Auditor Howard threw a fit into the house by refusing to issue warrants for house employees certified to him because the number was in excess of the statutory limitation. However, the matter was cleared up by an opinion from Attorney General Martin, who held that the legislature was fully competent to make a direct appropriation for any service it deemed necessary, and if service was actually rendered, such appropriation was available regardless of the statutory limitation of employees.

During the week Gov. Morehead announced the following appointments: C. E. Harman, Holdrege, food commissioner and oil inspector, thus combining these two departments; C. W. YOU HAD BETTER BURN YOUR MONEY

AND SAVE YOUR ENERGY,

says DR. CYRIL G. HOPKINS, soil expert at the Illinois Experiment Station, than continue farming on the plan of taking from and not putting back into the soil those things which are absolutely essential to permanent, successful agriculture.

And he proves this statement. But he does more. After showing with irrefutable facts just why the prevailing American method of farming is ruinous, he demonstrates how you can make your farm yield from 30 to 40 more bushels per acre.

It's all in a series of articles entitled

The Farm That Won't Wear Out

Now appearing in THE COUNTRY GENTLEMAN.

This Week's Issue On Sale Today

The Homesteader's Gamble

is another big feature of this week's issue. It is by W. J. Harsha, a Colorado homesteader, and it tells the whole homesteading proposition from A to Z. Mr. Harsha has been through the mill and he says that a man who stakes a homestead and hasn't the two G's—gumption and grit—had better quit. He says further that a homesteader will stand a better chance of succeeding if he has \$1000 in cash.

Royal Baking Powder

Absolutely Pure

The Woman Makes the Home

She makes it best who, looking after the culinary department, turns her back resolutely upon unhealthful, or even suspicious, food accessories. She is economical; she knows that true economy does not consist in the use of inferior meat, flour, or baking powder. She is an earnest advocate of home made, home baked food, and has proved the truth of the statements of the experts that the best cooking in the world today is done with Royal Baking Powder.
