New uses are constantly being found for aluminum. One of the latest is making it into foil for wrapping up food products, especially chocolate. Aluminum foil is now made about one-sixth of an inch in thickness. Aluminum powder has also been coming into common use. To make the aluminum powder very fine it is first cut up in small spangles; these are ground in a mill and the powder is then sifted through bolting cloth. The powder is used as a basis for metallic paint and is especially valuable for metallic surfaces that are exposed to a great deal. The powder is very soft and adhesive, like graphite.

"Higher temperature is not the only additional discomfort which comes with summer to the patron of the subway," she added, "with spring," she said, "come low shoes and fancy hose, and in order to display them the number of cross legged men becomes greatly enlarged. It's too bad that there is no law against these feet-in-the-way young men. There is one remedy which usually cures for the time, and that is to stare steadily at the misplaced foot and if people would apply it, stare every obtrusive foot out of countenance, subway travel would lose one of its terrors and our skirts would be less soiled."

My house is on a high hill near Goldfield, and as I sat reading the other afternoon I heard, or rather felt, a long vibrating boom several times repeated. I thought it must be a motor van maneuvering behind the house but found nothing there. Then I guessed what it might be and forthwith wrote to the chief gunnery officer of H. M. S. Orion to make sure. Through the very kind courtesy of this gentleman, I am able to state for certain that the discharge of the Orion's guns was distinctly audible at thirty miles from the ship. The sound took somewhere about 11 minutes to travel the distance.

In the province of Yunnan, China, where great quantities of poppy had been raised, the ground is now turned over to other purposes, owing to the recent restrictive measures with a view to the suppression of the opium traffic. While this has not resulted in any perceptible decrease in the consumption of opium, it has, on the other hand, been the ruin of the opium crop of that section. The highest grade of opium has been produced in this section, but the bees do not seem to get the same amount of sweetness out of the flowers of the beans and peas, which have replaced the poppy plants.

Arrangements are proceeding rapidly for the removal of the winter quarters of India from Calcutta to Delhi, the announcement of which was the most striking event of the late durbar. It is now expected that by next January accommodations for all departments of the government will be in readiness at Delhi, while the finance and controller-general's departments are expected to move next October.

Asolo, which inspired two of Browning's verses in "Asolando," and which is observing the centenary, is a fortified town in Treviso, in northern Italy. It was the ancient Acelium, and possesses a cathedral and a ruined aqueduct. The former palace of Catharine Cornaro, queen of Cyprus, is in the neighborhood. There are beautiful seats in the vicinity, and the town has a population of under 6,000.

Strong protest is being made in South Australia against the continual slaughter of such rare birds as the ibis, the egret, cranes and spoonbills to supply the demands of milliners. The slaughter renders South Australia even more prone to plagues of grasshoppers and is a prime cause of the decline of its fish sources. As the wading birds disappear the crustaceans that destroy fish spawn increase in multitude.

Every German city of consequence has a number of palatial cafes, which are nothing else than huge club houses without membership formally. In any one of these cafes from 500 to 1,000 thousands of patrons glancing over domestic and foreign newspapers and magazines.

New naval regulations in England require officers to wear epaulettes and medals on all ceremonial occasions. The change is attributed to the durbar, at which the relatively greater magnificence of the army officers was noted by the king.

## WIFE'S FAITH SELVES ON LEARNING STORY OF CONVICT SPOUSE

### Musicians Protests Innocence Until Shown Picture and Bertillon Record.

Norfolk, Neb., July 22.—Max Rudolf Von Warner and his young bride were parted at Madison yesterday after a pathetic scene which touched the heart of Sheriff C. S. Smith, who related the story of the parting during his visit here yesterday.

Up to yesterday all information which showed that Warner was a premier criminal, had been withheld from the young bride, who is in a delicate condition. Yesterday Sheriff Smith saw the time had come to make the revelation and the result was that Mrs. Warner became hysterical, but after many attempts she consented to leave her husband. Her sister, Mrs. William Eberhardt, of Schuyler, accompanied by her husband came to Madison and took the bride of the noted criminal to her Schuyler home, where last June, after breaking his parole from an Ohio prison, Warner was married and wedded her.

Sheriff Smith had exhausted all his means to urge the girl to leave her worthless husband. All efforts to tell the young woman that her husband was worthless could not shake her faith in him, and she continued to believe that he was a good man—a victim of circumstantial evidence.

When Sheriff Smith took Warner from the room he occupied with his young bride and locked him in an ordinary prison cell yesterday, the young woman broke down. Warner also broke down and the sheriff says the prisoner's grief was genuine. The cement floor of the county jail Warner threw himself with much force and begged for at least half an hour's stay with his wife. The time was granted and in the presence of the sheriff the young couple pledged their love.

