LOSING APPENDIX **NEW LENTEN IDEA** OF OHIO'S WOMEN

Cleveland, Ohio, March 7.-Enter Lent, retire milady of fashion to her home, there to throw out the devil with prayer—that was the formula before the advent of these days of efficiency and science.

Now it is revised to enter Lent, retire milady of fashion with a few social acquaintances, mayhap, to a private hospital ward, there to have cut out that impish appendix, and convalence during the Lenten lull in the social whirl. There are 76 appendixless patients a local hospitals, received since Ash

Three Went Together. Now there are Mrs. Minnis Setzer, Mrs. Thomas Reaser, and Mrs. Dwight Sheets, young matrons and social leaders of Ashland, who denied themselves their appendices and are doing Lenten penance on three white cots, side by side in the Huron Road hospital.

Mrs. Reaser and Mrs. Setser both had experienced attacks of appendicitis. Dr. D. L. Moon ursed them to undergo an operation in the interval before a possible another attack, but they were just too busy filling their social duties. Then came Lent, and the three met at the last function before Ash Wednesday. They said:

nesday. They said:
"Why not? It wouldn't be at all unpleasant, we three together."

And now they are convalescing rapidly and will be back in Ashland before Easter, fully recuperated and ready to begin all over again. Not An Isolated Case.

This isn't an isolated case—it's just an example. Even the eminent ethics bound surgeon would admit there are "seasons" for operating—that is, there is a noticeable increase in the number operations.

"It's the wisest course to operate during the interval, when the system is more able to stand it and no worries complicate the case," said Dr. George Linean.

"Cases of persons taking the oppor-tunity for an operation when home, so-cial, or business duties are lax are not infrequent," said Dr. H. F. Biggar.
"There is the fear that they might have
an attack when the right surgeon may
not be at hand or other conditions
would not be so favorable."

FRESH MILK AND CREAM FROM

ALMONDS.

If Your Milkman Is Late Or Raises the Price Too High, Just Grind Up a Few More Almonds and Get Supply.

From the New York World.

Why worry about the price of milk? Here is a very simple and interesting way in which to make good fresh milk and cream at home from crushed almonds and a little water. The method is not a chemical one, but consists merely in the mechanical admixture of distilled water with crushed and finely ground sweet almonds. Practically the only difference between cow's milk and that made of almonds is that the cow's milk contains animal casein, while the artificial milk conmal casein, while the artificial milk con-tains vegetable casein. The latter will produce a good cream, and if allowed to stand some time will become sour y also be coagulated by the addition vinegar or acetic acid. When comof vinegar or acetic acid. When com-bined with grape sugar, it is capable of generating some extraordinary organic substances. The artificial milk may be used with tea and coffee in the same way that cow's milk is used.

To make the milk, first buy half a pound of sweet almonds—the Valencia, which is cheaper than the Jordan almond, will give just as good results. The skin of the almonds may be removed by scalding the nuts in boiling water, and slipping the skin off. The almonds should then be placed in a wooden chopping bowl and chopped as finely as possible.

Take about two ounces of the chopped almonds, and place them in a mortar with a small quantity of distilled water. Then grind the chopped almonda, adding water occasionally, until about 12 ounces of wa-ter has been used. The longer the grind-ing is continued, the thicker and richer the milk will be the milk will be.

Now take a piece of cheese cloth about 12 inches wide by 24 inches long and rinse it in clean water, and after wringing it as dry as possible, fold it doubles over the top of a pitcher, and pour the contents of the mortar through the cloth into the pitcher. The milk may be squeezed through the cloth by wringing it gently, but care should be taken to prevent any of the larger almond particles from being forced through the meshes of the cloth ing it as dry as possible, fold it doub the cloth

If some of the milk thus produced is set aside for three or four hours, a thick layer of cream will be found on the surface. If too much water has been used in forming the milk, it may be necessary to add a lit-tle sugar to sweeten it. The artificial milk has a slight almond havor when taken clear, but this is practically lost when used with tea, coffee, or cocoa. The color of the cream produced is quite pale.

Half a pound of almonds will make three pints of milk.

