

NATIONAL PACKING COMPANY DISSOLVES

Formal Statement Showing Distribution Of Assets Given Federal Attorney.

Chicago, July 22.—A formal statement showing the method of distribution of the assets of the National Packing company with a declaration that the company has been dissolved was presented to United States District Attorney James H. Wilkerson, today.

Counsel for the packers assured the federal officers that the distribution of the assets had already taken place and told him that complete details would be presented soon.

The plan of distribution adopted by the owners of the National Packing company, which was regarded by the government as an instrument used to control the meat industry, will be carefully scrutinized by federal officials and if it meets the approval of the attorney general will be allowed to stand. Should the federal changes may be made or court action taken by the government to induce compliance with its desires.

More Consolidations. According to the plan set forth by counsel, the assets of the National Packing company have been distributed in the following manner:

The G. H. Hammond company is taken over by the Swift interests.

The Omaha Packing company plant at Chicago, the St. Louis Dressed Beef and Provision company and the United Dressed Beef company, of New York, are also acquired by these in control of Swift and company.

J. Ogden Armour takes over the following subsidiaries:

The Fowler Packing company, the Anglo-American Provisions company and the New York Butchers' Dressed Beef and Provision company, of New York.

The Omaha Packing company plant at South Omaha is taken over by Morris & Co. There has been a similar division of the branch houses and selling agencies through the United States, according to a statement issued by Mr. Wilkerson, based on the packers' report of dissolution.

Property Distributed. The statement further declares: The attorneys for the different stockholders of the National Packing company state that the division of the property of that company in accordance with their plans to wind up business, has been practically completed. There has been an outright division of the property of the company and there is no joint ownership on the part of the interest that formerly controlled it. The property has been distributed among its stockholders in proportion to the amount of stock held by them.

It is represented that as to absolute ownership of these and other joint interests such as characterized the National Packing company and its subsidiaries.

"In other words the National Packing company wound up its business and its assets have been distributed among its stockholders," Mr. Wilkerson said.

Car Company Dissolves. Mr. Wilkerson said that complete details of the distribution of the property would be ready in a few days. In addition to the dissolution of the National Packing company, the National Car Line company, operating the refrigerator car system of the packers, has also been dissolved and the cars apportioned to each of the stockholders, the district attorney was informed. The announcement of the dissolution was made after a conference between Mr. Wilkerson and Attorneys A. R. Urion, Ralph Crows, M. W. Borders and Henry Vreder, representing the packers.

Mr. Wilkerson declined to express any opinion whether the plans of dissolution would be approved by the government.

"All we ask," said Mr. Wilkerson, "is that the packers dissolve and dissolve in reality, and not on a 'paper' basis. Whether the present plan will be approved by the government cannot be determined just now."

TRUST DISSOLUTION WILL NOT BE URGED

Chairman Stanley Says Report Was Circulated To Effect New York Stock Market.

Washington, July 22.—Chairman Stanley, of the House steel trust investigating committee, today authorized a denial of the reports that the committee would recommend the dissolution of the United States steel corporation.

Mr. Stanley declared he believed that reports given out to that effect had been calculated to affect the New York stock market.

Some of the things the democratic members of the committee really have agreed upon follows:

That hereafter the records of the officials of the Federal Reserve corporation shall be open to congress.

That they will propose to amend the act creating the department of commerce and labor to make the investigations of the bureau available to congress as well as the president.

This determination is said to have been influenced by the refusal of Herbert Knox Smith, former commissioner of corporations, to give to the Stanley committee the facts he had gleaned from the steel trade.

DEATH OF THE MIKADO AWAITED BY SUBJECTS

Life of Japanese Emperor Admitted By Physicians To Hang By Slender Thread.

Tokio, July 22.—The condition of Emperor Mutsuhito at 3 o'clock this morning was so critical that the ministers of state were assembled at the palace and the announcement was made that his majesty was sinking.

A bulletin issued by the attending physicians gives the history of the emperor's illness as follows:

"Since July 14, his majesty has been suffering from intestinal trouble. Great drowsiness followed the early attacks, this symptom increasing rapidly. On July 18 his majesty became unconscious and his brain was affected.

"On the evening of the 19th the fever suddenly increased, showing a temperature of 104.7. The pulse rate was 104 and the respiration 38."

Has Acute Nephritis. The court physicians in attendance on his majesty at 9 o'clock this morning diagnosed the case as acute nephritis.

Another bulletin issued from the palace at 3 o'clock this afternoon was as follows:

"The emperor has been suffering from diabetes since 1904. This developed into chronic kidney trouble in 1906."

It was announced later in the morning that uremia had developed. His majesty's bed has been moved to a sitting room in the palace. The empress remained at the bedside during the day. The crown prince, Yoshihito, who is recovering from a case of chicken pox, and is still confined to his bed, received the news of his father's illness this morning. He has not yet been able to visit the palace.

Princes Summoned. The imperial princes have been summoned from their summer residence and together with all the notables at present in the capital, they repaired to the palace, where they await the latest news from the sick chamber.

The present situation is without precedent in the history of the new Japan. The news of his majesty's illness came as an absolute surprise and its unexpected announcement resulted in the quick collapse of prices on the local stock exchange.

The return to Tokio of Prince Katsura, the former premier, who left some days ago on a mission to Europe, is expected. The prince was among the first to be officially notified by telegraph of the emperor's illness.

It became known today that his majesty was unconscious from this illness yesterday.

10 p. m.—No bulletin has been issued from the palace since 3 o'clock this afternoon, but it was learned from the imperial residence that his majesty's condition remains unchanged. He is semi-conscious. The physicians in attendance have not given up all hope.

Mutsuhito, the 121st emperor of Japan, was born at Kioto, November 3, 1852, the second son of the late Emperor Komei, upon whose death in 1867 he succeeded to the throne. He was crowned at Kioto, October 12, 1868.

