

A man isn't necessarily worthless because his neighbor is worth more.

Pure blood is essential to Good Health. Gardell Tea dispels impurities, cleanses the system, and eradicates disease.

The more a man expects the more he will be surprised if he gets it.

"Pink Eye" is Epidemic in the Spring. Try Murine Eye Remedy for Reliable Relief.

Beginning a proper name with a small letter is a capital offense.

TO CURE A COLD IN ONE DAY Take LAXATIVE BROMO Quinine Tablets. Follow directions. If it fails to cure, B. W. Snow's signature is on each box. 25c.

Midnight Scare. Knicker—Did your wife hear a burglar in the cellar?

Bocker—No, she heard a burglar-ette in the cellarette.

Rats. Jim—Do you think Mamie is taller than Susie?

Tim—I should say that she is just about one rat taller.

Very Improper. Howell—Why is it that Harvard doesn't want to play Carlisle again?

Powell—I believe the Cambridge boys caught the Indians doing something redhanded.

In a Hurry. Magistrate—What is the charge against this old man?

Officer—Stealing some brimstone, your honor. He was caught in the act.

Magistrate (to prisoner)—My aged friend, couldn't you have waited a few years longer?

Supply Cleaned Up. "Goin' fishin' next summer?" asked the man who tells tall stories.

"No," replied Mr. Growcher. "If you caught all the fish you said you caught last summer, there won't be any use of going fishing next summer."

The Sailor's Chest. Bobby—This sailor must have been a bit of an acrobat.

Mamma—Why, dear? Bobby—Because the book says, "Having lit his pipe, he sat down on his chest."—Sacred Heart Review.

Saving His Money. Owens—Say, lend me a fiver, old man.

Bowens—If you'd save your own money you wouldn't have to borrow from your friends.

Owens—But it's because I want to save my own money that I borrow from my friends.

Filipinos Dislike Autos. The reckless and insolent automobilist is hated the world over. In the Philippines, where most of the automobilists are foreigners, and where the natives have been used to loller comfortably in the roads after the fashion of easy-going southern countries, the automobiles have long been a grievance, and, falling to secure effective regulation, the Filipinos have adopted the practice of rolling big boulders into the roadway as a hint not to turn corners at a breakneck speed.

To Take a Different Route. "Sisters and brethren," exhorted Uncle Abraham, a recent promotion from the plow to the pulpit, "on de one side er dis here meetin' house is a road leading to destruction, on de udder is a road gwine to hell and damnation. Which you gwine pursue? Dar is the internal question: Which is you gwine pursue?"

"Law, Brer Abraham," spoke Sister Eliza from the back pew, "I speak 'em er gwine home too de woods!"—Lippincott's.

Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day by

Dr. Pierce's Favorite Prescription

It Makes Weak Women Strong, Sick Women Well.

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent free on receipt of 21 one-cent stamps to cover cost of mailing only; or, in cloth binding for 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

GALVANITE

You will get full value for every penny you spend on Galvanite Roofing. Although it is 15 pounds heavier than the ordinary roofing, every ounce of its weight serves to make it more durable and serviceable.

It Needs No Painting or Repairing First Cost—Last Cost

Galvanite is attractive in appearance, easy to lay, suitable for steep or flat roofs, adapted to any kind of a climate. It is excellent for lining silos. Put up in rolls of 100 sq. ft. with galvanized nails, cement and directions.

Buy Galvanite from your local dealer or send for booklets, "Galvanite Qualities" and "The Inside of an Outside Proposition." FORD MANUFACTURING COMPANY St. Paul Omaha Chicago Kansas City St. Louis

PATENTS

FOR HUBBY TO PONDER OVER

Innocent Answer of Quiet Little Wife Got Him Started on Train of Thought.

The husband and wife were on their way to the theater when the husband began kicking because his wife took such a long time dressing.

"What delayed you this time?" he growled.

"Seeing the children to bed," she responded, quietly.