Later, however, Sheriff Smith called the young woman into his office and there gave out the enormous quantity of genuine information against him. The young wife recognized the pictures of her husband as taken from the records of the venyouth prison, where he was confined for a time. She also recognized his picture as taken from the records of the Ohio prison. Letters from St. Louis police showing that he was wanted at other points for various criminal works seemed to convince the young bride that her husband was really a criminal. This fact, however, did not seem to shake her love for him.

"I admit the picture from Leavenworth is mine," said Warner later, "but the picture from Ohio is not mine. It is a picture of some other prisoner bearing my resemblance."

Sheriff Smith then read off the Bertillon records on the other side of the card, and Warner said no more. His young bride immediately afterward left Madison with her sister.

### LOUP RIGHTS OF BABCOCK UPHELD BY DISTRICT COURT

Lincoln, Neb., July 22.—An added complication has been given the fight over the water power rights in the Loup river by the decision of the district court at Columbus to the effect that Babcock is the man who holds prior rights. The other party to the controversy was A. C. Koenig, of Omaha, who was engineer for Babcock at one time. Babcock claimed that as Koenig was in the employ of his company any right that he secured belonged to his employers. The court so holds, and also says that Sharp, Boggs and other Lincoln capitalists who secured an assignment of Koenig's rights were not innocent purchasers.

The matter is back of the Central Power company, now contesting before the state board. As the law permits the right of appeal to the courts from the decision of the board, it is apparent that the decision of the board will cut little figure, since the matter is already in court.

The Commonwealth Power company, backed by the same interests as are behind the Central, has another contest before the board which will be heard late in August. Both concerns are really backed by big eastern capitalists anxious to get into water power investments.

### EXCAVATING MUST BE DONE BEFORE PAVING

Fremont, Neb., July 22.—The city council, at a meeting last night, served notice on local concerns that any excavation that is to be done for sewer, gas or sewerage purposes along Military avenue, must be done now, before the avenue is paved. The council will raise serious objections to the removal of paving brick later. It has been a source of much complaint that workmen employed by local concerns have ruined some of Fremont's best paving.

## FAMOUS MUSICIAN IS NOTED CRIMINAL AND NOW IN DORANCE VILE

### Madison County Jail His Present Abode, Attended By His Schuyler Bride.

Madison, Neb., July 20.—From unquestionable information now in the possession of the officers, Max Von Warner, a musician of a high order of ability, who was recently brought back from Seymour, Tex., where he had been arrested on telegraphic instructions from Sheriff Smith, charged with procuring \$30 from the Norfolk National bank on the endorsement of a check representing that he had money in a bank at Schuyler, to a level of varied and wide reputation, both in America and Europe. It appears that he has operated under many different names, but his real name is supposed to be Wilkins. He served a term in both the prisons of Belgium and the Netherlands, at Ft. Madison, Ia., and the United States penitentiary at Leavenworth, Kan., for using the United States mails to defraud, and the Ohio state reformatory at Mansfield, at Leavenworth, Kan., in April, 4, 1912. He broke his parole at the Ohio reformatory and that institution offers a reward for his return. He is a likely gentleman in appearance and was married at Schuyler last May to one of the most respected ladies of that city and she has remained with him at the county jail since he was brought to Madison.

A few days after the marriage Von Warner and his wife came to Norfolk to visit a friend of his wife and it was during this visit that the bogus check was passed. It is said that he attempted to defraud the Norfolk National bank by realizing on some sort of draft on an eastern bank, but the officials of that bank were too wise for him.

The scheme to defraud through the United States mails consisted in using the mails to solicit from theatrical managers money to pay his expenses to join their companies as a musician and then failing to show up. It is said that his full history is in the possession of County Attorney Nichols, but excepting admitting that Von Warner had been positively identified by the Bertillon system, that officer would give no further information.

Originally the old plant was organized as Fowler Bros. Packing company plant. The new plant ranks fourth in size among South Omaha packing houses.

## TURK BOMBS SUNK ITALIAN WARSHIPS

### Fierce Battle Waged For Forty-Five Minutes At Entrance Of Dardanelles.

Constantinople, July 20.—Eight Italian torpedo boats attacked the entrance of the Dardanelles at 1:30 o'clock this morning. The Turkish forts replied vigorously sinking two of the Italian warships and damaging the other six. The cannonade lasted 45 minutes.

The cabinet ministers were hurriedly called to the palace this morning where at a council of war it was decided to close the Dardanelles.

### BATTLE CAUSES FLURRY IN THE GRAIN MARKETS

Chicago, July 19.—Excited trading in wheat and corn resulted here from the news of the sinking of the Italian warships in the Dardanelles and the closing of the passage. Shutting off grain from the Black sea ports of Russia and other countries meant the stoppage of one of the chief sources of European supply and coming wholly without warning set speculators' nerves wild.

