Big Damage Suit Started. A suit for \$35,000 has been filed in

the district court by Herman L Anderson against the Chicago Burlington & Quincy railroad company, for injuries alleged to have been received while in the employ of that company as fireman on October 19, 1909. In his petition he alleges that he was employed as fireman on an engine on the date above mentioned in Dawes county, Nebraska, and that when on the outskirts of the village of Crawford a collision occured between the engine he was on and a large number of box cars owned by said company. That while attemping to get off said engine he was partly thrown off and partly fell off sustaining injuries that has made him a cripple and that he ever will be sick, lame and diseased. That said collision was caused by the negligence of the railroad company and its employees. He says that the steam valves upon the engine were in such condition that a large amount of steam was allowed to escape and that it was impossible to see any objects ahead of said engine. After said injuries he was waited upon by representatives of said company and informed that the injuries were not permanent and that the first score across the pan their Government Land Open to Settlecompany they would provide him with benefits during his enforced absence from work and when it was fully determined as to the extent of his injuries they would settle with him, and that if a satisfactory settlement could not be affected he could then bring suit and that they would not raise as a defense that the statute of limitation ran against the suit. He further alleges that he was not aware of the permanency of his injuries until this spring and that when he asked for settlement the company replied that the injuries were received so long ago that the statute of limitation ran against it and they could do nothing for him, so he brings suit for the above amount, with costs of suit.

They blanked New York in their half of the same inning and in the very next inning they sinched the game by adding two more scores and drove one of New York's spet pitchers to the kennell.