"What's the nurse for?" snapped the man.

"The nurse is for our convenience—yours and mine, especially mine," she answered. "But the boy certainly takes after you. He asked the same kind of a fool question just as I was kissing him good night."

"Fool question, eh? Well, what was it?"

"I asked him if he had said his prayers. And he said no. And I asked him if he didn't want God to take care of him during the night. He answered: 'What's the nurse for?'"

For the remainder of the way the man pondered on this answer.

Medical Genius. An old doctor, seeing a young one who was going along the street with half a dozen shabby-looking men and women, called him aside and asked:

"Who are all those people, and where are you going with them?"

"I will tell you in confidence," was the reply, "that I've hired them to come and sit in my reception room. I expect a rich patient this morning, and I want to make an impression on him."—Judge's Library.

Flat Hunters' Geography. "Where is Van Dieman's land?"

"The van demon's land? Gosh, it's anywhere in this country, on the first of May!"

TOWEL LEFT IN WOMAN DURING AN OPERATION

Was Yard Long and Foot Wide—Patient Now Suing Her Former Physician.

REMAINED FIVE WEEKS

New York, Special: A towel, a yard long and a foot wide with a red border, was accidentally sewed up inside Mrs. Mollie Myers when she was operated on in St. Vincent's hospital in November, 1905, according to an affidavit filed with the supreme court by Dr. Benjamin Friedman, formerly of this city, now living in Hungary. Mrs.

Panama in Fact and Fiction. Every one will admit that success in digging the Panama canal must be attributed largely to the human factor. Our government has found efficient men to do the work, and has succeeded in maintaining their efficiency. Herein lies the superiority of our method over that of the French administration. No well informed person will deny these broad facts, and it remains only to give credit to whom credit is due.

There are about 40,000 picked men and women at work in the canal zone; 25,000 of these are negro laborers from the adjoining tropical countries, particularly from the British West Indies. These laborers found a climate to their liking from the first day, and wages and food better than most of them had ever before received. Good treatment with a negro begets docility and contentment which means obedience to law and common sense regulations. Hence it is not surprising that these colored employees all selected men and proverbially healthy in their home country where poverty and filth is the rule rather than the exception—should have prospered mightily under cleaner and happier surroundings. Indeed, would it not have been surprising had results been otherwise? So while it may be hard to say just what part the doctors have contributed to the well being of the colored class, the fact can hardly be denied that they have played a minor role.

The same applies, perhaps, with slight modifications, to the 5,000 Spanish and Italian laborers. To the southern European the tropics have never presented any terrors and the Latin people have always been pioneers in tropical development. That these laborers, most of whom are Spaniards, have bettered themselves industrially by coming to Panama is self evident, so that their case is practically identical with that of their colored co-laborers—a fact which, for the most part, is not surprising. That these laborers, most of whom are Spaniards, have bettered themselves industrially by coming to Panama is self evident, so that their case is practically identical with that of their colored co-laborers—a fact which, for the most part, is not surprising.

The tropics heretofore have proved a great magnet to gold seekers, explorers and various adventurers who have not had much success in their quest. Is it any wonder that the death rate was high among men who endeavored to traverse impenetrable jungles, who frequently set out unprovided with the necessary food and supplies, and who were often met by the cruellest and most treacherous diseases? Here again the doctor has no logical claim to the limelight.

Myers holds Dr. Herman J. Boldt, of No. 30 East Sixty-first street, responsible and has sued him for damages. Dr. Friedman asserts that when he recovered the towel, after it had remained five weeks inside Mrs. Myers, it bore the label, "St. Vincent's hospital."

A few days later," alleges Dr. Friedman, "I met Dr. Boldt, who told me that he had sent the towel to the New York County Medical association as a curiosity, indicating the great vitality of the patient. Mrs. Myers told me she was going to sue Dr. Boldt, and I told him of this. He said he was insured against such accidents and that he did not care, as such an accident could not hurt his reputation. He admitted at the time that he might have left the towel in Mrs. Myers' body."

