After the demonstration, government officials took possession of the invention.

What is held to be of more importance, the invention, it is said, can be turned to the saving of life by preventing train or ship collisions.

#### RIOTING SAILORS SACK INDUSTRIAL **WORKERS' OFFICES**

Seattle, Wash., July 19.—Declaring that a "condition of riot and tumuit," which prevailed last night, was in "imminent danger of renewal," Mayor George F. Cotterill, of this city, proclaimed his assumption of control of the city police force today, closed all saloons and ordered the suspension of publication of the Seattle Times unless proofs of each edition be submitted to him. The newspaper office was surrounded by police just before noon to enforce the order.

The publishers of the Times announced they had sought injunctions against the mayor and police. Clarence B. Blethen, managing editor of the paper, issued a statement charging Mayor Cotterill with responsibility for the riots of the last two nights in that he had permitted "the display of the red flag and spread of an anarchistic principles" upon the streets during the Potlatch festival. This, Blethen, said, had led to the attack upon

Aside from roken windows, no damage was done to the buildings. The damage to the Peniel mission meeting place, broken into by mistake, was not great.

The sailors, who led the mob, did not appear to be in a very ugly mood, and no one was seriously injured, alhough several men were slightly hurt in fist fights. Only one man required reatment at the city hospital.

# RULE IS ATTACKED

Southern Pacific Would Enjoin Enforcement of Order In California.

San Francisco, July 21.—The right of any single state to regulate the power of an interstate corporation to raise funds for disbursement in various states was attacked today by the Southern Pacific rallway in a suit filed here in the United States district court. The company seeks an injunction restraining the California railroad commission from asserting jurisdiction over a contemplated issue of equipment trust certificates aggregating approximately \$5,000,000, to be raised in New York anl spent in several western states.

The complaint contends, that if the right is granted to any one state to declare void securities issued without the approval of that state's delegated agent, such right must be conceded to all states. Such a condition, it is held, would set up a conflict of authority which would make impossible any general plan of finance satisfactory to all commissions.

Kong, China, July 21.—The severance of the province of Kwang Tang from the central government at Pekin was proclaimed by the governor of Kwang Tung today. The capital of the province is Canton.

The governor general declares that the provincial council has appointed him governor general and commander in chief to lead the southern troops against those of Provisional President Yuan Shi Kai. This step has been taken, he says, because of Yuan Shi Kai's despotism and his policy, which is calculated to ruin the republic. The governor general declares he will guarantee the protection of property in the district under his control. Business between Hong Kong and Canton has come to a standstill.

Dr. Sun Yat Sen, former provisional president of the republic, finally has taken sides in the revoit by openly proceeding to Nanking, where the southerners apparently are much disheartened by their defeat.

## PREDICT WILSON WILL RUN AGAIN

Washington, July 21. - President Washington, July 21.— President Woodrow Wilson is going to seek another term in the White House and run for the democratic nomination again in 1916, unless a lot of politicians in these parts are badly fooled. To be sure, nothing has emanated from the White House to the effect Mr. Wilson intends to make another try for the presidency, but on the other hand nothing has emanated from either the president or his friends to the contrary.

president or his friends to the contrary.

It is not long until 1916, as the course of politics goes, and latterly there has been a lot of talk in political quarters about the way in which the campaign then is likely to shape up. Most republican politicians and many democrats look on Mr. Wilson as seeking another nomination and as not at all unlikely to get it.

This, it must be borne in mind, has due reference to the ambition of Secretary Bryan, to the one-term plank in the Baltimore platform and to other phases of the situation.

It is perfectly well understood here that the close friends of Mr. Wilson have no use for the one-term plank in the Baltimore platform. President Wilson has kept quiet about it, but when a one-term amendment to the

#### FORGOT DESIRE TO QUESTION

Chairman's Reception of Would-Be Interrogator Somehow Discovered the Rest of Them.

At a political meeting in a certain New South Wales gold-mining dis-trict the chair was taken by an athletic miner. The candidate during his speech was much interrupted by hootings and rough chaff, and his chairman was soon in a state of boiling indignation. Smothering his wrath, however, he pacified the "boys" by assuring them that at the end of the candidate's speech they should be at liberty to put any question they chose. Accordingly, at the end of the harangue he arose and inquired in stentorian tones and in a rich Irish brogue: "His "inny gintleman a questhion to airsk?" A stout little Welsh miner, who had been a conspicuous disturber of the peace of the evening, shuffled slowly up the steps of the platform. But at the top he was met by the chairman, who, without the slightest warning, delivered a terrific left-and-righter, and sent the Welshman sprawling on his back. "Now," roared the chairquesthion to airsk?"-and there was no response.
