A Western farmer, writing to a friend back east was trying to give some idea of the productiveness of the soil out there. He said that they had to mow the grass off the sod house floor every day to find the baby. One family near him had twin babies, with only one cradle, and the kid that had to sleep on the floor grew twice as fast as the other. Where the soil is richest a man dares not stand on one foot any length of time lest that leg become longer and bothers his walking.

Ralph Johnson, supreme organizer of the Modern Woodmen of America, G. J. McClennaghan of Madison, state lecturer, and F. L. Hartman of Norfolk, district deputy, were in the city last Tuesday and addressed a gathering of Woodmen in the lodge rooms that evening upon the new rates of the order recently adopted in Chicago. Holt camp of this city has a membership of 153 members and they are all, with two exceptions, protesting against the recent increase in rates and sent a couple of delegates to the insurgent conventions held last week in Columbus and Hastings to protest against the increase and to provide if possible some method or means of preventing the enforcement of the increase, and it was for the purpose of allaying this feeling of unrest that the "big guns" of the order were sent to this city. Many questions were asked them during the three and a half hours they occupied the center of the rostrum and we have failed to find a member who was present at the meeting who has changed his mind regarding the increase. They still believe it was unjust and entirely uncalled for and if enforced would drive many of the older members from the order, as they would be unable to pay the increase in their rate of assessment as provided by the new schedule of rates.