Wheat prices jumped as much as 2-3 cents and corn 2 cents. After the rush to buy was ended, however, fully half the advance was lost.

### SUFFRAGETS TRY TO KILL ASQUITH

#### One Hurls Hatchet At Premier—Blazing Chair Thrown Into Crowd of Theater.

Dublin, Ireland, July 20.—Eight English women have been taken into custody by the police in connection with the outbreaks here last night on the arrival of Mr. Asquith by suffragets who have been constantly dogging the heels of the British premier since he left England. The women are charged with complicity in the attempt to burn down the Dublin theater, where Mr. Asquith is scheduled to speak today.

A blazing chair was thrown into the orchestra from a box occupied by two women who then set fire to the box curtains. The fire caused a panic among the audience.

The eight are also charged with complicity in the attempt to injure Mr. Asquith, by throwing a hatchet at his carriage as the party was proceeding from the wharf to a hotel.

Mrs. Mary Leigh, one of the suffragets under arrest, was identified today by the police as the woman who hurled a hatchet at the carriage of Mr. Asquith. It is alleged by the police that she intended to "brain" Mr. Asquith. Mrs. Leigh has long been a leader in the violent tactics of the militant suffragets. As far back as July, 1908, she was arrested for breaking windows in a demonstration in London. At that time she was sentenced to two months in prison at hard labor. Mrs. Leigh told the court "the next time we come out you can expect bombs."

A year later Mrs. Leigh was again sentenced to two months at hard labor at Birmingham and on being released brought damages against the government for forcible feeding while in prison. The woman is described by the police as the "most troublesome suffragette" they have had to deal with. Mrs. Leigh was convicted for the eighth time in London last November for smashing windows and was sentenced to two months in jail without the option of a fine. The magistrate warned Mrs. Leigh that if she were again convicted she would be sent to jail for a long term at hard labor.

One of the women arrested last night gave the name of Gladys Evans and said she came from England.

Mary Leigh, Gladys Evans, Lizzy Baker and Mary Coffey appeared in the police court here today and were committed for trial. The police testified that a canister which apparently contained gunpowder had been exploded in the theater. They had found on Gladys Evans a bag of gunpowder, a portion of the theater cap exploded with petrol and a basketful of lighters. Three bottles of benzene and a tin of gunpowder also had been discovered by the police authorities. Their testimony brought out the fact that many lives had been endangered by the fire. The women admitted hurling the hatchet at Mr. Asquith's carriage.

## ELECTION OF CATLIN HELD TO BE CORRUPT

### House of Representatives Will Be Asked To Oust St. Louis Member.

Washington, July 20.—By a strictly party vote, the House elections committee No. 2, today voted to unseat Representative Theron E. Catlin, of St. Louis, republican, and to seat former Representative Patrick Gill, democrat. Mr. Catlin's campaign expenses were so great that the committee held his election to have been corrupt. It also held that Gill would have been elected, but for the use of money by Catlin's managers.

The vote was 6 to 2 to declare Catlin's election illegally effected. His term in the 1912 legislature ended July 19. The resolution will be reported to the House today for action.

On the motion in the committee to unseat Mr. Catlin, Chairman Hamill, of New Jersey, and Representatives Kobly, of Indiana; Broussard, of Louisiana; Lenthicum, of Maryland; Jacaway, of Arkansas; and Allen, of Ohio, voted aye. ### YOUNG CATLIN ENGAGED TO LEADER OF SOCIETY

St. Louis, Mo., July 20.—Theron E. Catlin is a son of Daniel Catlin, a retired multimillionaire tobacco manufacturer. He is 34 years old. Testimony in the contest developed that Catlin's father, through a firm of lawyers, spent more than \$10,000 in buying his son elected, but Theron contended he did not know his father was spending the money.

His father testified that his son did not know of the expense.

The Missouri law allows a candidate for congress to expend \$800.

Mr. Catlin, who was educated at Harvard, is engaged to marry Miss Laura Merriam, a daughter of former Gov. William R. Merriam, of Minnesota.

### PRICE OF CLOTHING HIGHER NEXT YEAR

#### Smaller Wool Clip Cause Of Advance In Raw Material, Dealers Say.

New York, July 20.—The price of clothes is going to be advanced next year. This increased tax on the already high cost of living is clearly indicated merchants say today, by the prices named by leading producers of cloth who have lifted the prices for the spring of 1913 above from 7 1/2 cents to 20 cents a yard above those which prevailed last year when the values for the past spring season were announced.