"Why is History Rewritten?"
From the North American Review.
History must be rewritten because historians are learning to distinguish be-tween different forms of the imagination and to appreciate the value of some of its phases in all historical production. The term imagination has often connoted literary imagination—that form that has given rise to the highest types of literature found in poetry and romance. It is self-evident that this variety of imagination must bring discretify on every work. tion must bring discredit on every work of history where it is used—poetry soars aloft while history penetrates below the surface. The occasional attempt to use literary imagination in historical literature has led to the hasty condamnation of every form of the imagination. At times even the use of the historical imagination has been condemned. The great narra-tive histories, like those of Macaulay and Motley, have succeeded, through the use of the historical imagination, in reani-mating men and making them again act-ors in the theater of life. It is in large part due to this form of imagination that the historical novel owes its success. But histories written with the aid of the hishave been but pictures and have lacked the reality of life itself. History must be rewritten through the aid of the construc-tive imagination if the past is to live

NO OBJECTIONS FROM TONY

"Lovable Little Chap" Probably Would Not Have Minded a Succession of Tunnels.

Being Sunday evening, and the races having taken place that afternoon, the trains were packed. In one compartment a little boy had been standing all the way, but before the journey had proceeded much farther Mrs. Jones kindly took him on her knee.

"Were you very frightened, dear, as we passed throught the tunnel?" the gentle lady asked.

"Not much," replied the little boy shyly.

"But I thought you trembled a little as I kissed you," remarked Mrs. Jones, who was not even middle-aged, yet. 'And what's your name?"

"Tony," came the answer. Then you're a very lovable little chap! And how old are you?"

"Twenty-five, ma'am." And Tony Spurs, the lightweight jockey, slid to the floor to the accompaniment of a piercing scream.-An-

Sad Excuse. They were twitting a friend who

stuttered upon the fact that he had never been married. "I kn-kn-know, boys, that I've never

b-b-been married, but I was pre-prepretty near it once." "How was that?" they inquired.

## Sick

When shown positive and reliable proof that a certain remedy had cured many cases of female ills, wouldn't any sensible woman conclude that the same remedy would also benefit her if suffering with the same trouble?

Here are five letters from southern women which prove the efficiency of Lydia E. Pinkham's Vegetable Compound.

LETTER FROM VIRGINIA.

Elliston, Va.—"I feel it my duty to express my thanks to you and your reat medicine. I was a sufferer from female troubles and had been confined in bed over one third of my time for ten months. I could not do my housework and had fainting spells so that my husband could not leave me

alone for five minutes at a time.

"Now I owe my health to Lydia E. Pinkham's Vegetable Compound and Blood Purifier. Whenever I see a suffering woman I want to tell her what these medicines have done for me and I will always speak a good word for them."—Mrs. ROBERT BLANKENSHIP, Elliston, Montgomery Co., Va.

LETTER FROM LOUISIANA

New Orleans, La.—"I was passing through the Change of Life and before I took Lydia E. Pinkham's Vegetable Compound I was troubled with hot flashes, weak and dizzy feelings, backache and irregularities. I would get up in the morning feeling tired out and not fit to do anything.

"Since I have been taking your Compound and Blood Purifier I feel all right. Your medicines are worth their weight in gold."—Mrs. Gaston BLONDBAU, 1541 Polymnia St., New Orleans, La.

LETTER FROM FLORIDA.

Wauchula, Fla.—"Some time ago I wrote to you giving you my symptoms, headache, backache, bearing-down, and discomfort in walking, caused by female troubles.

"I got two bottles of Lydia E Pinkham's Vegetable Compound and a package of Sanative Wash and that was all I used to make me a well woman. "I am satisfied that if I had done like a good many women, and had not taken your remedies, I would have been a great sufferer But I started in time with the right medicine and got well. It did not cost very much either. I feel that you are a friend to all women and I would rather use your remedies than have a doctor."—Mrs. MATTIE HODNOT, Box 406, Wau-abule Florids. chula, Florida.

LETTER FROM WEST VIRGINIA.

Martinsburg, W. Va.—"I am glad to say that Lydia E. Pinkham's Vegetable Compound has done wonders for my mother, daughter and myself.
"I have told dozens of people about it and my daughter says that when she hears a girl complaining with cramps, she tells her to take your Compound."—Mrs. MARY A. HOCKENBERRY, 712 N. 3rd St., Martinsburg, W. Va.

ANOTHER LETTER FROM VIRGINIA.

Newport News, Va.—"About five years ago I was troubled with such pains and bloating every month that I would have to go to bed.
"A friend told me to take Lydia E. Pinkham's Vegetable Compound and I soon found relief. The medicine strengthened me in every way and my doctor approved of my taking it.
"I will be glad if my testimony will help some one who is suffering from female weakness."—Mrs. W. J. BLAYTON, 1029 Hampton Ave., Newport

Why don't you try this reliable remedy?
