 This portion of the state was blessed with two fine rains again last week. Last Thursday night three quarters of an inch fell and on Saturday night we had a soaking rain that amounted to two and one quarter inches. These rains will make the largest corn crop that has ever been raised in this county as the ground now has sufficient moisture to insure the crop.

 Dr. W. H. Mullen of Bloomfield was in the city the latter part of last week visiting relatives. Dr. Mullen was around on crutches as he was suffering from a couple of broken bones in his foot that he sustained in a runaway a few weeks ago. The doctor is still as

enthusiastic a democrat as ever and an ardent champion of the "boy orator of the Platte." He says that the contest in his section of the state is between Wilson and Roosevelt as the president does not seem to have very many followers in Knox county
 Whenever the country newspapers find foreigners invading the field of the home merchants with goods and merchandise and selling them to farmers, they are asked to arise and whack the intruders and advise the farmer to buy their goods of the home merchants. And when foreign printing houses send their representatives among the merchants and business men, many of these merchants give them their orders and get inferior work for their money. That's reciprocity.
 Gresham Gazette: Polk county's bachelor sheriff, William Echlers, who was called upon to serve an attachment on a handsome young widow, had the following experiences: "Madam, I have an attachment for you." She blushed and said the attachment was reciprocated. "You misunderstand," he said, "you must proceed to court." She told him she knew it was leap year but she had rather he would do the courting. "Madam," he continued "this is no time for trifling. The justice is waiting." "Oh, I prefer a minister," she said. "A square married me the first time, and I had bad luck."
 Just think what a seat in the grand stand at the State Fair, Sept. 2nd to 6th, means in the line of attractions this year. Besides \$13,000.00 for races, which in the olden times constituted the full program, there will be aeroplane flights, concerts by great bands, vaudeville performances by experts, The Great Cheyenne Frontier Days Show, which has been induced to move down in its entirety at a "fabulous" expense, with its tribe of real Indians, its Cow Girls, Cowboys Outlaw Horses, Frontier Life on the Plains, the only team of Buffaloes ever driven, etc. It is a chance of a life time to see such attractions grouped. Let's go.
 Last week A. J. Shearer of Chambers sold his 1040 acre ranch near Washington and Frank Johnson of Iowa, for \$23,500.00, and will give the new owners possession on March 1, 1913. Mr. Johnson will move here next spring and take up his residence upon the ranch. Mr. Shearer has lived there for ten years and during the time he has owned the ranch it cleared him \$1,400 a year upon the increase in the value of the land, besides the money he made upon his stock during the same length of time. He has not decided as to what he will do but thinks some of moving to Washington and locating near Bellingham, where he has a couple of daughters living.
 Spencer Advocate: Al House, who lives on the Mohr ranch, five miles south of Spencer in Holt County, accidentally shot himself Tuesday forenoon with a double barrel shot gun. He was riding in a wagon with M. Libe and Pat Allen when the accident occurred. We learn through his brother, Harry, that they were near home presumably hunting, and that Al was taking the gun out of the wagon when the hammer caught on something and discharged, the load tearing a hole in the left side of his body just above the hip bone. Dr. Skelton was notified and went out in an auto and brought House to the hospital, where a thorough examination of the wound was made. No bones were broken and unless other complications arise there are hopes for recovery. Al House formerly lived in Spencer, but for the past year has been farming in Holt county.
 Miss Cora A. Smith, aged eighteen, was accidentally shot and killed by her brother, John Smith at their home about four miles east of Dorsey last Thursday evening about 5:30. Miss Smith and her sister-in-law, Mrs. John Smith, had been out picking berries and seeing a covey of chickens went to the house and notified Mr. Smith and he took his gun and the three of them started for the place where the chickens had been seen. While crossing a wire fence the gun was discharged the load taking effect in the left side of Miss Smith who died in a few moments. Coroner Wilson and Sheriff Grady were notified and they went out and held an inquest upon the body that night, the jury returned a verdict that the shooting had been accidental. The Smiths live upon a Kinkaid homestead on the Knox county line.

