

BOND ELECTION FOR SCHOOL NEXT TUESDAY

Apparently No Opposition to Voting Bonds for New School House.

FIRE SCARE GETS OUT CROWD

Cockrell Pool Hall Scene of Fire Fighting Today.—Department Soon Gets In Action.

Next Tuesday is the bond election, when the proposition of bonding the school district for \$50,000 to build a new school house, will be voted upon. The matter is not creating very much comment either for or against. Everybody is pretty well agreed that a new school building is badly needed.

Any person qualified to vote at a school election may vote on the bond proposition next Tuesday. That means any one twenty-one years of age or over, either sex, who has taxable property or has children of school age. The election will be held at the usual voting place in the city.

A fire at F. W. Cockerell's pool hall at 11 o'clock today created excitement enough to bring out half the town. The fire originated apparently from the chimney between the ceiling and roof. Smoke was coming from the roof and front end of the building when the firemen got there. The fire was confined to the space above, no damage resulting to the pool room.

Occupants of adjacent buildings became a little uneasy until assured that the fire could not spread. The barbers in George Gibbons' shop took the precaution to convey their personal belongings to places of safety.

The Live Stock Market

South Omaha, Neb. Feb. 25.—From the Standard Live Stock Commission Co.

The cattle market is showing a nice advance this week in the price of killers of all classes. There seems to be a good demand and a broad out-let. Stockers and feeders continue active and stronger with a lively inquiry from all sources.

We quote: Choice beef.....\$7.90@8.50
Common Beef down to.....7.00
Choice Cornfed cows.....6.50@7.50
Good butcher grades.....5.50@6.40
Canners and cutters.....4.00@5.40
Veal calves.....6.00@9.25
Bulls, stags etc.....5.25@6.50
Good to choice feeders.....7.30@8.00
Common grades down to.....6.25
Stock heifers.....5.00@7.00
Good to choice range heaves 7.50@8.15
Common to good range heaves 6.25@7.40

Hog receipts have been too light of late to bring out much competition but values have been forced up. Bulk \$8.15 to \$8.20 top \$8.25.

There is a fair supply of sheep and a liberal supply of lambs arriving with an active market that can be quoted steady to strong.

Can we do anything for you? Do you intend to ship soon?

Engines Stalled Moving Church.

Newport Republican: The work of moving the Catholic church from Stuart has been delayed some on account of the engines not having enough power to move the building, making it necessary to use one of the C. A. Davison ditching machine capstan which will make the work considerable longer. The church, which is a very heavy structure, had been moved nearly four miles when the several engines that were used to move the building could not pull it

any more. The capstan method was adopted the first of the week and it will be a week or so before the building is in Newport. The church will be placed on lots donated by J. B. Menuey in the west part of town near the base ball park.

Arrested for Desertion.

Sheriff Grady went up to Kilgore Tuesday after Neil Hagerty, whom he arrested and brought to O'Neill to answer to a charge of wife desertion, complaint having been filed in county court by County Attorney Hodgkin.

Mrs. Hagerty, who has been working in Omaha to support herself and two small children and receiving help from a state charitable organization, is now at the home of her parents northwest of town. She has no desire to prosecute her husband on the criminal charge of wife desertion, but wants him to be ordered by the county court to contribute to the support of herself and children.

The hearing will be held in county court this afternoon.

Big Events Over in Court.

The rush is over in district court, the jurymen having been discharged last Thursday after the verdict was rendered in the personal injury case brought here from Omaha. Judgment was rendered in some equity cases by the court after the discharge of the jury.

Monday a case against the village board of Ewing restraining them from installing a new pumping outfit came on for hearing before Judge Dickson, who had previously issued a temporary restraining order. Some of the members of the board were present in court. Judge Dickson continued the hearing to a later date, meanwhile the temporary order remaining effective. Tuesday the court room remained locked.

No admission fee. Curtain at 8 p. m. Sharp.

