

Confidence Begets Credit and Credit Will Build a Home

This may sound far fetched, but it is as true as gospel. The people who today own their own homes in this town years ago showed their confidence in our community by investing their savings here. Their small investments created more credit for them and it was not long before their credit was enough to enable them to build a home. The same opportunities exist today for the man who is willing to start—home investments are always looked upon with more favor by our financial institutions than investments in some far off corner of the globe, and if you are thinking of starting a home we want to talk things over with you and give you some idea about what you will need in the lumber line. Our stock is complete.

There is Plenty of Water IN THE Big Horn Basin and Yellowstone Valley

All of the rivers and irrigation canals are now running bank full. The writer has just returned from an extended inspection trip through the Big Horn Basin and Yellowstone Valley, where he found that the farmers have all the water they can use for irrigation; crops are accordingly very fine.

OPPORTUNITY FOR INVESTMENT. Money invested in Government irrigated lands, Carey Act lands, or deeded lands in the Big Horn Basin, at present prices is sure to bring large returns for the reason that the farmers of this country are beginning to understand that the Basin and Yellowstone Valley have an ample water supply and that the water comes down from the mountains just at the time when it is needed for irrigation.

PERSONALLY CONDUCTED EXCURSIONS

Come with me on one of our personally conducted excursions, first and third Tuesdays, and let me show you the crops that follow a reliable water supply. Write today for a new folder telling all about these lands. It is free.
