50 Good for Fifty Votes 50

This ballot when filled in and delivered to the contest department of The Frontier will count 50 votes in the auto contest for the person whose name appears on the face.

The first list of nominations already received, and published below, is good evidence that The Frontier's big offer has already created an interest far ahead of anything of the kind in this locality for a long time. And is it any wonder when you stop to think that the capital prize is equivalent to a fair year's salary?

But this is not all, other prizes will be awarded from time to time during the progress of the contest, so that contestants may have reward for their work as they go along, and no one, who does anything at all, can lose.

Now a word to those nominated. No one should hesitate to start to work because others from the same neighborhood may be in the list, or because of the apparently large number of nominations. The real fact of the matter is that the more who work

the easier it will be to win and the contest can be concluded in less time than if the field has to be covered by a few.

Another thing, it should not be supposed that locality is any advantage or disadvantage. A candidate residing in the smallest settlement in the county has just as good a chance to win as some one in or near to O'Neill.

Votes are what will count—not locality or position—and the ones who get the most votes will be the ones who go after them.

If your name appears in the list, there is either of two things to do. Communicate with the contest manager and state where or not you are going to make the race; but a little advice to everyone is to go ahead and take your chance with the rest. You have nothing to lose while even your spare time could make you the winner

of the best and most valuable prize ever offered in this county; besides there is the opportunity of winning several special prizes while trying for the big one, with the further guarantee of a cash remuneration if you do not win any of the prizes.

If your nomination is not in the list get it in at once and take advantage of this big opportunity for rich reward.

Remember that lots of people never get anywhere simply because they deliberately neglect opportunities, and bemoan their fate because they never have any luck. This is not a matter of luck but more a proposition of pluck and you might be the winner if you will try. You are sure to lose if you do nothing.

Strike while the iron is hot. Now is the time. The contest is just starting.

Further and detailed particulars of the contest will be found on another page, and the first list of nominations follow below. Everyone nominated has been notified by letter, and if any names have been omitted from the following list notify the contest manager at once.

The race is on. Who will head the list on the first count of votes, which will be shown next week? Who will win the first special prize—the diamond ring which will be given away soon? Get busy.