Here is a pretty good logic, the author if which we don't know: When a man is nearly frozen from a ten mile drive on a cold winter day, he will hardly stop to read a plank advertisement. But a man at home in his arm chair with his legs crossed before a cheerful fire reads his local paper, and while he is feeling good and has plenty of time, picks out the live business men of the town from the advertisements in the paper and makes up his mind where he will trade on his next trip to town.

Considerable interest is manifest throughout the country in the forthcoming land opening of the Ft. Niobrara reservation. The date for the registration for the drawing has not yet been set. In accordance with the act opening the land for settlement, some small tracts are to be reserved by the government and these selections are to be made by the agents as the interior department gets to it, after which the time for drawing will be fixed. O'Neill has a good show to be made a registration point. There are some 50,000 acres to be opened to settlement, most of which is said to be good, hard farm land.

Humorous Yarns

A witty judge of the municipal court of Boston stoutly declared that "a patriot was a man who refused to button his wife's lingerie waist." "A martyr" he went on, "is one who attempts and fails while a hero tries and succeeds." "Then what is a coward?" asked a curious bystander. "Oh a coward," replied the judge, "is a man who remains single so he won't have to try."

Columbus Telegram: Nebraska missed having a second Abe Lincoln when the state failed to elect L. D. Richards to that office. The Fremont seer is as full of pat stories as Fremont is of politicians. His latest is an automobile story about a school boy and his mother taking a buggy ride. At a turn in the road a big, red automobile came suddenly upon them. The excited mother uttered a piercing scream, and threw her hands above her head. The polite auto-driver threw on his emergency brake, stepped down from his car, approached the buggy and offering his services in calming the horse, which did not appear to be as nervous as the lady. Seeing that the horse did not need any attention the gentleman asked the boy if he could be of assistance. The boy replied: "Please take mother by the hand and lead her around the machine and I'll manage the horse all right."

CUPID'S AGENT FOOLING SOME OF THE WISE ONES

Passing Off Letter Purporting to Be Written By Town Girl.

HOMESTEADERS LOAN AGENCY

Burlington Railroad Man Will Try to Organize Nebraska Capital and Place Loans.

Some chap is traveling over the state as cupid's agent. Several newspapers, including some of the big dailies, have "fell" for his "dope," which consists of a slangy but breezy letter purporting to be written on a "dare" by a girl of the town. The letter first showed up in a paper at Ravenna and purports to set forth the mind of the girls of that town toward the men who persist in remaining bachelors. The Frontier received one of these letters mailed in the O'Neill office yesterday.

If any of the O'Neill girls want to criticize the bachelor boys or enlist our aid in securing them desirable husbands we will be glad to help them out and promise absolute secrecy, but we draw the line on an outsider coming in here with a warmed over letter to pass off as the expression of the minds of O'Neill girls.

D. Clem Deaver, land and immigration agent of the Burlington railroad, is sending out letters to ascertain if homesteaders who have made final proof want to borrow money on their places. His plan is as set forth in the following letter addressed to The Frontier:

There are many millions of dollars on deposit in Nebraska banks. Some of the owners are looking for investment in good securities. There are thousands of Kinkaid homesteaders that have now made proof and want to borrow some money to buy milk cows with. Will you help me to get them together?

I am going to have a meeting March 14 in Omaha with a number of financiers who have money to loan on good security and would like to know how many in your locality have proved up on their 640 acre homesteads and want to borrow money to buy milk cows with. After talking with some of the men who have money to loan and with a large number who want to borrow, this plan has suggested itself to me, that the owners of the proved up 640 acre claims write out an application for five year \$1500 loans, giving the legal number of their land, full description of improvements, state that they are willing to invest \$1000 of the money in milk cows and give mortgage on the cows and their 640 acres, and state what they propose to do with the other \$500 and what rate of interest they are willing to pay.

If you will get the applications together for your locality and get them to me by, say March 13, I will present them to the people who have money to loan and it may result in the organization of a company for the purpose of loaning money to Kinkaid homesteaders.

If any Frontier readers are interested in this proposition they can send their application to this office and it will be forwarded to Mr. Deaver.

Buy a nice fresh milk cow, will guarantee her good and worth the money.—Con Keys.