And last but not least, the destruction and elimination of pests, in which latter task the medical corps have undoubtedly rendered efficient service. Here we have the situation in its rightful proportions. The canal zone shows a death rate lower than that of most of our American cities, and the doctors claim the credit. Ignoring the fact that the population is made up of the finest physical types, mostly young men of athletic habits or men in the prime of life—never old men or invalids—and that these are placed in an environment as clean and inviting as unlimited resources and the most modern appliances can make it, to medicine forsooth belongs the glory.

The preposterousness of such a claim stands almost without a parallel. Health in the canal zone is both logical and inevitable, but if pills or vaccines are to be included in the problem, they must be looked for elsewhere than among the assets.

Buildings Intended to Deceive. From the Wide World Magazine.

A curious variety of "freak" structures are pretentious "mansions"—buildings deliberately intended to deceive the unwary. Dinton "castle," near Aylesbury, is a typical specimen of these pinchbeck fabrics. At a distance, and seen from the road, it looks like a mediaeval stronghold, but at close quarters the largeness of its windows and the thinness of its walls betray its youth. It is actually no castle, but a mere lodge erected by a former owner of the estate on which it stands.

At Ford "castle," known locally as the "castle," seems to be of the same class; but in truth it has a much more curious history. Its creator was Sir Charles Raymond, who, conceiving the idea of erecting a mausoleum for himself and his family, raised the structure for use as such. Beneath it he provided extensive catacombs, then above them a chapel in which the burial service was to be read on occasion, and above that again a room for the accommodation of mourners.

At such manifestations of the craze for building are structures which are mute witnesses of the vanity of human wishes. The most remarkable, perhaps, of these melancholy memorials is the chief "lion" of Carlisle. Built by a wealthy London merchant, Sir William Scawen, first concentrated his attention on the entrance, and set up a fine gateway of wrought iron, flanked by sculptures by Catalini, the whole 240 feet in width. Before he could proceed, however, he failed in business, with the result that the beginning of the proposed mansion was also the end. The great gateway, notwithstanding that it has stood for many decades, was valued by experts some time back at \$25,000, and when offered for sale by auction three or four years ago, with the land attached (worth, it was estimated, \$3,650), was "bought in" at \$9,500. Splendid, indeed, would have been a mansion in keeping with a gateway worth so large an amount, even now.

Before Sedan. Here in this leafy place Quiet he lies. Cold, with his slightest face Turned to the skies; 'Tis but another dead; All you can say is said.

Carry his body hence— Kings must have slaves; Kings climb to eminence; Over men's graves; So this man's eye is dim; Throw the earth over him.

What was the white you touched, There at his side? Paper his hand had clutched; 'Tis he he died; Message or wish, maybe— Smooth the folds out and see.

Hardly the worst of us Here could have smiled. Only the tremulous Words of a child; Prattle, that has for stops Just a few ruddy drops.

Look! She is said to miss, Morning and night, His—her dead father's—kiss; Tries to be bright; Good to mamma and sweet, That is all, "Marguerite."

Ah, if beside the dead Slumbered the pain! Ah, if the hearts that bled Slept with the slain! If the grief died—but no; Death will not have it so.—Austin Dobson.

Explained. From Harper's Weekly. "Who's Watkins in mourning for?" asked Winkleby. "I just saw him down stairs, and he's black all over. Even got black edges on his cuffs." "He's not in mourning for anybody," said Hoppelligh. "He's been spending a week in Pittsburgh."

THEIR TROUBLES.

Smith—My wife can cook, but she insists on playing the piano.

Jones—Well, my wife can play the piano, but she insists on cooking.

RASH ALL OVER BABY'S BODY

Itched So He Could Not Sleep

"On July 27, 1909, we left Boston for a trip to England and Ireland, taking baby with us. After being in Ireland a few days a nasty rash came out all over his body. We took him to a doctor who gave us medicine for him. The trouble started in the form of a rash and was all over baby's body, head and face, at different times. It irritated, and he would scratch it with all his might. The consequence was it developed into sores, and we were afraid it would leave nasty scars on his face.