Cloth prices are higher for the next spring season, agents say, because of conditions over which the manufacturers have no control. They say that the most important factor that brought about the advance is that the domestic wool clip this year is about 30,000,000 pounds smaller than a year ago. The price of wool has also gone up abroad while mill owners say that the high scale of wages and the shorter working hours will also have their effect on the increased prices of cloth.

### REBELS DEFEATED BY YAQUI INDIANS

#### Over 300 Mexican Insurrectos Reported to Have Been Massacred by Savages.

Juarez, July 20.—Passengers arriving over the Mexican Northwestern from Madera today brought stories of a bloody massacre of rebels in Dolores mountain pass southwest of Madera at the entrance to the state of Sonora. They declared that the vanguard of the humn commanded by Gen. Antonio Rojas was caught in a canon at Dolores by nearly 1,000 Yaqui Indians and that of 500 rebels less than 200 returned to Madera in safety. That a force of government volunteers was operating behind Dolores to prevent an entrance of the rebels from Sonora was generally known here, but it was not believed any Yaqui Indians were enlisted in the cause of the government except the 600 fighting for General Sanjines at Colonia Oaxaca in northern Sonora. Federal officials in El Paso preferred to wait more definite advices before commenting on the report.

### STEALS OWN CHILD.

Buffalo, N. Y., July 20.—The little village of Attica was stirred last night when two women and a man in a touring car grabbed Mildred Sloan, the 11-year-old adopted daughter of John W. Sloan, a hotel proprietor and made off with her towards Buffalo. A playmate of Mildred gave the alarm and Mr. Sloan telephoned to Sheriff Hart, of Genesee county to put a man on a motorcycle and had the car trailed to Buffalo, where the women were arrested.

To Chief of Police Regan, the younger of the women, Mrs. Herman F. Lehman, 27 years old, said Mildred was her child, that she married Charles A. Deming in Chicago in 1899 and had divorced him in 1901, two months before Mildred was born. She came to Buffalo later and was induced by a city official to part with the little girl. Until last January she had not known where Mildred was. She determined today to kidnap the little girl and hired the auto in Buffalo for that purpose.

### Upward of Thirty Meet Death When Flood Wipes Out Mazuma and Seven Troughs.

Reno, Nev., July 20.—Searching parties from Lovelock and surrounding towns are scouring the flood swept canyon and hillsides near Mazuma and Seven Troughs, in Humboldt county Nevada, for bodies of victims of the catastrophe, which washed out the two mining camps yesterday.

Late advices from the scene of the disaster state that more than a score of bodies have been recovered and it is believed the death list will number 30 or more.

A revised list of the dead is: MRS. McLEANE, Mazuma. MRS. REESE, Mazuma. EDNA RUIDELL, postmistress Mazuma. MRS. CONCANNON, Mazuma. THREE CHILDREN OF MRS. KEHOE, Mazuma. MIKE WHALEN, Mazuma. PERRY GILLESPIE, Mazuma. FORTY-NINE UNIDENTIFIED.

The missing: MRS. KEHOE, Mazuma. At Seven Troughs, no loss of life has been reported, but the town practically was wiped out. At Mazuma a solid wall of water 15 feet high swept down the narrow canyon without warning. It carried everything before it. Just how many victims were swept to their deaths probably will not be learned until tonight, when the searching parties return.

Rescue work brought gruesome evidence of the tragedy. The discovery of the bodies of Mr. and Mrs. John Trenchard was followed by a surprise when it was found that neither was dead. John Trenchard is expected to die, but hope is held out that his wife will recover.

### CHINESE ASSEMBLY VEToes NOMINEES

#### President Kais' Cabinet Now Consists Of One Member and He Wants To Quit.

Peking, July 20.—The national assembly today vetoed all President Yuan Shi Kai's nominees for cabinet positions. As a result of the assembly's action the premier, Lu Cheng Hsiang, alone is left in office, and he threatens to resign immediately.

The rejection of the names proposed by the president of the republic was due in part to the objections of the Tung-Men-Hui, the name by which the party of ex-Premier Tang Shao Yi is known, to a coalition government and to dissatisfaction in some of the cities because of the alleged insufficient representation of those factions in the cabinet. The national assembly also was opposed to some of the nominees on personal grounds.

He is at the state asylum for the insane at Dixmont, where he was delivered in a pine box.

When the box was opened, under the eyes of the superintendent, Dr. R. W. Hutchinson, the insane man was found bound hand and foot and able only to move his head from side to side. A small grating at one end of the box permitted air to enter.

Harry Munshower had no clothes on when he arrived. He has not worn clothes for years. His hair hung down near to his waist. Neither hair nor beard has been cut for two decades.

The man is a son of S. S. Munshower, a farmer of White township, Indiana county, who died July 1. It was while arranging for the funeral that neighbors discovered the insane man. It was thought years ago that Harry had run away and that he was never heard of again by the family.
