S. R. MCKELVIE Governor.

A vote for Governor Aldrich is vote for a man who is fearless and independent in the discharge of the duties of governor. He is not owned or controlled by any clique or ring, people.

Fremont Tribune: Congressman Kinkaid has decided to response to a unanimous request of the republican committee of the Big Sixth, to recall his decision to drop out of public life. This means that the democrats will not get control of that district-not this year. Nobody can beat Kinkaid.

Morehead made no friends for his candidacy in his recent visit to O'-Nelli democrats, and the general impression is that he lost votes by his visit.

governor.

The people of the United States, irrespective of politics, are rejoicing over the fact that Colonel Roosevelt will not fall a victim to the bullet of the assasin, the latest from Chicago, where he is in a hospital, is to the effect that he will recover. The bearing and conduct of the Colonel in the face of death speaks volumes in his favor and convinces his bitterest opponents that he is the manly and courageous man his friends all claim. The effect the shooting will have upon the election this fall is problematical, but it seems to be the general opinion that it will add greatly to his popularity and may be the turning point in the campaign that will end in his election.

Alma Record: Two more well known democratic newspapers came out in support of republican candidates. The Minden Courier is supporting Geo. W. Norris and Governor Aldrich and says: "Aside from Governor Republican Candidate for Lieutanant and United States Senator, the Courier will support the democratic ticket in the main. We make this statement at this time so that all who oppose such a stand may look up the record of those men we will not support." Shield's Tamora Lyre, another democratic paper, says: "The Lyre has no but is a true representative of the disposition to wrong Candidate Morehead, either socially or politically, but it for one, contends that he should come out squarely and not dodge the issue. Simply because he is a "selfmade" man is no argument that he will "do the right thing "by all decent people should he, be elected to the governorship. The booze element look upon him as its henchman, a tool to do its bidding-and in conformity

The majority of the graded and state schools, serving six years as a principal in the state school Yet Morehead opposed them. Is this at Kearney, Neb. As treasurer of Boyd county for four years he made an enviable record, being considered by many, irrespective of party, as the most

efficient treasurer the county ever had. At present he is farming west of Naper in Boyd county where he is considered as a progressive farmer and citizen. His nomination at the late primary election was without opposition. His motto is "Let the people rule." He has sent his signed statement to the secretary of state promising to vote for the peoples choice for United States senator, in the 54th legislative district, if he is elected. A vote for Jacob A. Snider will be a vote for a man who knows the needs of his constituents, who has

the ability to go after what they want and the courage to do so.

The way in which Governor Aldrich has discharged the duties devolving upon him as a member of these various boards, as well as the executive departments over which he has direct control, reflects credit upon his ability as a business man. He is a keen, logical, argumentative public speaker and

a good parlimentarin. In considering the availability of Governor Aldrich for a second term, it is essential to keep in mind the fact that the experience that he has acuqired in the first two years of his administration is a very valuable asset to the people of the stete. In other words, in re-eleoting Governor Aldrich, the people will be re-electing an experienced public servant in the line of his duty who has made good and given the state of Nebraska a business-like and progressive administration.

## **ROOSEVELT A WINNER**

The daily newspapers of Nebraska being under the control of the corporations, are trying to conceal the truth from the people about the Roosevelt vote. They do not seriously deny that Roose? velt will carry nearly all, if not all, of the western States. Their claim is that in the middle and eastern states Roosevelt is weak-These falsehoods are published for the purpose of discouraging Roosevelt's friends. For the information of the Roosevelt men in this county we give herewith some polls taken in the eastern and middle states.

The Ohio Farm Journal, a nonpartisan paper, took a poll of its readers, and their answers up to the last issue of the Journal gave the following results:

A poll taken by the lodge officers in the brotherhood of locomotive engineers at Nashville, Tennessee, is as follows:

Wilson...3. Taft...o. Debs....1. Roosevelt...208.

A poll was taken of the factories in the city of Jamestown in the state of New York and here is the result, with the name of each factory, and the vote, and each reader can verify this poll for himself by writing to these factories:
