 IN ONE YEAR DAKOTA YOUTH IN

THE IMMIGRATION TO CANADA SURPASSES ALL RECORD.

The returns recently issued by the Canadian Immigration Branch shows that upwards of 325,000 persons arrived in Canada during the past twelve months, declaring their intention of becoming settlers in that country. Of this number about 130,000 were from the United States, the balance being from the British Isles and Northern Europe. It will thus be seen that the sturdy farming element that has gone forward from the United States is being splendidly supplemented by an equally sturdy settlement from across the seas. The lure of Canadian wheat, oats, barley and flax grown on the rich prairie of Western Canada is constantly attracting more and more, and year by year the tide of immigrants to the Western Canada plains increases; there is no ebb to this tide. The Canadian authorities are not surprised at the number from the United States being as large as it is but they did not look for so large an immigration from the old countries. Still, they will not be found unprepared. Reception halls are in readiness at all important points in Manitoba, Saskatchewan and Alberta, surveyors were at work during the past season opening up new districts on which to place those seeking free homesteads of 160 acres each, railways have been projecting laterals from their main lines, and every provision has been taken to accommodate the newcomer. A recent dispatch from Antwerp reads: "The diversion of European emigration from the United States to Canada is said to be seriously affecting the Atlantic steamship lines. The Red Star today gives up to the America-Canada line two of the best special emigrant steamers afloat, the Gothland and the Samland. These vessels heretofore In the Antwerp-New York service are now to be operated from Rotterdam to Canadian ports."

On the date of the above dispatch word came to the Immigration branch that the "Vanguard of the 1911 army of United States settlers reached Winnipeg at 1:30 o'clock this morning. There was a solid train load of eflects, comprising 41 carloads and two colonist sleepers attached to the train, which contained the members of 25 families. Every man Jack in the party is a skilled farmer, and all have come north prepared to go right on the land, which was purchased last year. They are equipped with everything that experience has shown is necessary to make a start on virgin prairie. In addition to machinery and household effects there were a large number of horses and cattle. Some of the farmers had also brought along gas tractors, which will be put right to work on ground breaking."

One of the agents of the Canadian government advises that it would appear as if each month of the present year would show a large increase over the past year. The demand for the literature of the department, describing the country and its resources, is greater than it ever has been.

straightforward, girlish manner. The young woman, who, while only 19 years old, has been married and left her husband in Michigan, told of making the acquaintance of Balley Knotis and Armstrong. She said the two boys talked over the scheme to work the "badger" game by taking photographs of a victim whom she was to lure to her apartments. She consented to the proposition, she said, and went to Rockville and was mar-ried to Balley, as she called him. She declared Benjamin Knotts had never discussed the proposition with her or in her presence, and said that she was unaware that he was in the scheme until he accompanied Armstrong when the latter rushed into her bed room after Bailey had threatened Rosenthal and tied the latter to a chair. The court postponed sentence until the verdict of the jury in Benjamin Knotts' case is returned.

Mexico City, May 5.—Sunday calm marked the anniversary of the battle of Puebla, which had been heralded as the date set for an attack on the capital by rev-olutionists and the forced resigna-tion of President Diaz. is Murder," dealing with the dynamit-ing of the Los Angeles Times and the arrests made by Detective William J. Burns. The article says: "There is one feature of the develop-ments as regards the arrest of certain alleged labor men in connection with the dynamite outrage perpetrated against the Los Angeles Times to which especial attention should be called. If the explosion was not an accident, but the deliberate act of any man or men, it was an outrage of das-tardly iniquity, for it was one of those crimes in which the murderer, in order to gratify his spite against an individ-ual, not merely wrecked that individ-ual's property, but, with callous indif-ference, took the lives of scores of in-nocent people as an incident to the schievement of his sinister and crimi-nal purpose. Senor Oscar Braniff, one of the go-betweens in the negotiations, told an Associated Press represen. Pays Tributs to Burns. "He has proceeded with impartial se-verity against the most influential poli-ticians and the richest business men. It happens that the men who he has now arrested are members of a labor organization, just as men whom he formerly arrested were members of the republican or democratic parties or of great and wealthy corporations. "It would have been a wicked thing in the former cases with which Mr. Burns had to de for leading republi-cans or democrats to combine to break him down and support the accused merely because the accused belonged to that political party, and it would have been a wicked thing for big cap-tialists and big business men to make common cause with the capitalists against whom he proceeded merely be-cause they were capitalists. Cautions Union Leaders. "No worse service can be rendered tative that it was he who had conveyed to Madero assurances of President Diaz's intention to resign. He declared that President Diaz in a conversation with him had said he felt obligated to the majority of Mexican voters who had elected him, but the moment he felt convinced that the major-ity of the Maximum Reanie no. GRAND JURY ACCUSES ity of the Mexican people no longer wanted him as president he would resign.

Senor Braniff asserted that he nad personally ventured the opinion to Madero that President Diaz would resign immediately after peace was restored.

What Braniff Says.

Senor Braniff later issued the following statement:

"No worse service can be rendered by labor union leaders to the cause of unionism than that which they render when they seek to identify the cause of unionism with the cause of any man guilty of a murderous attack of this nature. I have no idea whether the men arrested on Mr. Burns' state-ments are or are not guilty; the la-bor leaders in guestion have no idea "Mr. Madero declares officially that he has been confided by some of us he has been confided by some of us with the secret that General Diaz in-tends to retire as soon as Mexico is pacified, and, on the strength of this assertion, appeals to his patriotism and invites him to come out with a confirm-ation of this secret, thus relieving the actual deadlock. "In my endeavor to fight the anti-Diaz bogey which has been exploited by some, for purposes which in due course of time we shall make public with appropriate and sufficient proofs, privately and confidentially I told Mr. men arrested on Mr. Burns' state-ments are or are not guilty: the la-bor leaders in question have no idea whether or not they are. They are en-titled to an absolutely fair trial. If they have no money to provide coun-sel for themselves, then it would be entirely proper for any body of men to furnish them the requisite funds, sim-ply as an incident of securing them a fair trial. "But it is grossly improper to try to create a public opinion in favor of the arrested men simply because the crime of which they are accused is committed against a capitalist or a corporation, and because the men who are charged with committing it are members of a labor union. This is an iniquity as gross as it would have been if, when three years ago the sugar trust was indicted for swindling oper-ations in the New York custom house, the forces of organized capital had been put behind the indicted men on the ground that the attack on capitalists.
