CONVICT BANKERS TO SERVE PRISON TERM

to Morse and Walsh on Wickersham's Advice.

Washington, May 26.—President Tat-last night denied the applications for pardons of Charles W. Morse, of New York, and John R. Walsh, of Chicago the two most prominent bankers ever convicted and sent to federal prisons under the national banking laws.

Not only did the president refuse to pardon them, but he also declined to exercise any other executive elemency

exercise any other executive clemency in these cases or to shorten the sen-tences imposed by the courts. In denying the pardons the president took a firm stand that the nation's laws or any other laws must be upheld when they affect the rich men, ever more than when they affect the poor. The record in the Walsh case, the president said, "shows moral turpitude of that insidious and dangerous kind to punish which the national banking laws were especially enacted." In considering the case of Morse the president said that "from a considera-tion of the facts in each case, I have no doubt that Morse should have re-ceived a heavier sentence than Walsh. Indeed, the methods taken by Morse tend to show that more keenly than Walsh did he realize the evil he was doing."

Mrs. Morse got up a monster petition which was signed by scores of members of congress and other leading persons. other leading persons. Both applications were closely scan-

The further declaration is made by Justice Harlan that he is convinced the court's opinion "will throw the business of the country into confusion and invite widely extended and harras-sing litigation, the injurious effects of which will be felt for many years to come." In connection with what he terms a "mischievous modification," Justice Harlan quotes the chief justice as say-ing that "it does not necessarily fol-low that because an illegal restraint of trade or an attempt to monopolize or a monopolization resulted from the combination and the transfer of the stocks of the subsidiary corporations to the New Jersey corporation, that a like restraint of trade, or attempt to morestraint of trade, or attempt to mo-nopolize or monopolization will neces-sarily arise from agreements between one or more of the subsidiary corpora-tions after the transfer of the stock by the New Jersey corporation."