The Races.

The annual Race Meet opened very auspiciously yesterday a record breaking crowd for a first day being upon the ground to witness the races and they were treated to some of the best racing ever seen in this portion of Nebraska.
 The races upon the program yesterday were the 2:30 trot and the 2:18 pace and the horses in both races were so evenly matched that it took five heats to decide each race. In the 2:30 trot DePacy won the first two heats, but was closely pushed in both by Chas. Voorhees and Sunny Jim. He lost the next two heats but managed to win the fifth heat and the race.
 The 2:18 pace was another that kept the lovers of good, close racing upon their toes all the time. There were five starters in this race. Normie King went out and took the first heat, after being hard pushed most of the way around by Earthquake and the Major. Earthquake went in and won the next two heats, but lost the fourth heat to the major, but succeeded in winning the fifth heat and first money, although pushed hard around the track by Normie King. A half mile running race was won by Fire Catcher from a field of five starters.
 Walter Booner, the Moisant aviator, made a splendid flight about 7 o'clock in the evening. He arose to a height of between four and five hundred feet and soared away to the northwest going about two miles out in the country and then turned and circled around the town and back to the race track, lighting a short distance in front of the grand stand. During the flight he covered about six miles. After he returned to earth he was greeted with a tremendous cheer from the throng upon the grounds.
 Judging from the crowd the first day the management is looking forward to record-breaking crowds in the city today and tomorrow and judging from the races the first day and the splendid flight made by the Moisant aviator the people will be well repaid for their visit to this city.

The Country Editor.

Wait Mason: The country editor has to make much of the news he writes. The commercial club, the church, the base ball team, the law and order league, the college, the country central committee, the whist club and the good roads movement all must feel the influence of his guiding hand. He must be in everything and run errands for every one, send out the circulars, do the town song for harmony sake and hold the sack. He must be guide, philosopher and friend to those in trouble, and be mentor and admonisher to those who are about to get into trouble. The town drunkard, the preacher, the Statesman, the social climber, the real estate boomer, the man from the grand lodge who is about to exemplify the new work, the broken soldier kindly bade to stay, the captain of industry and the girl with the fatherless baby all come to him to help them in their troubles. He is the town confessor, the town boomer and the town goat, doormat, rock of refuge errand boy and the vicarious sacrifice. The editor is the only creature in all the wide animal kingdom that needs the wings of a dove, the strength of a lion, the protective odor of the skunk, the smooth, crawling belly of the worm of the dust and the aspiration of a God.
Leaves in the Editor's Book.
 Albion News: The editor who sits in his office and watches the mill grind for a quarter of a century knows well the leveling processes of time. He knows that one by one he will meet nearly every family of the community as mourners, as happy relatives of a bride or groom, in the society whirl, in the financial struggle, in the call of distant relatives, the death, funeral, obituary, the extra copies for distant relatives—how similar one death is to another, and they occur almost every day. To the one family it is one of the momentous moments of their lives. It brings the whole world into seemingly different relations with the members of that family. The magic hand that produces this sad condition touches here and there and with every touch the local paper has to deal. Joyful times comes in the same way and the editor is well informed of it. The public life to him is something of a book that he turns through, knowing practically each page before he turns it. Only what name will be in the sad column and what names at the feasts are in doubt. The facts are always old, only the names are new.
Woodmen to Vote on Rates.
 A bulletin just issued from headquarters says that the Modern Woodmen of America if they ask for it, will have a referendum on the new rates adopted by the head camp, the society's sovereign legislative body, at Chicago in January, 1912. This may be taken under the terms of the act adopted by the legislature of Illinois in special session last spring. It applies to fraternal beneficiary societies of Illinois with a membership of 75,000 or more which have increased rates since January 1, 1912, and provides for a referendum on petition of camps or lodges representing ten per cent of the entire membership of the society.
