

NEIL BRENNAN

Saves You a Clean \$25.00

What's the use of paying \$25.00 to \$30.00 more for extra plow bottoms or buying a sod plow when you don't have to! Instead, why not save the money and get a Rock Island No. 8 Gang, equipped with the famous "C.T.X." Universal Bottoms?

Rock Island

The "C.T.X." is the only universal bottom made. With the "C.T.X." you have one bottom for every purpose—sod, stubble, trashy corn land, mixed and sandy land, etc.

That means you not only save the cost of extra bottoms but you save the work and bother of having to change from one set to another. You can plow a field of sod, a field of stubble, and then a field of corn stalks, and do a better job in each case. You do better work and do it easier.

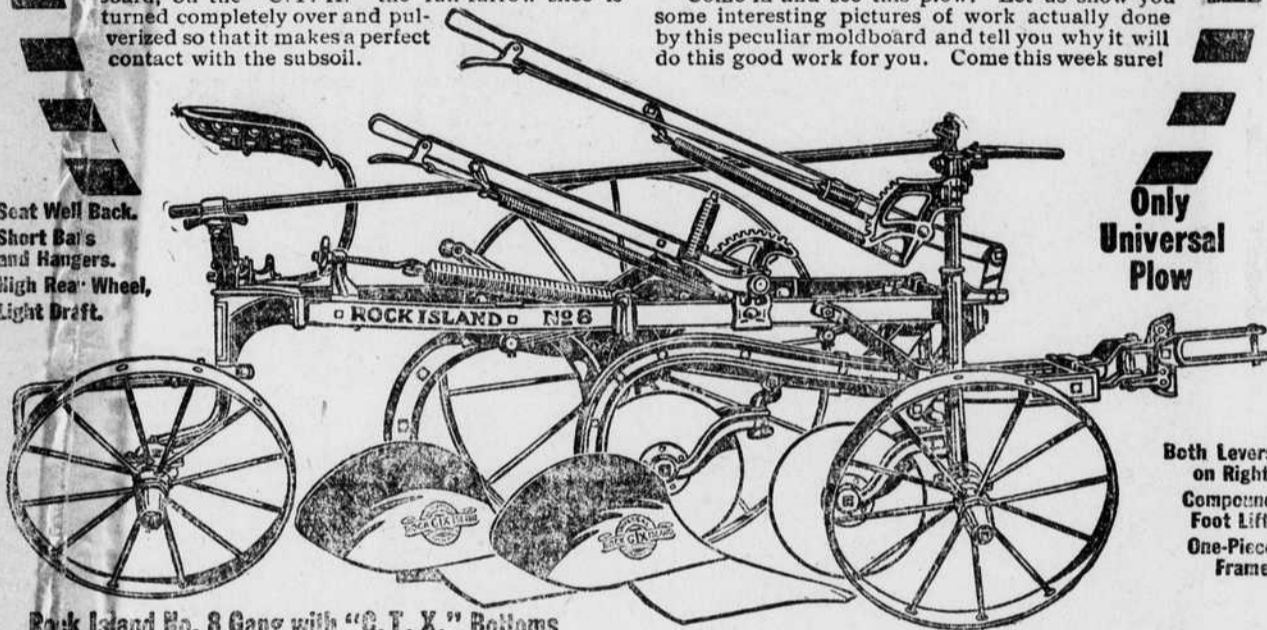

Because of the peculiar angler-like twist of the moldboard, on the "C.T.X." the full-furrow slice is turned completely over and pulverized so that it makes a perfect contact with the subsoil.

No air spaces, so the moisture comes up from the subsoil when the roots need it.

You get the one universal successful plow bottom on the best plow ever constructed. One-piece frame, easiest compound foot lift, light draft, ease of handling, simple and durable construction, all combine with the "C.T.X." Bottom to make the Rock Island No. 8 Gang the most desirable plow for you. Saves you the \$25.00 for extra bottoms, and means less work, better crops and more actual cash returns.

Come in and see this plow. Let us show you some interesting pictures of work actually done by this peculiar moldboard and tell you why it will do this good work for you. Come this week sure!
