There were a couple of dandy fish llars in the Colonial lobby. We didn't Lave time to get their names, addresses and photographs, but we lingered long enough to hear the conversation. The poignant part thereof was as follows;

"How much did your fish weigh?"

"I didn't have no hay scales with me, you mut. But when I pulled him out it lowered the lake four inches."

"Some fish," commented the other, without the quiver of an eyelash. "Reminds me of some good sport I had duck hunting last fall. I fired at a flock of ducks and gathered up four quarts of toes."-Cleveland Plain Dealer.

Robbers Who Are Forced to Bury Loot and Make Escape.

San Francisco Cal.-Special: Alhough numerous tales involving the search for hidden treasure on the little sland called Cocos, off the west coast of Costa Rica, have been related, none s as strange as that told upon the arrival here of the steamship Stanley Dollar from Ancon.

Intensely religious, both women have been connected with philanthrouid work in London for the last decade, and it is with the expectation of so ex-pending the vast lost wealth of the Peruvians that the expedition was or-ranized. The women believe it espe-ially appropriate that the treasure thould be used for religious purposes, for the bulk of it was taken from the Lima cathedral when the Peruvian tapital was threatened by Chileans. For safe keeping all of altar pieces, ronsisting of the ralls, images, the Ma-fonna and the 12 apostles, were placed on board the American ship Mary Deer. The figures were all of solid gold and ife sized. Besides these were millions in precious gems. Repentant Pirate Gives Tip.

Repentant Pirate Gives Tip. The manner in which the chart came into the "ossession of the women is strange. Cared for during his last ill-ness in London by Mrs. Till and Missi Davis, an aged and dying former pirate confessed his complicity in the steal-ing of the treasure when he and the trew of the Mary Deer mutined, killing the officers of the ship and sailed away from Callao. The mutineers hastened loward the Galapagos islands, but, be-ing intercepted by a man-o'-war, went to Coccos island, where the treasure was hastily cached, and the pirates sailed away. Advent of the Silo in Iowa. A. P. Thayer, in the Marshalltown Times-Republican.

A. P. Thayer, in the Marshalltown Times-Republican. Even the farmers of Iowa will be surprised at the figures. It comes from a man in the business. Over 5,000 slios have been sold by one firm to the farm-ers of Iowa. Add to this the number built by the farmers themselves, of all kinds, sizes and cost. The referred to firm ships all ready to put up complete outfits, and so big is the business they have two large lumber yards, carrying in one of them over 3,000,000 feet of pine lumber. Such lumber is necessa-rily the best quality produced, free from knots and all defects. And here the writer asks that if this meets the eye of the farmer near Potter or Dunbar, on the Milwaukee railroad, the man that built a silo before his neighbors did, the one that has made so many hun-dred thousand pounds of butter by feeding ensilage to a small number of cows, please send facts and figures to the writer. Big stories are in print concerning the record of an effete east-ern cow. The writer thinks this man's cow's record will make that eastern cow'iok like 30 cents." FOOD IN SERMONS Feed the Dominie Right and the Sermons Are Brilliant.

A conscientious, hard-working and successful clergyman writes: "I am glad to bear testimony to the pleasure and increased measure of efficiency and health that have come to me from adopting Grape-Nuts food as one of my articles of diet.

"For several years I was much distressed during the early part of each day by indigestion. My breakfast seemed to turn sour and failed to digest. After dinner the headache and other symptoms following the breakfast would wear away, only to return, however, next morning.

"Having heard of Grape-Nuts food, I finally concluded to give it a trial. I made my breakfasts of Grape-Nuts with cream, toast and Postum. The result was surprising in improved health and total absence of the distress that had, for so long a time, followed the morning meal.

"My digestion became once more satisfactory, the headaches ceased, and the old feeling of energy returned. Since that time I have always had Grape-Nuts food on my breakfast table.

"I was delighted to find also, that whereas before I began to use Grape-Nuts food I was quite nervous and became easily wearied in the work of preparing sermons and in study, a marked improvement in this respect resulted from the change in my diet.

"I am convinced that Grape-Nuts food produced this result and helped me to a sturdy condition of mental and physical strength.

"I have known of several persons who were formerly troubled as I was, and who have been helped as I have been, by the use of Grape-Nuts food, on my recommendation." Name given by Postum Company, Battle Creek, Mich.

The dressmakers were further asked to convey this intimation to their cus-tomers. The word "court" here refers to all functions attended by royalty— not only the state drawing rooms, where tight skirts make it impossible for the women to courtesy, but also to royal Ascot and afternoon functions where the queen is present. There is great indignation among the women of the smart set because the gueen by this orden implies that society is lacking in modesty an dscretion, and they declare that this attempt to dictate the fashions by royal decree will make the lord chamberlain skirt cen-sor of the coronation season.

The Lesser Evil. Gresham college in 1719 was the scene of a famous serio-comic duel between two celebrated doctors, Dr. Mead and Dr. Woodward, both of, whom were lecturers at the college. While walking down Bishopsgate street one morning they quarreled over some medical question and adjourned to the square of the college to fight it out with swords. Woodward fell, wounded in several places, whereupon Mead magnanimously said, "Take thy life."