CATLIN DECLARES HIS ELECTION WAS HONEST

Washington, July 22.—Representative Theron E. Catlin, of St. Louis, in a statement characterized as a "monumental fraud" the action of the House committee on elections in voting to recommend that he be deprived of his seat in the House. The committee decided by a vote of 6 to 3 to report that Mr. Catlin had not been properly elected because it was disclosed that his relatives had spent approximately \$13,000 in his campaign, contrary to the state law.

"The action of the democratic members of the committee on elections in declaring that Patrick Gill is entitled to my seat violates every principle of political decency and is a travesty on elementary justice," said Representative Catlin.

"Not a scintilla of evidence was produced in support of any kind, character or description. In order to consummate this monumental fraud and to seat Mr. Gill, the democratic members of the committee arbitrarily threw out votes of two wards, both of which I carried by very substantial majorities."

Chicago, July 22.—Mrs. Rene B. Morrow was found not guilty of the murder of her husband, Charles B. Morrow, an inventor, by a jury in Judge Kersten's court last night. The verdict was returned after the jury had deliberated three hours and 10 minutes.

He analyzed the state's testimony and said the prosecution had failed in its efforts to prove the guilt of his client. He bitterly attacked the police for the methods used in gathering the testimony.

His testimony was in the injunction suit brought to restrain the board from controlling prices of butter and eggs.

"It is a struggle for us to make a dollar now, because we always have to meet the prices offered by other firms," said Gallagher. "There is a tendency for a few large members or produce merchants to squeeze out the small man, isn't there?"

"Yes, there is and it is a mighty struggle to stand up under it," said Gallagher.

PRICE OF MURDER PLACED AT \$2,000

Detectives Trailing Crime Find That Gunmen Have Market Rate For Killings.

New York, July 22.—The gang of gunmen and black jacks that riddled Herman Rosenthal, the gambler, with bullets is believed by detectives today to have been procured by "Bald Jack" Rose, under pressure of the "police system," which was seeking to effectually close the mouth of Rosenthal against further charges that gamblers had to divide their gains with the police. Rose is a close friend of Police Lieutenant Becker, who was yesterday removed as the head of the "strong arm" squad which handles the gambling situation in the city. District Attorney Whitman has gleaned enough information to convince him that Rose, at the suggestion of or knowledge of the police, hired some of Jack Seelig's gang of gun fighters to make away with Rosenthal. The market rate for killing men by some of the East Side gunmen is said to be \$2,000.

Shapiro Turns Informer. From William Shapiro, driver of the "murder car," District Attorney Whitman and private detectives employed by him have learned that after the shooting the murderers looked around the scene of the crime with no apparent fear of arrest. Shapiro has told enough details to cause the public prosecutor to believe that the private detectives will soon round up the gang of gun-fighters whom the police have daily promised to arrest, but have failed to do. That the gambling plot and murder will lead deeper into the police department is now generally believed.

Shapiro told the prosecutor and the detectives that he picked up Rose and two other men, Tucky and Schapiro, by appointment on Fourteenth street and on the way uptown there were several changes made in the party. Information regarding these changes of the passengers in the "murder car" is being withheld.

Slayers Were Leisurely. Shapiro says that after the men shot Rosenthal they put their guns in their pockets and stood around for a time. After a while Shapiro says they walked leisurely over to the car and got aboard. The chauffeur said he worked with the motor, hoping the men would come, but that one of the murderers pointed a gun at him and said: "Quit monkeying and roll along."

Shapiro said the car made only 15 miles an hour and he did not see any chase being made to capture them. Going up Fifth avenue, Shapiro said one of the passengers said to him that he was a fool to get scared as no body was going to get into trouble, because the job had been fixed and the police were not doing anything.

Police Commissioner Dougherty secured from Rose the information that he was working for Lieutenant Becker early Monday night. Rose told the deputy commissioner that he was afraid of Becker and had gone to the house of Doris Gilchrist, Becker's divorced wife, on Monday night because he knew she was going to make an affidavit against Rosenthal. Rose told the commissioner that he was not surprised when he was told that Rosenthal had been killed, as he thought he would get it because he talked too much.

PARCELS POST BILL FINALLY COMPLETED

Bristow and Bourne Compromise On Zone Arrangements—Merchants Benefit.

Washington, July 22.—After a dispute of more than two months the Senate committee on postoffices and post roads has reached an agreement on the postoffice appropriation bill and the measure will be reported on Monday.

The parcels post provision, the principal matter in dispute, finally was thrashed out by Senator Bourne, the author of the provision in the bill and Senator Bristow of Kansas, former assistant postmaster general.

The maximum rate remains at 12 cents, the rate of the postal union. Senator Bourne and Bristow agreed upon the parcels post zones as follows:

First zone, length 50 miles; rate 5 cents for the first pound; 3 cents for each additional pound.

Second zone, length 150 miles; rate 6 and 4 cents.

Third zone, length 400 miles; rate 7 and 5 cents.

Fourth zone, length 600 miles; rate 8 and 6 cents.

Fifth zone, length 1,000 miles; rate 9 and 7 cents.

Sixth zone, length 1,400 miles; rate 10 and 9 cents.

Seventh zone, length 1,800 miles; rate 11 and 10 cents.

Eighth zone, length over 1,800 miles; rate 12 cents per pound straight.

Maxim packages 11 pounds. Senator Bourne originally proposed six zones to range in length from 50 to 2,000 miles.

The idea of shortening the zones is that it would be of benefit to the smaller merchants and that it would also increase the average income of the system and make it self sustaining.

As completed by the Senate committee the bill carries about \$262,000,000 or an increase of about \$4,000,000 over the House provisions.