"When we reached England we took baby to another doctor, who said his condition was due to change of food and climate, and gave more medicine. The rash got no better, and it used to itch and burn at night so bad that the child could not sleep. He was completely covered with it at different times. It was at this time that my mother advised us to try Cuticura Soap and Ointment. After using Cuticura Soap and Cuticura Ointment for about nine months the places disappeared. There are not any scars, or other kind of disfigurement, and baby is completely cured by the Cuticura Soap and Ointment. We have no further trouble with baby's skin. Nothing stopped the itching, and allowed baby to sleep but Cuticura Soap and Cuticura Ointment." (Signed) Mrs. Margaret Gunn, 29 Burrell St., Roxbury, Mass., March 12, 1911.

Although Cuticura Soap and Ointment are sold everywhere, a sample of each, with 32-page book, will be mailed free on application to Cuticura, Dept. L, Boston.

Convenient Code. Frank I. Cobb used to be a reporter in Detroit and knew intimately a former governor of the state of Michigan, who was renowned among other things for his ability as a free-hand swearer.

One night Cobb was dining with the ex-governor and his family. A messenger came in to tell the host that one of his pet political schemes had just been defeated through the bungling of a lieutenant. The old man ripped out a string of dark blue ones. "Now, pa," said his wife, "you promised me you would quit cursing."

"Marie," said the ex-governor, "I'm not cursing—this is just the way I talk!"—Philadelphia Saturday Evening Post.

She Knew. Miss Gusher—Oh, please tell me! Do you think poets have to be born? The Poet's Wife—Yes, borne with.

YOUNG WIFE SAVED FROM HOSPITAL

Tells How Sick She Was And What Saved Her From An Operation.

Upper Sandusky, Ohio.—"Three years ago I was married and went to house-keeping. I was not feeling well and could hardly drag myself along. I had such tired feelings, my back ached, my sides ached, I had bladder trouble awfully bad, and I could not eat or sleep. I had headaches, too, and became almost a nervous wreck. My doctor told me to go to a hospital. I did not like that idea very well, so when I saw your advertisement in a paper, I wrote to you for advice, and have done as you told me. I have taken Lydia E. Pinkham's Vegetable Compound and Liver Pills, and now I have my health. "If sick and ailing women would only know enough to take your medicine, they would get relief."—Mrs. BENJ. H. STANSBERRY, Route 6, Box 18, Upper Sandusky, Ohio.

If you have mysterious pains, irregularity, backache, extreme nervousness, inflammation, ulceration or displacement, don't wait too long, but try Lydia E. Pinkham's Vegetable Compound now.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and such unquestionable testimony as the above proves the value of this famous remedy and should give every one confidence.

Why Should a Chicken Lay a Soft-Shelled Egg?

Because, Willie, the chicken don't know how to create a hard-shelled egg unless it has some food with lime in it.

So chicken-raisers often provide limestone gravel, broken oyster shells or some other form of lime.

Let the chicken wander free and it finds its own food and behaves sensibly.

Shut it up and feed stuff lacking lime and the eggs are soft-shelled.

Let's step from chickens to human beings.

Why is a child "backward" and why does a man or woman have nervous prostration or brain-fag? There may be a variety of reasons but one thing is certain.

If the food is deficient in Phosphate of Potash the gray matter in the nerve centres and brain cannot be rebuilt each day to make good the cells broken down by the activities of yesterday.

Phosphate of Potash is the most important element Nature demands to unite albumin and water to make gray matter.

Grape-Nuts food is heavy in Phosphate of Potash in a digestible form.

A chicken can't always select its own food, but a thoughtful man can select suitable food for his children, wife and himself.

"There's a Reason" for

Grape-Nuts

Postum Cereal Company, Limited, Battle Creek, Michigan
